We have always contended, and have not as yet obtained proof to the contrary, that "charity should begin at home " People who have enough and to spare have a perfect right to contribute to the Armenian or any fund they deem e deserving. But another duty as well devolves upon those who have gifts to bestow. Should not our own poor have equal claims upon us with those poor souls that are starving in heathen darkness. For more than twenty years we have been telling how Scott's Emulsion overcomes the excessive waste of the system, puts on flesh, nourishes and builds up the body, making it the remedy for all wasting diseases of adults and children, but it isn't possible for us to Il the story in a mere stickfal of newspaper type.

We have had prepared for us by a physician a little book, telling in easy words how and why Scott's Emulsion benefits, and a postal card request will be enough to have it sent to you free. To-day would be a good time to send for it. SCOTT & BOWNE, Belleville, Ont.
