

A Common Affliction

Permanently Cured by Taking
AYER'S Sarsaparilla
A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that it would cure me. I purchased six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and used them without noticing any distinct benefit. Before I had finished the fourth bottle, my hands were as

free from eruptions as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

PICKERING
A crusade is being inaugurated in York county against wire fences on the grounds that they are injurious to the roads when the snow dies. So confirmed is this belief are some of our prominent residents that the Government will be asked to grant a small bonus to those who will build board fences along the road where drifts are known to congregate. They must have different kind of snow up there, as our township council has for a year been harassing the erection of wire fences at such places, and the improvement in the road has been admitted. There has not been sufficient snow to thoroughly test the virtue of wire fences this season, but the favorable opinion has been acquired in previous years.

Considerable changes have been made in the management of affairs at the Grand Trunk station here. As we said last week, Wm. Latchford, the night switchman, has been released. The night operator is required to perform more work than heretofore, and the day switchman, Geo. Seldon, has had the carrying of the mails added to his duties. It strikes us that the latter has long hours. The first passes up at 6 a. m., and the last one in the evening at 9. Many changes have been made along the road, the principal object being the reducing of expenses.

A number of those who were at the funeral of the late Donald Stephenson, have called during the past few days and each in turn stoutly affirmed that there was not a particle of truth in the report that the poll-bearers and mourners were armed for fear that an attack would be made upon the coffin en route to the cemetery. We got our information from the Toronto daily papers, and not seeing the statement corrected, subsequently reprinted the same. We deeply regret that the above papers were not more careful in publishing such statements, as it leads other people to make statements that are entirely uncalculated. Those who read our articles in connection with the matter cannot help but admit that they were justifiable, had the original story been authentic.

W. O. Leary has purchased the hotel at Woburn, and will take possession in a few weeks. In order to assume the management of that hostelry he has decided to make an auction sale of all his farm stock, implements, and such like. We extend our best wishes for his future success in the hotel business. The newly acquired property is, as we said, situated at Woburn, on the Markham road.—News.

LINDSAY

Yesterday afternoon about five o'clock Mr. Jas. Thornhill, while walking across Goose lake, found a well developed specimen of the condylura, or star-nosed mole on the ice. The little animal was making good time along the smooth surface, and Joe had to put on a spurt to overhaul it. It was placed in his mitt and taken to town, but died shortly after its arrival. It is a peculiar looking little creature, about the size of a small rat, covered with fine silky fur, as soft as seal. It has a ring of movable filaments, probably organs of touch, at the end of the snout. The animal is a rarity in this section.

Tuesday morning a man named Martin was brought before P. M. McIntyre charged with selling trout illegally caught. He had arrived in town on Monday evening with a sleigh load of fine frozen beauties, some of them weighing over eight pounds, and on Tuesday morning proceeded to dispose of his catch about town. However, he reckoned without his host, as he had not gone far before he was in the hands of the law. It appears Martin is an old offender, this not being his first visit to Lindsay on a similar errand, and when Inspector Archie Bradshaw's attention was called to the fact he had the man promptly arrested. The magistrate allowed Martin to go on suspended sentence, he have prom-

ised to sin no more—in this locality at least. The fish were driven up to the sidewalk on Kent st., and Constable John Crawford, acting as salesman, soon disposed of the lot at 25 cents a piece, first come first served. It was the cheapest fish sold in Lindsay for many a day, and it didn't take more than twenty minutes to clean out the lot. The amount realized was a trifle over \$9, which was placed to the credit of the receiver general at the Bank of Montreal.—Watchman.

LINDSAY.
Election of Reeve.—Owing to the resignation of Mr. Ray of the reevehip the election of the successor is necessary. We learn that Mr. Touchburn who has been a member of the council for the past eight years, six of which he was a chairman of the street and bridge committee, is a candidate. We hope that Mr. Touchburn will be elected by acclamation, which he well deserves, and thus save the town the expense of holding an election which would cost in the neighborhood of \$100. This amount would be of more benefit to the ratepayers if spent on the streets. Small though it is there is always room for more than has been appropriated for this department in the past.

The Haliburton train, in charge of Conductor Johns, had a very narrow escape from being wrecked on Saturday morning. As the train was nearing the I. R. O. junction driver Ralph Clarke and fireman Price saw two horses on Kendrick's creek bridge. It was noticed that the animals were about between the ties and could not extract themselves. The driver reversed the lever and both he and his fireman leaped from their engine before they came to the bridge for it seemed almost a certainty that the train would be wrecked. Fortunately, however, after striking and killing the horses the train kept the track and after running a short distance stopped. The horses were the property of Mr. Wm Hamilton and Mr. David Morgan, and had been hitched together and while drawing a load had runaway, clearing themselves off the sleigh. The escape of the train from being wrecked was miraculous, as it is more often the case that a horse is sufficient to throw a train off the track. Had the train been wrecked on the bridge, which is somewhat a frail one, the disaster would have been appalling, as the day being Saturday there were many passengers on board.—Warder.

ORILLIA

On Tuesday, a girl about nine years of age went to the Dairy house to feed a horse which a farmer's wife had driven in, and said she was sent for it. The vehicle was given her, she drove round for two companions, and took them "for a drive." When the rightful owner applied for her property, it was missing. Constable Dreyer and Mr. Daly overtook the party at the market, and the girl "of the first part" was taken before Police Magistrate Lafferty, who administered a "caution" and sent her home.—Packet.

Kicked by a cow
Mr. John Clinkscales, East street, was kicked by a cow on Sunday morning and seriously injured. While milking in the stable the animal became frightened, and had inflicted some terrible blows with its hoofs before Mr. Clinkscales was able to rescue his wife. Mrs. Clinkscales is seriously bruised but fortunately no bones are broken.—Times.

MUNYON JUSTIFIED

The People of Ontario are Satisfied and Convinced.

ALL WILL TESTIFY That Munyon has Kept Faith With the People and Made Good HIS PROMISES.

His Remedies Are Becoming the safeguard of the Home. The People Have Trusted and Have Not Been Deceived.

For nearly seven months now the Munyon Remedies have been before the people of Ontario. They were represented as medical discoveries of more than ordinary value. They were represented as almost certain cures for certain diseases. They were put out as safe home remedies which could be depended on in emergencies or in the treatment of any disease. The people were told that Prof Munyon would teach them to doctor themselves. Mothers were told that with Munyon's Guide to Health in their hands and Munyon's Remedies within reach they could be mother and family physician all in one.

How well every promise has been kept the hundreds who have found health in Munyon's Cures, who have had their pains and distresses removed, can testify. Mrs James Millan, 288 Buller Street, Woodstock, Ontario, says: "I have suffered with catarrh and bronchial affection for the past fifteen years, and I was getting worse each year. I had lost considerable flesh and was so weak I could scarcely walk across the floor. I doctored with several doctors and tried every thing I heard of, even getting medicine from New York. The last doctor told me he could do no more for me and I could not be cured. I felt I could not stand it much longer. I had distressing cough, had to sit up in the chair night after night and was, in fact, a physical wreck. My family advised me to try Munyon's remedies, but I had no faith. To please them I got the Cough Cure, Catarrh Cure and Catarrh Tablets. I noticed an improvement almost from the start. I am now feeling better in every way and can do all my own work, and walk a mile without feeling tired. My appetite is good and I feel I am on the high road to recovery. I have not felt so well in nine years."

Munyon's Rheumatism Cure seldom fails to relieve in one to three hours, and cures in a few days. Price 25c.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price, 25c.

Munyon's Cold Cure prevents pneumonia and breaks up a cold in a few hours. Price, 25c.

Munyon's Cough Cure stops coughs, night sweats, always soresness, and speedily heals the lungs. Price, 25c.

Munyon's Vitalizer restores lost vigor. Price, \$1.

W Monk who has been on a trip throughout Hamilton has returned home looking hale and hearty.

A goodly number from here took in the mayor's supper at Ebenezer on Monday evening and report a good time.

Although the weather for some time of late has been all that might desire for this time of the year, yet bad odds seem to be quite prevalent.

With much regret we state that Mrs Brooks is in very low health at present. Her many friends are longing to hear of her complete recovery.

KIDNEY PAIN.

John Snell, of Wingham, Ont., was in a state of Pain and Agony from Diseased Kidneys—South American Kidney Cure was the Welcome "Life Preserver"—It Relieves Instantly and Cures Surely.

"Five years ago I had a severe attack of a grippie which affected my kidneys and caused intense pains in my back and urinary organs. I suffered untold misery, at times I could not walk, and any standing position gave me intense pain. I became worse so rapidly that my family became alarmed. Just at this time I noticed South American Kidney Cure advertised. Although I had little faith left in any remedy—having tried so many worthless ones—but a drawing man will grasp at a straw, and I procured a bottle. In a few days it had worked wonders, and before half a bottle was taken I was totally relieved of pain and two bottles entirely cured me."

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partakes of it like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the system. Dr. Farnum's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the bowels and convert the food partaken of into healthy nutriment. They are just the medicine which troubled with indigestion or Dyspepsia.

Death of Mrs Plank
The death of Mrs. A. C. W. Plank, which occurred Wednesday week, was briefly announced in our issue of last week, was learned of with regret by all residents of our town and this section. Deceased has been ailing for a long time, and her death was not altogether unexpected. Mrs. Plank was one of the pioneers of this section, coming to Uxbridge from Whiby over thirty eight years ago. Her husband, the late A. C. W. Plank, who demise occurred some ten years ago, was one of the most prominent pioneers in the early days of the settlement of Ontario county, and was a man widely and favorably known throughout its precincts. The deceased lady was a prominent member of the Methodist church, of charitable disposition, and highly respected by the whole community. Two children, Mrs. Howe, of Dayton, O., Mrs. Gipin, of Uxbridge, M. W. Plank, of Ottawa, and Messrs. Charles and Fred., of Uxbridge, are left to mourn the loss of a kind and thoughtful mother. The funeral took place on Friday last to the Uxbridge cemetery.—Times.

Thought she knew him
As Mr. Wetherald, the Quaker preacher, who is visiting here, entered Crosby Bros.' store the other day a little daughter of Mr. George McGuire looked up at the tall man with the white beard and for coast said "I know who you are."
"Well, my dear," he asked, "who am I?"
"You're Santa Claus," she said with a confident answer. "No," he said, "I'm not Santa Claus," and noting the puzzled expression on the child's face, he added: "I'm Santa Claus' brother." Then he bought her some candies. Holding out a handful she said: "Give these to your brother," but he told her to keep them all, as his brother did not need them. This puzzled her again a moment, then with the brightness of a lightning idea she exclaimed: "Why, of course; he makes them, doesn't he?"

Complimentary supper
To mark their appreciation of the valuable and timely services of our volunteer fire brigade at a recent fire, Messrs. McGowan Bros. entertained the brigade and some of their friends to a supper at the Queen's hotel Tuesday night. About forty sat down to the repast which was nicely prepared and deftly served. Some of Mr. McGowan's Scotch tunes on the violin made the boys shuffle their feet and long for "a little step." At eleven o'clock the toast of McGowan Bros. was proposed and suitably honored, after which "Auld Lang Syne" and "God Save the Queen" brought the affair to a close. One per cent month.

A gold mining company in Toronto advertising a certain amount of stock for sale at less than par on which they and their bankers guarantee one per cent. per month for five years. To the ordinary mind it seems strange that such an investment should have to be advertised extensively day after day in order to get people to take advantage of it. If the hundreds of capitalists ready to gobble the whole amount of stock offered, an director can make good such a guarantee as this, they should be able to raise the necessary funds at half the rate of interest and without spending a dollar on advertising. We are afraid this gold mining business, to which so many respectable people have lent their names, is very much like patent medicines—the advertising is the best part of it.—Journal.

I saw in your paper that a 18 year old boy made \$1.25 the first hour he worked selling the Perfection Metal Tip Lampwick. I ordered a sample and went to work and the first week I cleared \$10, the second week I cleared \$15. I expect to run up to \$25 a week in the near future, as the Perfection Metal Tip Lampwick makes such a beautiful white light and does away with smoky chimneys and bad odor and saves oil, it is easy to sell. If you wish to try I send 18 two cent stamps to Miss A. M. Fritz, Station A, St. Louis, Mo., and she will send you sample gratis, this is a good way to make money around home. MISS TINA W.

THE MEN WHO MADE THEM
The men who made them say that they are made of tough stuff and can stand anything, generally saying that death is made of tougher stuff and are found in a coffin at an age when they should be doing their best and most useful work. It is time enough for a man to brag about his toughness when he has reached a ripe old age. The men who live long lives are the ones who care of their health in youth and maturity. They realize the truth of the saying that "a stitch in time saves nine." The ones who don't do this die off of nervous prostration, heart failure, and consumption.

The best of all health-restorers and Medical Discoveries is Dr. Pierce's Golden Medical Discovery. It cures a large percentage of all cases of consumption. It wards off nervous troubles and wasting diseases. It corrects all disorders of the digestion, invigorates the liver and restores the appetite. It fills the arteries with the pure, rich, red blood of health. It tears down and carries off old, inert and half-dead tissues and replaces them by new. It builds firm, healthy flesh. It makes the muscles strong and elastic and steadies and tones the nerves. It cures debility and weakness of every description. It is the product of the life-time experience and study of an eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thousands of men and women have testified to its virtues. Druggists sell it.

There is nothing in the world "just as good." Although avaricious druggists will sometimes say so for the sake of the greater profit to be made upon the inferior article.

Twass Hard Work Fifteen Years Ago.

To-day Diamond Dyes Make Home Dyeing Easy.

Fifteen years ago the work of home dyeing was just in its infancy. The old-fashioned, crude preparations were then in vogue, necessitating much time and great expense, while the results, even with the greatest amount of care, never brought satisfaction.

The introduction of Diamond Dyes revolutionized home dyeing work completely. Diamond Dyes saved time and money to thousands of busy women, and at once became popular in every family. Each succeeding year found the Diamond Dyes improved in color, brilliancy and durability of shade. To-day they stand far ahead of all other dyes in every leading point, and are as perfect as science can make them.

There are many imitations of Diamond Dyes in the land, and many women are deceived when purchasing. In order to insure absolute success in home dyeing set that every packet of dye you buy is marked "Diamond Dye."

How the Dipper Saved the Farm.
Father was sick and the mortgage on the farm was coming due, I saw in the Christian Advocate where Miss A. M. Fritz, of Station A, St. Louis, Mo., would send a sample containing in every 18 two cent stamps, and I ordered one. I saw the dipper could be used as a fruit jar filler; a plain dipper; a sick strainer; a funnel; a strainer funnel; a sick room warming pan and a pint measure. These eight different uses make the dipper such a necessary article that I went to work with it and it sells at very near every house. And in four months I paid off the mortgage. I think I can clear as much as \$200 a month from the business you can do well by giving this a trial. Miss A. M. Fritz, Station A, St. Louis, Mo., will send you a sample for 18 two cent stamps—write at once. JOHN G. N.

Toronto Dressed Meat Establishment.

Toronto is to have an abattoir at last. Satisfactory arrangements have been made by the Grand Trunk Railway with Mr. Macdonald, of Galt, for the establishment of an abattoir on the plot of ground near the hog market. Mr. Macdonald will expend from \$15,000 to \$25,000 in buildings, with cold storage. The industry is expected to employ a large number of men. A certain number of dressed carcasses are to be shipped over the Grand Trunk Railway every week for export.

The argument as to the scrutiny of local option vote in the Township of Pickering took place at Paine's hall, before Honourable Judge Hartnell. Mr. Duvernet represented the township of Pickering, and Mr. E. E. Farewell represented the Township of Picketon. There was a large attendance.

Mr. Duvernet objected to Mr. E. E. Farewell representing ratepayers whose names are not handed in, in order that if they are awarded against the said ratepayers they may be held for the amount.

His honor said that Mr. Duvernet was allowed to object to objection.

Mr. Duvernet gave the names of W. J. L. Wm. Henderson, Clarkson Rogers, J. Poucher, Ed S. Wilson, Dr. Bates, Joshua Bundy, Claremont, Rev Mr. Auley. Mr. Duvernet said he understood the responsibilities and consequences appearing.

Mr. Duvernet said the bill of particulars contained a great number of provisions, and of other charges of irregularities, such as admitting the polling booths, etc. There are several classes objected to: farmers' sons, residents, and men not otherwise qualified. The majority against the township was 58, while 104 farmers' sons voted.

The complainants further state that they were objected to and thrown out should have been counted against the law which should not have been counted against Alex. Margach, a deputy return officer, freely admitted people to booth, and marked the ballots of all voters in the presence of many persons to his booth and marked a literate voter in their presence; Fred Meen freely admitted people to booth, and that he left it for a time the ballots and box exposed.

D R Beaton, township clerk, swore an oath of Pickering. Have produced all papers, ballots, etc., ordered. List of farmers' sons voting on the ballot was 104. The list of non-residents voted is 4.

The first case of this sort was Rodd. His case resulted in a township but worked long on both sides of the Mr. Duvernet held that he should have voted.

Mr. Dow suggested that the objection be finished, and then go into evidence.

The case proceeded, rebuttal evidence to be taken later.

T G Colwell, and Henry Hodgson, proven by the clerk as non-resident of the roll and to have voted.

Mr. Dow asked how proving that voted was going to effect anything we found out how they voted.

The judge said that could be argued a later stage.

Mr. Farewell asked if the witness say that
