The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, an i gave it to For this sin he was bound to the rocks of Mount Caucassus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the vultures—the torments of a diseased liver.
