

Result of a Neglected Cold. DISEASED LUNGS

Which Doctors Failed to Help, CURED BY TAKING

"I contracted a severe cold, which settled on my lungs, and I did what is often done in such cases, neglected it, thinking it would go away as it came; but I found, after a little while, that the slightest exertion pained me. I then

who found, on examining my lungs, that the upper part of the left one was badly affected. He gave me some medicine which I took as directed, but it did not seem to do any good. Fortunately, I happened to read in Ayer's Almanac, of the effect that Ayer's Cherry Pectoral had on others, and I determined to give it a trial. After taking a few doses my trouble was relieved, and before I had finished the bottle I was cured."—A. LEFLAR, watchmaker, Orangeville, Ont.

Pickering village is becoming notorious these days.

On Sunday night a number of residents in the west portion of our village, who were thinking of retiring for the night, had their attention drawn by some loud talking, running, yelling, and nearly every conceivable manner of noise making on the streets. The noise went on and gradually grew worse and finally to their surprise, the occupants heard stones being plied to their residences, and their fences being hammered with heavy sticks. This alarming them they went to investigate and upon opening the door caught sight of a gang of young men, numbering about eight or nine, running from their view. We do not know whether these were Pickering youths or not, but if they are we would advise them to quit or the result may be unpleasant for them. -News.
