

SONYA
Miss Alice Butland, of Oshawa, is at present the guest of Mrs. T. H. Watson.

The Sons of Scotland orchestra goes to Cannington this week to take part in a band concert there.

Owing to our pastor, Rev. P. A. McLeod, B.D., suffering from a slight attack of bronchitis, no service was held here on Sunday evening.

A grand gathering of the Clans was held here on the evening of Friday, the 26th inst., when the members of Glencairn Camp, Sons of Scotland, held their annual concert in their hall, which was filled to the doors by a large and enthusiastic audience. After the echoes of the bagpipes had died away, the chairman, Rev. A. Currie, M.A., hon. chaplain, called the meeting to order by a brief address, welcoming the strangers and putting everyone in the best of humor, proceeding with the lengthy programme which was of a very high order. And to hear the auld Scottish songs once more and so ally rendered as they were by Miss Rennie, Layton, Miss McPhadden, Woodville, and Mr. Burns, Whitley, the appreciation of which was testified to by the loud applause and repeated encores. The hearts of the audience were taken by storm when Messrs. McGillivray, Dow, Ross and Burns, of Whitley, appeared in full highland costume and danced the highland fling, Reel of Talloch, and other popular steps. The grand secretary of the order, Capt. D. M. Robertson, of the 48th Highlanders, Toronto, gave a brief address, which proved he was no mean speaker, and although born in this country is a true Scot. He was so overcome by the sweet strains of the music that he found his kilted brethren in a good old Scotch reel. The dancing of Mr. T. Macdonald, of Myrtle, deserves special mention considering his age and infirmities with which he executed the steps, accompanied on the violin by Mr. Calderley. The recitations given by Mr. McGillivray were humorous and well rendered, and he was called back again and again. The S. of S. orchestra, assisted by Mr. Pollard, cornetist of Cannington, supplied sweet music throughout the programme which was well received. Miss McPhadden and Mr. Pollard gave concert duets. Miss Jennie McMillan acted as accompanist, and last but not least, who is fast coming to the front as a first class piper. It might safely be said that those of other nationalities who were present were given with envy that they were not likewise sons of old Scotia. After a hearty vote of thanks was tendered the chairman for the able manner he had filled the bill, a very pleasant evening's entertainment was brought to a close by singing Auld Lang Syne and God Save the Queen. Proceeds \$50.

AUDLEY
Mr. Chas. McClellan and sister, of Whitley, spent a few hours with friends here on Sunday.

Fred Lawrence, of Whitley, is spending a week or two with his mother here.

Mr. Orvis and sisters, of base line, visited at Mr. S. Orvis' here on Sunday.

Our E.L. of C.E. is led by the Rev. J. Thom, B.A., of Pickering, next Tuesday evening. Old people are always welcome.

A sleigh load from here went to the home of Mr. Goodwin, of the 3rd con., and spent a fine evening last Friday night.

Mrs. Wm. McBrady, of Port Arthur, has returned to her home after a visit of some weeks with her father-in-law's people. She will always be welcome here again.

Simon Puckrin seems bound to travel. Messrs. Harding and Miller purchased about 100 of their sheep and Simon went with them to Wisconsin.

Mrs. Somerville, of Pickering, spent a few days with her sister, Mrs. R. Guthrie, here. A few Pickering friends spent an evening there recently.

Miss Sophia Elliott has returned from her Orangeville trip. She left her folks all well and has carried some of her good health with her.

Monday's Toronto papers announced that the firm of Mulvey and McBrady, bartenders, had dissolved partnership. Vincent still occupies his Canada Life offices.

Miss Eva McBrady went to Toronto on Saturday to attend the Central Business College. She expects to graduate at Easter. We predict success for her.

Frank McIntosh, who has been living with James Plaskitt here, went to Wabigoon on Tuesday with the Orvis Bros.

Pickering township is justly indignant over the quarantine that has been placed on our sheep. It seems that there is no case of the disease in our district and this seems harsh since our farmers do a large sheep trade.

A number of the people of Audley met at the residence of Mr. and Mrs. Samuel Bray, on Thursday of last week, and presented Mr. and Mrs. Bray with a fine chair and hanging lamp and the Misses Bray with suitable gifts as tokens of the regret we have for their departure from our midst. Mr. Bray feelingly responded and threw open his house to the guests

as well as giving all a hearty invitation to visit him at Claremont. He also said that this vicinity was the best he had ever lived in. The address was read by F. M. Chapman. The company enjoyed themselves till the small hours of morning.

DYSPEPSIA

CURED BY DR. CHASE.

FOR EIGHTEEN YEARS W. W. HODGES SUFFERED—DR. CHASE'S KIDNEY-LIVER PILLS EFFECTED AN ALMOST MIRACULOUS CURE.

Messrs. EDMUNDS, BATES & Co., TORONTO.

DEAR SIR: I take the liberty of writing to you regarding my experience with DR. CHASE'S KIDNEY-LIVER PILLS, and the wonderful cure of dyspepsia of 18 years standing effected by them. I am as well as I ever was, and am now 74 years of age. I have received DR. CHASE'S KIDNEY-LIVER PILLS to a great number of people and they all say they are worth their weight in gold. If you desire any further statement or certificate of my case, I will be pleased to furnish one.

Yours truly,
W. W. HODGES,
Holland Landing, Ont.

PICKERING

Jeremiah O'Connor, of church street, has a handsome cocker spaniel dog in his possession and is now looking for an owner. The dog followed him home while he was returning from Whitley.

A number of young folks from Whitley and vicinity visited L. Bank's residence on Friday evening and enjoyed a splendid time. It was one of those gatherings known as a "suprise" of which close call notice was given.

The recent action of the A. O. U. W. grand lodge in separating from the American jurisdiction as well as the adoption of graded assessments is causing much discussion hereabouts. It does seem rather unfair that those who became members of the order years ago because of its cheapness are now compelled to increase their payments, many of whom are now too old to be admitted to any other kind of insurance. But we must look beneath the surface in this matter. The graded assessment plan is the proper one for mutual insurance. Its adoption by the Workmen is nothing more than was expected by those who had given the matter much thought, and it was to prevent a complete collapse within the next few years that the change was made. The order has increased during the past ten years, but only slowly, rival societies that had the graded assessment were getting the young men while we had to be content with the admission of older members, to which our plan was much more commendable. Now things have changed and we can bid fair to the youth and beauty of Canada's stalwart sons. By the adoption of the graded plan the United Workmen have been placed upon a cut stone foundation, that cannot crumble until insurance is no more.

In accordance with an order from the Minister of Agriculture at Ottawa, the local Board of Health met at Brougham on Monday afternoon and passed a resolution placing this township in quarantine as regards the sheep business, as it is reported that sheep scab is found to exist somewhere in the Province of Ontario.

The local authorities have no opinion in the matter as the order from Ottawa must be obeyed. But much dissatisfaction is expressed with the action of the department at the capital. If scab had been reported to exist anywhere within the township, there would be some reason for such precaution, but we fail to find any one who has any knowledge of such a find. The sheep trade of Pickering is no small matter, as many of our farmers feed all their produce to sheep, and now they find themselves completely cut off from business. To be sure they can employ the service of an inspector to examine the animals that are to be sold, but we do not know of one nearer than Aurora. The services of an inspector might be readily secured were the deal an extensive one, but this time of year our farmers are changing sheep and selling lambs to butchers, and to have these small deals made under the eye of an inspector, would much increase the price of mutton, particularly if the Aurora man has to be called. The Scarborough farmers are also much annoyed. Sheep scab is a very bad disease, and should be wiped out before getting a foothold; but there is no need of such wholesale measures as the quarantining of a whole township, when it is not even charged that a case exists within its confines. If the district should be made smaller, the stock trade of Canada is just now struggling to its feet again, and it will be some any Government to in any way retard that determined effort to succeed.

An Epicure's Steak.
The next time you buy steak, says an epicure, be sure to get an upper loin cut, with the bone removed, and about one and a quarter inches thick. Put into a teaspoon a little salt and pepper and fill it up with olive oil. Rub both sides of the steak thoroughly with this mixture, and then let it stand two hours on a plate. When you are ready to broil have an extremely sharp fire, and let each side of the steak broil rapidly for about 3 minutes. Then take a shovel and sprinkle ashes over the coals, and let your steak broil slowly at a greater distance from this smothered fire from ten to twelve minutes, turning over every two or three minutes.

FOLLY.
On the evening of Friday last, this quiet little village was enlivened by a visit from a tin pan and sleighbell orchestra which discoursed sweet music in front of the residence of a certain well known farmer of this vicinity and his better half, who a few days previous were happily reunited after a rather long separation, the result of a mutual misunderstanding. The serenaders marched up and down the road shouting and yelling with a fervor that might have raised the dead, to the deafening accompaniment of clashing tinware and the jingle of bells. Judging by the blood-curdling war-whoops emitted by some members of the band, there must have been one or two of our aboriginal fellow-countrymen present, probably hired for the occasion. The beleaguered party responded by firing several shots into the air, but as the musicians did not happen to be flying overhead, no one was injured. After favoring some of the neighbors with a few choice selections the orchestra quietly dispersed, but thrilling and delightful though the music was, we earnestly hope that no occasion will arise in future for a repetition of the performance.

ALTONA
Mrs. Thos. Paisley, of Churchill, was in our midst last week.

Miss Ball, of Whitevale, was visiting here last week at E. Reesor's.

A life insurance agent from Port Perry gave us a flying visit last week.

Sydney Morgan is engaged with Jacob Meyer here for the coming year.

Elias Reesor sold a dykesdale to Robt. Graham the other day for a reasonable figure.

The special meetings are still being continued in the union church here.

Mr. Morgan, of Markham, intends building a new barn on the farm tenanted here by Mr. Roper this coming summer.

The rough, staring coat of calves and colts their first winter is often due to troubles of digestion from changing suddenly from succulent to dry feed. But a part is also due to drinking too little water, because water in winter is always cold. If water for young animals be warmed to a temperature near that of animal heat, they will drink more freely, and their feed will digest instead of remaining in the stomach breeding fevers and disease. Do away with constipation in young stock, and most of the difficulty in keeping them thrifty will be overcome.

WONDERFUL!
Files Cured in 3 to 6 Nights—Itching, Burning Skin Diseases Relieved in one Day.

Dr. Agnew's Ointment will cure all cases of itching piles in from three to six nights. One application brings comfort. For blind and bleeding piles it is peerless. Also cures tetters, salt rheum, eczema, barber's itch and all eruptions of the skin. Relieves in a day. 35 cents. Sold by J. E. Willis.

I saw in your paper that a 18 year old boy made \$125 the first hour he worked selling the Perfection Metal Tip Lamp.

I ordered a sample and went to work and the first week I cleared \$10, the second week I cleared \$15. I expect to run up to \$25 a week in the near future, as the Perfection Metal Tip Lamp makes such a beautiful white light and does away with smoky chimneys and bad odor and saves oil, it is easy to sell. If you wish to try it send 10 two cent stamps to Miss A. M. Frit, Station A, St. Louis, Mo., and she will send you sample outfit, this is a good way to make money around home. Miss Tina W.

LINDSAY
A number of petitions to the Ontario legislature, regarding the game law will soon be sent in from Haliburton and North Victoria. The petitioners will ask that the settlers be not required to procure a license, and that more stringent rules be passed prohibiting the hunting of deer. Further than this little fault is found with the law.

Speaking of the Canadians in the States, a good story is told of the editor of a printer's paper in New York. It occurred to him that it would be a good idea to publish weekly biographical sketches of the foremen of the various composing rooms in the city. He began with the Herald office. The sketch began something like this: "Mr. Bl-nk, the foreman of the Herald chapel, was born in Toronto, Canada." The subject of the next narrative was "born in Montreal, Canada." The next first saw the light in "Three Rivers, Canada." After this "St. John's, Canada," and "Halifax, Canada," followed in order, and then the editor received a letter which read after this: "In the name of the noble bald-headed bird of freedom and by the shade of the immortal George Washington, I beg of you to let up on biographies of chapel foremen until we can at least raise one American to break the Canadian monopoly."

The board of management of the Home for the Aged have much pleasure in acknowledging the receipt of \$50, being the amount of a legacy bequeathed to the home by Miss Mary Ann Mathie, late of Inkster, Dakota, to which place she went to reside some twenty years ago, when she took up a quarter section of land, the cultivation and management of which she personally superintended, and by her skill and industry she acquired considerable wealth. Miss Mathie had been formerly well and favorably known in the town of Lindsay. She was a sister of the late John Mathie, and some of her relatives are still esteemed citizens of this town. Miss Mathie is still remembered as a woman of remarkably kind disposition, and her kindly gift to the Home for the Aged only confirms the recollection of former charitable acts. We hope that others may be prompted by her good example to remember the poor in their wills.
