

Result of a Neglected Cold. DISEASED LUNGS CURED BY TAKING **AYER'S Cherry Pectoral.**

Which Doctors Failed to Help,
I contracted a severe cold, which settled on my lungs, and I did what is often done in such cases, neglected it, thinking it would go away as it came, but I found, after a little while, that the slightest exertion pained me. I then

Consulted a Doctor who found, on examining my lungs, that the upper part of the left one was badly affected. He gave me some medicine which I took as directed, but it did not seem to do any good. Fortunately, I happened to read in Ayer's Almanac, of the effect that Ayer's Cherry Pectoral had on others, and I determined to give it a trial. After taking a few doses my trouble was relieved, and before I had finished the bottle I was cured. A. L. LEFLAR, Watchmaker, Orangeville, Ont.

Broke Three Ribs.
John Hyland, a teamster in the employ of A. McGrimman, had three ribs broken while unloading green mill wood at Mr. McGrimman's yard on Andrew-st. on Tuesday morning last. Mr. Hyland was alone at the wheel, and thinks that a wheel of the wagon passed over him. He struck the king bolt, which holds the wagon on tongue in place, on his way to the ground, and it is thought that it was this that broke his ribs, and that the wagon did not pass over him. There is no mark or injury on his body, except at the ribs, and about two hours after the accident blood commenced to flow from this. It was thought for a time that Hyland was fatally injured, but he is now getting along nicely. He has been in Mr. McGrimman's employment for years.

Money Recovered

About two years ago Mr. Gil. Boyd, of Gravenhurst, lost a purse containing about \$35, while engaged on a lumbering contract in the Whistons Lake neighborhood. Search for the money proved fruitless, and Gil. gave it up for lost, of course making no great blow about the matter. He was greatly surprised, however, a short time ago, to have the money returned to him by Miss Regan, of Orillia. The money had been found by the late Wm. Regan, V. S., in one of his journeys in the pursuit of his calling, but up to his death he had not been able to discover the owner. On his death bed he commissioned his twin sister to look for the owner and return the amount, and this commission Miss Regan has faithfully discharged. The following letter of thanks has been handed in:—To Miss Regan, daughter of John Regan, Esq.,—Accept my sincere and grateful thanks for the unexpected return of thirty-five dollars lost by me nearly two years back and my regret that the finder, your late lamented brother, Mr. W. Regan, should have been so soon after finding it out off by death. The fact of his earnest desire and commission to you to find out the owner and hand the amount to him, which you did on the 21st August, shows the integrity and uprightness of a life early removed from us. The remembrance of his and your kindness in the matter will ever be manifested in my unfeigned regard and esteem. I remain, madam, yours very sincerely, GIL. BOYD.

Death of Milton D. Kean.

Milton D. Kean passed away at the residence of his father, on Simcoe avenue on Saturday last, his death being unexpected. A couple of years ago he was visited with an affection of the brain which left him partially paralyzed on the left side. This weakness increased, and was the cause of his coming home, and subsequently of his death. Loving hands smoothed the way for him in his last days. To his fellows in town and his Orillia friends his memory will remain a pleasant one. During his business career in Orillia as a partner of the firm of F. Kean, Son & Co.; Milton, who was business manager, displayed a great deal of ability and push. Had he had good health he would have undoubtedly made a marked success of life.

Nervous People

And those who are all tired out and have that tired feeling or sick headache can be relieved of all these symptoms by taking Hood's Sarsaparilla, which gives nerve, mental and bodily strength and thoroughly purifies the blood. It also creates a good appetite, cures indigestion, heartburn and dyspepsia.

Hood's Pills are easy to take, easy in action and sure to effect.

UXBRIDGE
Our high school has again made an excellent showing at the examination, as will be seen by the results published recently. Compared with schools of its class in the province it stands high. In the 2nds there was not a single failure. We have eliminated from the Uxbridge list the names of half a dozen who passed here but did not belong to our school. Mr. Park and his assistants are to be congratulated on the continued good work of the school.

A meeting of the directors of the Midland Mutual Fire Insurance Co. was held at their office in this town on Tuesday and some necessary business transacted. The secretary informs us that the company is in a satisfactory condition and doing well. There have been no fire losses this year, and there was only one (of \$600) last year. So far the officers, directors and patrons of the company have no reason to be dissatisfied. They are getting what they wanted, viz: cheap insurance.

The state veterinarian of Wisconsin, has discovered that the yellow blossoms of America's national flower, the golden rod, hold the germs of one of the most dangerous diseases to horses ever known: it is incurable and resembles consumption in a man. The horses which eat the weeds to three months. Thousands of Michigan, Minnesota and Wisconsin. There is plenty of golden rod around this section but we understand it gives no trouble. We believe that the worst thing in the way of poison that our veterinarians have to meet is in alfalfa. A horse that gets into an alfalfa field in the fall and eats abundantly of the blossom will quickly need a Vet.

Mr. Alexander Skene, accompanied by his son and Messrs. T. W. Thomson, Charles Lott, jr., and John Rhodes, will leave to-day for the new country of Waibigon. Mr. Skene is taking a complete set of milling machinery, and no time will be lost in getting the saw mill and chopper in operation. He returns in a month but the others expect to remain all winter. Mr. Thomson's milling experience will come in useful to him and Mr. Rhodes can turn his hand to blacksmithing or carpentering, as well as farming. Mr. Skene tells us his car for the car for the machinery \$158, so it will be seen the freight is quite an item.

The wheelmen of the town consider the recent action of the town council to keep all riders off the sidewalks a harsh measure. A few bicyclists do ride to an immoderate extent and at an immoderate speed on the sidewalks, but we don't think there is a man in town who uses his wheel for business who can be accused of doing so. This compromise is therefore suggested: that riders be not entirely prohibited the walks where roads are bad, but that riding be at a slow pace, the chief of police to have full discretionary powers to warn or arrest a man for fast riding or to order him off the walks entirely. About the only street where any one needs to take the sidewalks is Brock street and there is seldom many people on the north side, while the walk is very wide. We are sure a regulation of the speed would serve the ends of justice and public safety.—Journal.

shake

We do not mean a shake of the hands; but a genuine malarial chill. Quinine is the best remedy for this. Yet when the chills have ceased, there remains a debilitated system, with loss of appetite and poor blood. For this condition take **Scott's Emulsion of Cod-liver Oil**, with Hypophosphites. The cod-liver oil is a valuable food, furnishing needed elements to build up the tissues. It also makes rich blood, bringing back color to the cheeks. The Hypophosphites increases the appetite, and gives vigor and strength to the nervous system.

The D. & L. Emulsion is invaluable, if you are run down, as it is a food as well as a medicine.
The D. & L. Emulsion will build you up if your general health is impaired.

"SAVED MY LIFE"

It's No Hopeless Wail, but Testimony With a True Ring to It for the Great South American Cures.

WONDERFUL TESTIMONIALS.

RHEUMATISM.—The Great South American Rheumatic Cure is safe, harmless, and acts quickly. Gives instant relief and an absolute cure in one to three days: works wonders in the most acute forms of rheumatism and neuralgia. "I was crippled so that I had to use a stick to get about," writes James A. Anderson of Calgary, N. W. T. "At times I suffered untold misery. I tried every medicine under the sun—spent six weeks in the hospital under special treatment, without any relief. I was induced to try South American Rheumatic Cure. After using two bottles I threw away my stick and went to work, and have worked every day since, and that was two and a half years ago."

KIDNEYS.—"I believe it saved my life," is the positive testimony of Mr. Jaa McBrine, Jamestown, Huron Co., Ont., in speaking of the miraculous cure of a complication of kidney troubles by the Great South American Kidney Cure. This gentleman was so severely affected that his physician had attend him daily to take the urine from him. The first dose gave him relief, and half a bottle cured him completely, dissolving all obstructions, and healing and strengthening the parts. South American Kidney Cure is a kidney specific only, and it does all that is claimed for it every time.

STOMACH AND NERVES.—Two thirds of all chronic diseases are due to disordered nerve centres. Cure the South American Nerve has proved this thousands of times. It is a powerful nerve builder and, in cases of acute indigestion and dyspepsia, has effected marvelous cures. Geo. Webster of Forest writes: "For a number of years I suffered greatly from nervousness, twitching of the muscles and sleeplessness. I tried almost every known remedy without relief. I was induced as a last resort to try South American Nerve. The first bottle benefited me, and five bottles cured me. It is a grand medicine and I owe my life to it."

Made Strong Again.

For the sake of others a Grateful Woman Praises Dodd's Kidney Pills.
PARANES (Special) Sept. 7.—The wife of Mr. Wm. Cranbo, a well known and highly respected farmer living near Chambers Post Office, not far from this place, has for a long time been an acute sufferer from kidney disease and weakness peculiar to her sex. Some time ago, despairing of cure, as a last resort, she procured a single box of Dodd's Kidney Pills. She now says, "every woman who suffers as she has suffered, should know that she experienced relief from the first few doses, and that the second box was all that was required to make her as strong and well as ever before in her life."

The Sons of Scotland picnic in Ethel Park on Thursday, Aug. 27th, was a fairly successful affair, the day being fine and the sports well contested. The steamers Islay and Enterprise brought excursions from points across the lake and the local Scots turned out en masse. Henderson and his two sons gave an excellent exhibition of Scotch dancing, and the dancing contests were of a high order and exceedingly interesting. In the racing and jumping a good deal of interest was centred, although the prize dancing was going on at one platform and the quadrilles and lancers at another. The tug of war, S. S. vs. all comers, was not a success, a dispute arising over it.
