The Chronicle.

WHITBY, OCT. 16, 1896.

Political Notes

Thanksgiving day in both Canada and the United States has been proclaimed for Thursday, Nov. 26th.—Messrs Watson, Cameron and McMillan, members of the Manitoba government, are in Ottawa trying to settle the Manitoba school question with the Dominion government.—The Dominion government has decided to appoint commissioners to investigate the different provincial penitentiaries under government control. E. A. Meredith and J. B. Noxon, Toronto, will commence at once on Kingston penitentiary.—Hon. J. I. Tarte, Minister of Public Works, will visit British Columbia soon.—The Ottawa Free Press, Liberal, says the lives of the cabinet ministers and Liberal members of parliament are made miserable by office seekers. It also announces that the thing is useless, as the government is determined not to introduce the spoils system in Canada.—The Young Liberals of Toronto have passed a motion condemning the interference of government officials, either Dominion or Provincial, in elections. Honest men of all parties will endorse this move.

Whitby Town Locals.

Indian summer.
Fill up your coal bin.
Collegiate institute sports to-day.
Get in your potatoes and apples.
Scott repairs all kinds of pumps.
Thursday was an ideal autumn day.
Miss Maud Annes is visiting in Port Perry.
Commencement exercises on Friday evening, 23rd inst.
W. A. Holliday, of Brooklin, was in town on Wednesday.
Mrs. Waltz, of Toronto, was a guest at the Whitby house this week.
Mr. Chas. Hodge, who is well known here, has opened a barber shop in Port Perry.
Peter Healky, a resident of Reach, was placed in the county jail on a charge of insanity.
Mr. John Rice says that his apple yield this year will be upwards of fifteen hundred barrels.
Mr. B. Waggoner, of Kinsale, was in town Thursday. Mr. Waggoner is negotiating for the purchase of the Whitby foundry.
Sir Richard Cartwright's son, Lewis, was buried at Kingston on Tuesday. This is the first break in the family. The funeral was private.
Mr. Geo. W. Wilson, Toronto, called on the CHRONICLE yesterday. He has been spending a few weeks vacation with his parents at Roslin.
Newcastle high school was totally destroyed by fire last Saturday. The loss is upwards of \$5,000; insured for \$4,000. The fire was, without doubt, the work of an incendiary.
The interior of Banel's hotel is receiving decoration at the hands of Mr. Chas. Miller, who is a pronounced painter of the up-to-date style. Mr. Miller has been in town but a short time and has already done several fine pieces of work.
A social, musical, and literary evening will be given by Messadams Carson and Lawler for their "talent fund," in All Saint's school house, Tuesday 20th inst., at 8 p. m. An excellent programme. Everybody invited, 25c.
Constable Calverley seized some effects on Tuesday belonging to Jos. D. Thompson, of the base line, by virtue of a distress warrant issued by Henry Meen, collector of taxes for the township of Whitby. It is thought that a sufficient amount will be realized to fully cover the costs and taxes.
An unlicensed hotel was raided at Otterville village, near Woodstock, on fair day, and ten gallons of whiskey and a lot of bottled beer seized. The liquor was stored in the magistrate's office. On Friday night thieves broke into the office, made off with the whiskey, and left this inscription on the walls: "Sacred to the memory of departed spirits."
Mr. Lamallice, who was book keeper for the Martin Manufacturing company two years ago, but who is now a specialist in advertising, sends us a copy of last Saturday's La Presse, Montreal, the advertising columns of which are entirely under his control. Although printed in French, a language which we do not speak as fluently as English, the advertisements are most artistic in design, and show that Mr. Lamallice stands ahead of everybody in Canada in his branch of art.
Farmers and townspeople having good winter apples for sale will find a purchaser by calling at Jackson's.
Popular Lecture
Dr. Hare has kindly consented to lecture on the "Harvest Fly" for the benefit of the W.C.T.U. in the Methodist Sunday school rooms on Friday evening, Oct. 30th.
Experimental sale.
When you may expect. We have received nearly a car load of boots, shoes, slippers, rubbers and overalls, trunks and valises.

Hide your Nostrums.

On Friday last Mr. Geo. Rice's little son, four years old, was perambulating about the house investigating things, as is the custom of young Canada, when he came across a bottle of oil of smoke. He tasted it of course and found that he had a mighty warm mouth. He raised a noise and a doctor was called in, when soothing remedies were used to stop the burning sensation, and the boy was soon as right as ever.

Farming.

We had occasion a month ago to call attention to "Farming," a new farmers' magazine which has taken the place of the Live Stock Journal. We are not agents for praising it, but we do so because we believe our farmer friends have no conception what a fine magazine it is for a dollar. Every farmer should take it and the old and reliable but always improving Farmer's Advocate. Farming is illustrated each month by about a hundred cuts as good as photographs.

Runaway.

Commodore Jackson is suffering from a lame leg, the result of a wheel coming off his buggy. It seems that he desired to take the shanks off and race them by a pole. To do so it is necessary to take off the front wheels. In replacing them one of the nuts was by mistake not put on. When the accident took place Mr. Jackson attempted to jump from the rig and sustained a strain in the ankle of the right leg.

Something like popularity.

It is little to be wondered at that there is such a tremendous demand for the Family Herald and Weekly Star of Montreal. So great is the rush that in August or September the publishers had to refer to adopt new subscribers, their splendid printing equipment being already taxed to its utmost to catch the mails. We hear the publishers have now got their lightning web presses speeded up and their mailing appliances improved, so they can accept a limited number of new subscribers. Those who have been permitted a private view of this season's premium, "The Orphan's Prayer," predict that the demand for the Family Herald and Weekly Star this autumn paper is only one dollar a year; coming every week, with one hundred and eighty-eight columns of the best reading of the day, and the latest and most reliable news record, is simply a thing that is beyond comprehension.

Bengough as an Entertainer.

In working their talent fund in connection with the Baptist church, Mrs. L. T. Barclay and Miss M. Ray succeeded on Friday night last in giving the people of the town one of the most cheerful entertainments for many a day. Twenty years ago Johnny Bengough used to amuse his playmates and adult friends by drawing pictures of the prominent men of the town, and it became apparent to all that he had the faculty of doing big things in that line. Friday last he came back to his native town to again draw the town celebrities, and to amuse and entertain his old friends with his extraordinary genius. His mimicry in words is not second to his imitations with the crayon. His voice can be made to do service in any dialect that is known to him. He can weave side-splitting yarns, every now and again hitting off political or social matters with apt puns. He can take off elocution, operatic singing, stage-struck performers, in fact anything that is open to merry criticism. Bengough is a man of the world, of his life, and it is hard to say whether he excels in drawing pen pictures or word pictures. The ladies who thus secured Mr. B. for a night's entertainment have laid the town under an obligation.

Mr. Henry Wilson was one of those appointed to canvass in Pickering to find out the feelings of the people in regard to local option. His field of labor was the south end of the township along the lake shore. In two days he found 86 people, 50 ladies and 36 men who believed in temperance. He says that although Lake Ontario affords a good beverage for thirsty people, there are still people along its shores who long for something more spiritual.

On Monday morning we received a rather flattering letter from an ex-Whitby boy, a graduate of Toronto university and a commercial educator of that city. A paragraph in the letter reads as follows: "I look upon the CHRONICLE as the best local paper in existence. It has a host of excellent correspondents, some of them writing with a cultured style, some staff at your office is one of the best you will find anywhere, and as for your ability as an editor, I will always have the unbounded respect that I pay you as a friend."

Stoves and Ranges.

Call and see our stoves and ranges. Wm. Bryant & Son.—45-21a.

Mr. W. J. Southam will conduct divine service in this church on Sunday next at the usual hours.

Parties wishing the above can be supplied by calling at the residence of Mr. Henry Gould or at Mr. Pringle's grocery.

A Hunting Trip.

Messrs. Perrin, of the Queen's hotel, and Lowell and Whitmore, two American apple buyers, were out partridge hunting yesterday and secured several brace of fine partridge.

Notice.

Hunters' excursions Oct. 27th to 31st and Nov. 2nd, good to return till Dec. 15th at single first class fare (except tickets read via Toronto.) For all tickets and information apply at Stephenson's tel., express and ticket office, Whitby. Also buy his tickets to or from England, Ireland, Scotland, B.C., Manitoba, anywhere, everywhere, choice of the best ocean S.S. lines, and the best rail-ways. See Stephenson, Whitby, before travelling.

Lacrosse excitement.

Much rivalry exists between the Markham and Stouffville lacrosse teams. Stouffville won the championship of the Midland district by defeating Beaverton, Uxbridge and Markham.

Markham lacrosse enthusiasts still think that their team is superior and have deposited a marked cheque to cover that already put up by Stouffville. They will play home and home game and the number of goals scored to count. The interest in these teams will excite a keen interest in the Midland district.

California and Mexico.
Old and experienced travelers will tell you when going west to take the Wabash railroad, because their train service is the finest in America, their Union depots are the best on the continent. Study a Wabash map and be convinced that it is the shortest and best route to Chicago, St. Louis, Kansas City, and all west and southwestern points. Ask your nearest ticket agent for tickets and time tables of this great railway or J. A. Richardson, Canadian Passenger Agent, northeast corner King and Yonge streets, Toronto.

Some Newspaper Snaps.
\$1. The Weekly Sun, (Farmers' Sun), 8 pages, chiefly controlled and edited by Prof. Goldwin Smith, and THE CHRONICLE, 8 pages of county news, in all 16 pages weekly, for \$1 to Jan. 1, 1897.
\$1.25. The Weekly Globe, 16 pages of general news weekly, and THE CHRONICLE, 8 pages of local news weekly, to Jan. 1, 1897, for \$1.25.
\$2. The Saturday Mail Empire, 24 pages illustrated, the Weekly Mail Empire, and

School Sports

Bowmanville collegiate institute foot ball team will play at the annual games here to-day.

The following events will be run off this afternoon on the athletic grounds, at the collegiate institute sports—

High jump—seniors and juniors.
Kicking football—seniors and juniors.
Putting the shot—seniors.
1 mile walking match—seniors and juniors.
100 yds. public school championship—srs.
100 yds. public school championship—jrs.
100 yds. public school, boys 8 years and under.
80 yds. public school, boys 10 years of age and under.
80 yds. public school, girls 8 years and under.
50 yds. public school, boys 7 years and under.
50 yds. public school, girls 7 years and under.
50 yds. public school, 6 years and under.
1/4 mile championship collegiate institute.
220 yds. championship, juniors (under 16.)
100 yds. race—seniors.
100 yds. race—juniors.
Three-legged race—seniors.
Three-legged race—juniors.
100 yds. race—pupils.
Relay races—juniors and seniors.
Consolation race.
Football—Bowmanville vs. Whitby C. I. To Correspondents.

Last week we had a complaint sent in that a correspondent had referred to a young world lover as doing some courting. All the people to do a little sparkling, but no newspaper writer should refer to such cases personally. It pleases young people to feel that they are courting in the quiet, although everybody knows all about them. They hate to be referred to publicly, and no writer should violate good taste and hurt the feelings by referring to them in any way—even by hinting at their courtship. Recently a young man who had some marriageable daughters stated in conversation that he would not allow local papers to come inside his house because he would probably read in the first one he unfolded a statement like this: "Who was the young man that drove up the sideline last Sunday with the tall bay horse and the yellow cart? We are out to you, Bill. You should make your visits terminate before the wee sma' hours." This newspaper correspondent not only refer offensively to the young man's visit, but they make a base insinuation to the effect that he stayed until daylight. We have frequently written that it is the business of a newspaper to try to do good, and the writer who has space at his command should seek to benefit instead of injuring those years ago often enough called upon to use hard words when evil people do wrong, without seeking opportunities to flay people by gossiping insinuations and uncalculated references to delicate matters.

A Sad Death.

The sudden death on Sunday of Levi L. Bailey, aged 19, son of our worthy townsman, Mr. Wm. Bailey, was a peculiarly sad affair. The young man was seized with violent pains on Friday last, and Dr. McGillivray called in. He diagnosed the case as being acute inflammation of the stomach, but was dissatisfied after treatment and called in Dr. Warren and Eastwood for consultation. Their combined skill failed to arrest the progress of the trouble and on Sunday night at 7 o'clock the poor fellow found relief in death. The doctors felt somewhat worried about their failure to check the case by a post-mortem examination. The stomach was dissected and found to have been corroded and eaten through in two places. To destroy the stomach in such a manner would require some solid corrosive, such as arsenic, corrosive sublimate, or something of the sort. Coroner Carson summoned Dr. Warren and Dr. Eastwood to the Bailey's and viewed the remains. In the afternoon the funeral to the union cemetery was a very large one. At night in the Queen's hotel the examination of witnesses was begun.

Inquest.—Dr. McGillivray described the symptoms of the patient when he was called in Friday night. He diagnosed the case as acute inflammation of the stomach and at first was hopeful of the young man's recovery, but on Saturday Dr. Eastwood was called in consultation. Dr. Warren also was called in consultation. The stomach was approaching death which came at 7 p. m. No stomach that organ was found to be perforated in two places, the larger hole being a quarter dollar piece. There was half a dozen granular spots as well, all in the cardiac or lower and larger end of the stomach. There was conclusive evidence of poisoning by some indigestible substance of an intensely irritable nature such as arsenic, corrosive sublimate, or something of the sort. Coroner Carson summoned Dr. Warren and Dr. Eastwood to the Bailey's and viewed the remains. In the afternoon the funeral to the union cemetery was a very large one. At night in the Queen's hotel the examination of witnesses was begun.
