Town Council.

Met Monday night

A letter was read from the Lieutenant Governor of Ontario asking a grant to the famine fund of India.

dering that Health Inspector Caiverley be paid \$25 for his services to that service also yet they affect our congre- ings. tooard during 1896

The auditors, L Fairbanks and Col () Donovan, laid their report for 1896 on the table, and it was finally adopted. Coun Blow brought in a report from the committee on town property as follows granting orders to Gross & Granger, coal. \$29.92: Ino Blow \$14 .-13. The committee had tenders for 10 ords of dry wood--- M Coffey 4.73. Harbron \$4 70; Gross & Granger \$5.74 The contract was avarded to Coffey The report further empowered the enquire into what best can be done with the town scales, and report at next meeting of council. Coun. Blow said the scales are old and had been condemned for years by the inspector of weights and measures. Since reading this in the CHRONICLE people had rea pretty good deal could be made to with a new one. Deputy Scott added

passed. Coun Jackson brought in a report from the fire and water committee recommending that the committee enquire into the cost of 750 feet of hose for the fire company, also two 5 gallon chemical extinguishers, and that some repairs be done to the fire hall. Everybody agreed to the report, but still Coun Jackson kept on talking about it. and when it was exhausted he craved! permission to talk about the electric light contract. He said he could not get his committee to agree to approach the Electric Light company to try for a night service till 12 o'clock instead of ii, and he would like to have the council take the matter up and discuss it. He had approached the company on the question and had found that by taking lights for 275 nights in the year instead of 300 the town could add three more lights to the present number and come off without increase of taxes. The company would make these changes provided its present contract which has two years to run is extended to five years from date. We now have a disputed account of \$87.50 with the company about lighting and it would be better for the committee to busy itself finding out our legal rights about that than talking about extending their contract. We agree to take light 300 nights each year, but he finds that when the company's machinery would only enable them to run 272 nights they charge for 300 just the same. On the other hand when they an 312 nights they collected for the 4 12 nights extra. Coun Hayward said this talking is all out of order, and should be done in the committee. Still Coun Robson insisted in talking a long time about it, and then Coun Jackson kept the talk going another quarter of an hour, at the end of which time it appeared that he was bound to friends here recently. have something put in the report about seeking a twelve o'clock service.

then passed. also sought power to let contracts for \$32.50. breaking stone.

Deputy Scott and Couns Robson and

Hayward all objected to putting in

The Wood Pulp Industry.

For facial neuralgia this is the very best plan to secure quick relief. Heat a freestone hot and roll up in a cloth, wetting one side of it and turning about a teaspoonful of essence of pepperment on the wet surface. Lay the face against this and cover the whole head up warmly with flannel. It will give relief in almost every instance. Or heat a basin of salt when a cathartic is required. A new use is suggested for the wood pulp of which we have so plentiful a supply in Canada. Silk has for some time that seems to releive the pain where sim-

Boils.

Unnecessary pain is often caused by ignorance of what a boil really is. It does'nt come from the inside, as many suppose, and require to be "drawn out" by painful poulticing, etc. A boil is a microbe in the skin and can be removed without pain, without lancing or poult-

icing, by a simple little plaster made with abortive for the suppression of boils, etc.

which destroys the microbe-soothes the pain-reduces the inflammation and heals the skin. Sold by druggists everywhere in little white glass pots, with nickel covers, 25c., 5oc. and \$1.00. If your druggist has run out of it, insist on

his ordering it for you, or write direct to
