AYER'S Sarsa-parilla

A MEDICINE

WITHOUT AN EQUAL. statement of a Well Known Doctor

" Ayer's Sarsaparilla is without an equal as a blood-purifier and Spring medicine, and cannot have praise enough. I have watched its effects in chronic cases, where other treatment was of no avail, and have been astonished at the results. No other blood medicine that I have ever used, and I have tried them all, is so thorough in its action,

UXBRIDGE. Served with a writ.

Thomas Calloway, or probably F. N Raines in the name of Thomas Galloway, has issued a writ again Gould Bros. for \$2,000. This action is a contination of the course adopted by these gentlemen during recent years in municipal matters -a course which the people of the town have refused to endorse. The writ, although purely a matter of personal feeling, states that the claim is on behalf of the ratepayers of the town of Uxbridge, notwithstanding that the ratepayers have emphatically discouraged any such proceeding. However, it seems the law allows this priviledge to any dissatisfied ratepayer, no matter how small a one he may be. The writ further states that the claim is for the return of \$2,000 and interest for money belonging to the corporation illegally spent on the defendants' flume during 1835, 1893 and 1895. the following notice on the town :-To the Mayor and Council of the Town achieved by Dr. Williams' Pink Pills.

Died of Blood Poisoning Mr. Isaac Henry Watson, of Reaboro', widely known and much respected citi zen, died at his residence at Reaboro on Saturday, Jan. 2. Mr. Watson spent the Christmas holidays with friends in Mid land, returning home on Monday pre vious. On his return he found one of his cows had just died, and he at once pro ceeded to skin the animal so as to secure the hide. While thus engaged he chanced to touch his face with one of his hands, where he had slightly cut himself while shaving at Midland a day or two pre vious and got a little of the blood from the cow into the cut. Blood poisoning set in at once, and he died in three or four days. While at the funeral Sunday some parties noticed a cat eating the hide of this cow and it was suddenly seized with violent sickness, but has since recovered, thus proving it a case for for | ning of the year. investigation by experts. But when at last a from the shock. medicine is found that will cure its worth cannot be estimated in dollars and cents. It is without price. Such is the opinion of Mr. and Mrs. Hugh McCauce, of Ashdown, Ont. Mr. McCauce tells the story of his wife's illness and cure as Messrs. J. H. Elliott and C. E Brown follows: "For three or four years past my wife had been constantly failing in Polka showed ability of a very high order. The Sons of England in this village health. The first symptoms of her purpose giving a grand entertainment trouble were langour and loss of appetite, accompanied by bearing down pains and Mr. Wm. Allin had a fat cow die last headaches, which affected her periodicweek. Inflammation was the cause of ally. As time grew on she was attacked with pains in the region of her kidneys that became almost unbearable owing to their severity. Home remedies and different medicines were tried, but with no good results. Last winter she grew so weak and helpless that I was obliged

to seek medical aid for her, and accordingly sent her out to Barrie, where she received the best medical attention, the Miss Rogers, Enniskillen, has been result of which was only slightly benefic ial. On her return, owing no doubt to the tediousness of the journey, she suff ered from a relapse and her trouble came back in a form more aggravated than before. I noticed in a paper which I was reading one day a testimonial from one who had been cured of a similar trouble Mr. A. Pennington has built a new and although knowing that other remed case, there was yet a ray of hope. I therefore procured a few boxes of Dr Williams' Pink Pills and on my return home administered the first dose to my wife. It is perhaps needless to relate that before the first supply was exhaust ed she found great relief. My wife now commenced to enjoy a buoyancy of spirits and kept on taking the Pink Pills with increasing good results. By the time she had used six boxes her condition had so improved that her neighbors were almost unprepared to believe the evidence

of their own eyes when seeing the change in her appearance. Before taking the pills it was a severe task even to dress herself, much less to do any housework while now, although not having used any of the pills for more than a couple of months, she attends to all her household duties without the slightest incon venience. Taking all things into consideration, I feel it a duty I owe to other sufferers to recommend these little pink messengers of health which stood between my well nigh distracted wite and the jaws of a lingering but certain death.

The entertainment given by St Mary's church in the town hall on the evening of New Year's Day proved a grand success. Miss Elda Idle, of Toronto, was enthusiastically received. She possesses a splendid voice and a charming stage appearance. Her singing of the Strecato Her natural sweetness of voice is very apparent in the pretty Irish song Barney O Hay. We must not forget the newly organized orchestra, which at this concert played excellently. Altogether the committee proved a musical treat, seldom equalled outside of our large cities.

Granby Rubbers

It is no wonder that rubbers, which are not the same shape as the boot, should be uncomfortable. It costs money to employ skilled pattern makers but the result is a satisfactory fit. Each year

new patterns are added, to fit all the latest shoe-shapes, and Granby Rubbers are always "up-to-date." They are honestly made of pure Don't Draw the Feet rubber, thin, light, elastic, durable, extra thick at ball and heel.

According to the extensive and care fully conducted experiments at Kansas Experiment station, ten 1,000-pound steers in five months required 25,000 pounds of corn meal and 5,400 pounds of cut corn fodder to fatten them. At the Michigan station it was found that 120 sheep, weighing 80 pounds each, consumed in five months 25,072 pounds of corn and 18,006 pounds of clover hay. The gain during that time on the same amount of grain was given as 2,700 pounds on the ten steers and 5,472 pounds on the 120 lambs. The cost of corn was figured in each case at 35 cents per hundred pounds, fodder at 15 cents, and clover hay at 25 cents. The cost of Simply apply "SWAYNE'S CINTMENT."
