Fickering Temperance Alliance.

Met at Brougham on Monday to consider what action should be taken in view of the petition of the liquor party to have the local option clause of the Liquor License Act repealed. About forty representative men were present from various parts of the township and a long discussion held upon the various phases of the matter. It was decided to take the ground adopted by the delegation to the township council at its late meeting, viz:

(1) The immorality of the traffic. A moral wrong cannot be made right, and there is great lizing a traffic that is fraught with so much harm, (a) It was only ascertained in July this year that the law was valid. It would be unfair to repeal a law which has had no fair trial; (3) That the petitions for repeal were circulated without allowing any public discussion to prepare the public mind, and many signatures are said to have been obtained from people who were misled as to the validity of the law. Every hotel keeper having now been fined that phase of the question It was further decided to meet the council and It was further definitely the text that ever. Never before did the ex Packages.
