Mrs. Ranson has been a great sufferer for years, her affliction taking the form of dizziness and violent headaches, and the attacks would come upon her so suddenly that she could scarcely reach her bed unaided, and would be forced to reus n for three or four days, unable to take any nourishment and suffering more than tongue can express. She was but seventeen years of age when these attacks first came upon her, and the doctor who then attended her, said that in his opin ion her life would not extend over a few years at most. But more than a score of years have since passed during the greater part of which, it is true, Mrs. Rinson was a great sufferer. But this is happily

new passed, and she is enjoying better health than ever she did. To a reporter of the Tribune Mis. Ranson told her serv, adding earnestly that she hoped her experience might prove of benefit to some other sufferer She said: "The spells of dizziness and intense beadaches wand attack me every three or four weeks, and would last from two to four days at each attack, and with each attack my suffering appeared to grow more intense. I had good medical advice, and tried many remedies, but with no beneficial results In the spring of 1895 my appetite began to fail, my hands and feet world swell, and my heart palpitate violently. I was utterly discouraged and felt that I would not live much longer. One day my daughter urged me to give Dr. Williams' Pink Pills a trial, but I had taken so much medicine with no benefit that I refused. However, she went to town and got four boxes, and to please her more than for any hope of benefit I agreed to take them. I did not funeral of their sister at Whitby on Saturfind the first box do me any good, but by day, who died after a short illness of ceeding promptness in relieving pain in appetite began to improve and I could sleep better. Rival Telephone Companies.

It will be remembered, says the Boston News Bureau, that some months ago the papers were filled with the great things the Harrison Telephone Company with its \$80,000,000 of paper capital, was about to accomplish as a rival of the Bell Telephone Companies throughout the United States. Investigation showed that the main asset of the Harrison Company was an opposition telephone exchange at Fort Smith, Ark., owned by the Harrison International Construction Company, but nevertheless great things were promis- has been re engaged for 1897. ed for the whole country. through all its varying moods if you have your clothing interlined with Fibre Chamois. This wonderful fabric is so light that you never notice its presence in a garment till you get out into the wind and cold, then you realize that you are cosily warm even tho' lightly clad. Fibre Chamois is a complete non-conductor of heat and cold, not the strongest wintry blast can penetrate it, nor can the natural warmth of the body escape through it-This

explanation and the fact that it sells for 25c a yard gives the whole story, and easily proves that for health and comfort's sake you can't do without it.
