WHITEVALE.

Mrs. Annie and Miss Heron spent last Saturday at Mrs. W. S. Major's. Quite a number from this locality attended the funeral of the late Mrs. Purdie of Malvern. She had a great many friends in this section.

There has been a great deal of moving from one house to another during the last week or so. A moving epidemic seems to strike this town once every year.

This week will wind up the beefing for the year. There seems to be general satisfaction in the way the concern is managed and why should't there be when the farmers have been faring so sumptuously.

Would it not be fine to spend this week in the States. How lively things will be. Bryan has been brought into notice almost instantaneously and if we are not greatly mistaken, he will disappear almost as quickly.

Hallowe'en was celebrated here in rather royal style. Still we don't think that there was any serious damage, only the innocent pranks of the small boys. A great many people harvested their cabbage early and no doubt did right in removing the temptation.

Seemingly a great many of the country folk are making apple jack these days. It is great stuff to get filled out on. There is a cider maker out in Markham township makes the cider and boils it down for one cent a gallon. Why not throw in the apples when about it? Then the farmer can take his apples there and bring home the apple sauce. No doubt there will be some kept till it gets real tart because you know we have local option.

Our sidewalks are being repaired these days and not before they need it, as they have occasioned sore shins more than once, and no doubt a few naughty words.

Mr. T. P. White and Mr. W. G. Gerow have gone to the happy hunting grounds back of Georgian Bay. If game runs short take a crack at some of the many hunters there as no doubt they are very plentiful. You will not be hanged, for it has gone out of fashion.

It looks as though Canada is about to enjoy a season of prosperity at last with wheat selling at eighty cents or over and lots of gold in British Columbia, the CHRONICLE and the Canadian bible (to be) for one dollar and a quarter. Why we are right in the midst of prosperity!

From a recent issue of the London Advocate we clip the following: "The late Thomas Pugh of Whitevale, Ont., was born in the parish of Llambadarn-y-fawdd, Padsnorshire, Wales, in the year 1724, and came to Canada with his parents when he was but 17 years old, the family settling in the township of Pickering, Ontario county, upon the Pennabank farm, where the deceased continued to reside till his death. At that time the country was but partially cleared and Mr. Pugh could tell some very interesting and amusing stories respecting the logging bees and other pioneer experiences. Mr. Pugh early discovered the advantages of improving the native farm stock and by the continuous use of Shorthorn, grade cattle and improved sheep and swine of different breeds. On his grade animals he frequently took prizes, many being first awards, at the local and other fairs. About 15 years since he commenced to breed thorough bred stock, principally Shorthorn cattle and Shropshire sheep, generally having a herd of about thirty and a flock numbering over 200, which was his special pride and he spared no pains in improving them by culling, judicious purchases and importations, so that his stock got soon to be known and appreciated, and the farm of Thos. Pugh & Sons is now widely and favorably known. Mr. Pugh farmed on an extensive scale and by his untiring industry, careful habits, business tact and foresight in improving his live stock accumulated considerable wealth. Long owner at the time of his decease of several good farms and other property including his herd of Shorthorn cattle and Shropshire sheep, which latter will shortly be offered for sale by the executors of the estate. Deceased was at an early age married to Miss Annie Evans, who with 5 sons and 3 daughters survive him. From early manhood a prominent member of the Baptist church Mr. Pugh's time, talent and purse were ever available for its support and in furthering and aiding its missions and institutions."

J. Tarr was the guest of P. Coxworth last Sunday evening.

Mr. Dyer, president of the South Ontario S.S. Association, visited the school here last Sunday.

Messrs. Smith and Brody wheeled out from the Queen city Saturday and spent Sunday with friends here.

There is likely to be a plowing match at J. Beare's or K. Tweedie's before long.

Owing to the anniversary services at Zion Sunday, the congregation at the evening service here was not as large as usual.

C. Degeer is building an addition to his comfortable dwelling. When finished we may expect to see Mrs. Degeer in our midst.

Sidney Beare and his bride have started housekeeping at the old homestead. We wish them a long, happy and prosperous journey together.

We are sorry to have made a mistake in last week's paper, about the price of James Todd's farm, which cost him \$4,500, instead of \$2,500 as we thoughtlessly made it.

A kit of curious tools was found in a young man's buggy not long ago, along with which was a guarantee that with them it is possible to remove a gate, posts and all in less than two minutes.

Miss Rolland has resigned her position as teacher of the public school here. Her teaching during the year has been excellent and much regret is manifested by all who have an interest in the school on account of her resignation.

Mr. and Mrs. Snell, who were married at Uxbridge last Wednesday, spent a few days at Pleasant View farm. We do not know particular, but no doubt the union was agreed to by both parties, so we wish them many happy years of wedded bliss.

If rumor has it right we may expect several weddings around here ere long. Apparently this year has been the most successful leap year we have ever witnessed, owing, no doubt, to the fact that there will not be another for eight years, and that seems a very long time to wait.

When picking apples a short time ago for Jas. Phoma, F. Judd met with what might easily have been a fatal accident. He was standing on the seat of a democrat reaching for some rather high apples when the wagon ran out from under him. His coat caught in a limb tearing off all buttons excepting the collar button, which did much credit to the tailor, and held him as neatly and securely as any professional's knot could have done. Fortunately for Mr. Judd help was instantly at hand, the wagon was moved back, and he went on picking apples as if nothing had happened.—News.

Furrowing Winter Wheat.

Where winter wheat is sown, furrows should be run through the low places, and made deep enough to carry off surface water if it comes suddenly while the ground is frozen. The work should be done as soon as possible after the wheat is sown, as, if the leaf has much size, the plant partly buried in cold, moist ground cannot live through the winter. This furrowing out of wheat lands is less common than it used to be, as it doubtless wretches the reaping machines crossing the furrows. But it is better to cut the wheat in lands than to go over several square rods of land where the wheat was killed out by having water stand on it, which a furrow would have carried away. An under drain will not always carry away water, for if the ground is frozen over it the water cannot get down to it. We have ridden the reaper often in cutting wheat on furrowed ground, and never broke a machine in that way. In truth, the frost breaks down the soil and mostly fills the furrow with fine soil, so that it is always much shallower in the spring than it was when made the previous autumn.

People who go out with a gun to hunt the wary partridge, think that bird is worthy of the name "wary," but Mr. C. F. Young's experience this week was of an entirely different nature. Last Tuesday Mr. Young heard a crash of glass in an upstairs room and upon going to discover the cause, he found a partridge had flown through a pane of glass in one of the windows. The bird was easily caught, but Mr. Young, who is of a forebearing nature, let it go again, to smash—if it felt that way—some more windows.

The township of Thorah should follow the example of the municipality of Pickering and pass a local option by law. It would affect one tavern only that at Gamebridge and this, the people of the section have time and again declared they do not want.—Express.

A MESSAGE TO MEN.

Proving that true honesty and true philanthropy still exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send \$5. silver to cover postage and address, Mr. Geo. G. Strong, North Rockwood, Mich.
