Constable Calverley, as bailiff for Collector H. Meen of Whitby township, on Wednesday sold a number of stray chattels belonging to Joseph D. Accident

Mr. Chas. Taylor, landing wharf at this port, had a runaway and smash-up near the junction here on Friday morning last. The trouble started at the high bridge over the G.T.R. on Brock street, in passing another rig. The horse fell a little frisky and set off at a high speed. Taylor, in an attempt to tend to the junction, was finding that he could not control the horse before reaching the turn in the road, he sought to steer it straight on to the harbor. The animal turned the corner in spite of him, and in doing so capsized the cart on which he was riding, throwing Mr. Taylor heavily upon the ground. His right arm was found to have been broken near the shoulder, and of course he has many bruises, but will be out in a few days if all goes well.

All Scott loses his contract.

The Postmaster General's department has notified Alderman Scott that after three months his contract to carry the mails through Brougham will terminate, as per the saving clause which provides for its cancellation on a quarter's notice. New tenders for the handling of mails between Whitby and Brougham and the postoffice here and up-station will in the meantime be taken, and a new contract awarded, for which Mr. Scott will have as good a show as anybody else. Some parties who are ignorant of the procedure in such cases, are circulating a report that only supporters of the Liberal government will be in the tendering, but that is all nonsense. We doubt if anybody else will be willing to carry the bags to Brougham for the present price, which we understand is only a little over a dollar a day. It is stated that Postmaster-General Millock received reports that in some places mail contracts had been renewed for the full price after or changed, in order to place them all on a correct basis every renewed contract has been cancelled throughout the country.

The Stratford Evening Beacon of Oct. 7th, speaking of the Metropolitan Dramatic Co. which appears in a three nights engagement in the opera house next Monday, Oct. 26th, says:—"The dramatic season was opened here last night with the production of 'The Golden Giant Mine' by the Metropolitan Dramatic Company. The attendance was large considering the disagreeable character of the evening, and everybody present seemed to enjoy the play. The company is well balanced, and specially deserving of mention are Hall Harrington, Miss Dolly Armour, Miss Mina Connor, Duncan Le Moyne, and Chas. T. Mack. The company appears again this evening, producing 'Down the Slope,' together with new songs and dances. A feature of the performance last night was the excellent specialties worked in between the acts." Remember the prices of admission are 15 and 25 cents.

**Wood-Sawing Contest.**

James Fair and Thos. Cullen, two Oshawa fellows who are working on the improvements at All Saints' church, have been boasting over one another for some days as to which could cut the most wood in a given time with a buck saw. They made a wager, and on Wednesday night had the match at the Queen's hotel with Tommy Wilson as referee, Charley Stewart time-keeper, and Jack Craw stakeholder. Each had to buck four sticks of cordwood once in two. Fair fell off at a great clip but broke his saw and they had to start again. In the end he came out behind by 5 seconds, and had to liquidate the crowd, which during the bucking had cheered both to the echo.

**A case of mistaken identity.**

Mr. J. L. Whitehead, the popular and genial representative of a previous and much respected resident of our town, Mr. H. Simon, cigar manufacturer, London, Ont., had an experience here this week which was the cause of much merriment, and one which he is not likely to forget. He bears such a strong resemblance to Mr. John O'Donovan, who left this town eight or ten years ago, as to be easily mistaken for the latter. Mr. Whitehead arrived in town Monday night, and was at once accosted by "Hello, Donny!" and "Hello, Jack!" He made enquiries as to who his duplicate was, and choose to keep up the idea so long as it could be harmlessly done. He had oceans of sport, and very few will misrecognize him when he again comes to town.

**Dr. Hare's Lecture.**

Those who have never heard Principal Hare deliver a lecture are not aware of the credit they have missed. On one special line of subjects he has probably no equal in Canada, and he usually has a week's engagement annually at Grimsby to lecture to large audiences. On Saturday evening, Oct. 21st, he will give one of the most interesting of all his discourses on the Harvest Fly, in the hall of the Methodist church, on the Cornacle. The lecture is in aid of the W.C.T.U., which institution is striving hard to raise funds to maintain the free reading room during the coming winter, and Dr. Hare gives his services to the union free. As the lecture is so good, the object of great importance, the use of funds pressing, and the price of admission low, (15 cents), there should be a large audience, and our word for it, those who attend will hear a lecture which will prove a treat.

Visit to Sam Hughes' Kingdom.

We had the pleasure last week of visiting many relatives and good friends in North Ontario, over which realm Major Sam Hughes rules. A more prosperous or happy people one could not hope to see in any country. Everybody there appears to be industrious, frugal and thrifty, and as a result all are in the enjoyment of abundance. It would be a great advantage to our front country farmers to take a tour through the northern counties and note the methods adopted by farmers and their wives. For instance, we notice that at every farm place a big water tank is lowered in the earth where big chunks of last winter's ice may be seen floating around among the tall milk cans. As a result the butter is always of creamery quality, always of one color and firmness, and of the same taste and smell. The method of making is uniform and good. We do not speak for other people in this matter, but for ourselves we can say that we are unable in Whitby to get a particle of butter of such quality once a year. Farmers back there have not as good farms as a rule as they have here, yet they winter from forty to sixty head of cattle yearly, besides as many breeding ewes. Other productive signs are all to match. Their farm buildings are all large in size and modern in design, their roads splendid, mostly of a narrow, oval turnpike always graveled and smooth. From their talk we learned that Major Hughes and Dr. McKay, their members for the Dominion and Provincial houses respectively, are both very active and very popular. They are men who cannot be put to too much trouble in the service of those whose chosen representatives they are. It does one good to spend a week among so enterprising and progressive a people. Every day marks great improvements in everything appertaining to their interests.
