

OXBRIDGE

A fire started in McGowan Bros' cellar last Saturday from the exploding of a lamp and had it not been for the prompt work of the firemen a most disastrous blaze would have resulted.

The firemen had three streams of water turned on in four minutes and quenched the flames. The fire started near the coal oil tank and at once had the most inflammable kind of material to feed on.

The damage to the building has been assessed at \$185; damage to the stock is placed at about \$2000.
