Ayer's Sarsaparilla is the Best.

CORRESPONDENCE

MARKHAM.

Mr. J. B. Gould and family are again on their farm, 10 1/2 con. 9. Mr. Gould's many Uxbridge friends presented him with a handsome gold-headed cane at the Bascom House, Uxbridge, Monday evening of last week.

Now that the centre of main street has become dry, the lacrosse sticks are out and lacrosse is the talk among the sports. Markham should have a good team in the C. L. A. this year, as they have all their men of last season in town and some of the youngsters are showing up well. Markham will have no men to import and will be in better shape than last year.

Our attention has been called to the number of youths in this town who are contracting the cigarette smoking habit. Do the tobacco dealers forget that they are under a heavy penalty if they sell or give tobacco in any shape or form to persons under 18 years of age? In fact any person or persons giving tobacco to persons under 18 years of age is liable to the penalty.

A Campbell of the carpet factory, is endeavoring to compromise with his creditors at 30 cents on the dollar. The estate is a small one and there is a mortgage of a round \$1000 on the factory, which is about all it is worth. The factory closed on Friday last, and it is to be hoped that a settlement may be reached by which Mr. Campbell will be in a good position to run his factory again. The tariff uncertainty is no small factor in this failure. The employees were paid in full on Wednesday.

At 2.30 Wednesday afternoon Mr. W. Roberts, foreman of the picking room of the woolen mill, noticed a blaze coming from the dry room of that institution and immediately gave the alarm. The fire brigade responded promptly and in about four minutes both reels were on the ground and a line of hose laid from the hydrant at Water st. By good luck, however, the line was not used as the mill's own system in the meantime had extinguished the fire. The fire was probably caused by combustion in the drying wool and damage was done to the extent of about \$50, the automatic sprinkler system again did excellent work. This should hustle the municipal fathers in putting in a main and hydrant to give this property further protection.—Sun.

PICKERING

The mumps epidemic in this locality finds a strong rival in the bicycle fever, and between them our people are not enjoying the very first quality of health. Scarlet fever is lurking around to lend a hand, providing the two former scourges should fail to accommodate all.

Mr. Beaton, secretary of the local board of health, has just been notified by the department at Ottawa, that sheep for shipment must be examined by a qualified inspector before being removed from the farm. Since the quarantine regulations were put in force in this township several shipments have been made, the inspector simply examining the animals at the shipping point. This will not be in the future permitted. Farmer can have their sheep examined free of charge by simply notifying C. J. Brodie, V.S., Claremont, or Major Lloyd, Newmarket, giving lot and concession and post-office address.

The firemen held a meeting on Tuesday evening when it was decided to have a big celebration on the Queen's Jubilee day, June 22nd. The event promises to surpass all former efforts and a day of much enjoyment is prom-

ised, concluding with a concert in the evening. Particulars of the events are not yet available, but we wish to announce the date in good time to prevent collisions. The forty chestnut trees purchased last fall will arrive in a few days and will be set out on the ground adjoining the hall. When these trees are set out it should be the duty of every citizen, whether a fireman or not, to assist in protecting them from damage of whatsoever nature. Cow owners will please take a hint.—News.

GREEN RIVER.

We are pleased to see Mrs. Elias Bice able to be around again after her recent illness.

Miss Annie Barnes has returned from Hamilton.

Mr. and Mrs. P. R. Hoover were in Toronto last week on a visit and making several business calls.

Hy. Hopkins, V. S., was in Toronto last week attending a special meeting of the Ontario Veterinary Association.

Norman and Miss Agnes McIntyre have gone to Dakota with the last week's make up, and others are selling their traps and making ready.

Our mill dams here have stood the test of high water so far, except the loss of a few planks. The owners have kept a sharp lookout day and night.

On account of the muddy roads our news agent could not get around to collect the news in and around the village this week.

The attendance at our public school has been below the average last week partly by muddy roads and partly from the pupils having bad colds. We think it was wise to stay home till coughs and colds had disappeared.

Our saw mills and grist mill are running some overtime, as water is plentiful and business good. Our combined saw mill and brush factory can run with its twin water wheel from one flume both circular and factory machinery at one time.

The man who awakens from a deep sleep, just in time to ward off the blow of an assassin, who, knife in hand, is preparing to drive it into his heart, has had a narrow escape. There are thousands of grateful men who have aroused themselves from the lethargy of recklessness and neglect, just in time to ward off the deadly assault of that dread enemy of mankind consumption.

The weapon with which these men have successfully combated this grim destroyer has been Dr. Pierce's Golden Medical Discovery. It is the only known medicine that will prevent and cure consumption. Taken in time, it will always ward off this deadly disease, and even after the devastating germs have attacked the lungs, it will cure 98 per cent. of all cases. It acts directly on the lungs, building up new, healthy tissues and driving out all disease germs. It corrects all stomach and digestive troubles, invigorates the liver and makes the appetite keen and hearty. It is the great blood maker, flesh-builder and nerve tonic. There is nothing else "just as good" and the druggist who says so is untrustworthy.

"I was a sufferer for five or six years from indigestion, sore stomach, and constant headaches," writes B. F. Holmes, of Gaffney, Spartanburg Co., S. C. "I tried several of our best physicians and found no permanent relief. By the persuasion of Mr. J. R. Tolleson, a friend of mine, I commenced on the 28th September, 1895, to use Dr. Pierce's Golden Medical Discovery and 'Pellets'—which gave me relief in a few days. Since then I have used five bottles of 'Golden Medical Discovery' and five vials of 'Pellets.' When I commenced using the medicines I could not sleep, had a restless uneasy feeling all the time, and my skin was yellow and dry. I weighed only 78 pounds. I now weigh 170 pounds, have a good color, and rest well at night. I have a good appetite, can eat anything I wish. For two years, while under treatment by a physician, I ate nothing but Graham bread."

In reference to the above letter, J. R. Tolleson, P. O. Box 173, Gaffney, Spartanburg Co., S. C., writes: "The above Mr. B. F. Holmes, is a good christian gentleman, and one whose word will go a long way with those who know him. I can and will sell Dr. Pierce's medicines, and I recommend them to Mr. Holmes."

Dr. Pierce's Pleasant Pellets cure that disease-producing disorder, constipation. They never fail. They never gripe. Druggists sell them.

SUNDERLAND

Mr. R. C. Brandon, North Brock, was here on Monday.

Miss Jane Carmichael is able to be around after her recent illness.

Mr. R. A. Sinclair, Cannington, spent Monday in town, the guest of Mr. T. H. Walshe.

Mr. Frank Bryant, son of Mr. R. K. Bryant, of this place, passed his final examination and took honors. Frank can now sign himself V. S.

It is our painful duty to record the death of a couple of the pioneers of the township of Brock, and two gentlemen who were well and favorably known, in the persons of Mr. Wm. Buchan and Mr. Peter Followdown. Both of them were old and respected members of the church of England, and staunch conservatives in political matters. Mr. Buchan died on Monday, March the 22nd, and was buried at West Brock church, and Mr. Followdown on Wednesday, Mar. 24th, and was buried at the cemetery at Sunderland. Rev. J. H. Carson conducted the funeral service at both funerals, preaching the sermon at the residence of the late Mr. Buchan, and that of Mr. Followdown in the church. The English church was crowded and the sermon listened to with the very closest attention.

The Surgeon of 8th Royal Rifles, Quebec

writes: "I have used, with much success, 'Pheno-Banum' (or 'Quickore') in dressing wounds, which suppurated even under the dressing of Iodoform; the effect was remarkable, all discharge ceasing, and healing granulation setting up at once, after first application of 'Quickore.' I consider its antiseptic action as valuable as its marvellous pain relieving properties."

Signed, Geo. H. PARKER, M.D.
10 Palace st., Quebec.

STOUFFVILLE

Spofford & Co., the enterprising dry goods merchants, are retiring, after 17 years of close attention to business and ever watching for the best interests of their many customers. 8 1/2 years of the 17 have been spent here in Stouffville and have done a great deal in the advance of business in every line in our village, as they have been great advertisers and have been the means of bringing a great number of strangers to our town.

The case which occupied the attention of Magistrate Sanders at the Queen's hotel the greater part of Saturday last, arose out of a dispute as to the ownership of a cow. It appears that one Mrs. McNair, of Whitchurch township, was the owner of a certain cow, and one day last week as her husband was leading the animal along the road with a rope, Jno. Jackson, also of Whitchurch, came along and took possession of the bovine, in spite of protests the latter swore out an information charging Jackson with theft. At the trial on Saturday, in defence of the act, the accused set up that he had purchased the cow from McNair about two months previously, paying therefor \$15, but that he was not to get possession until the 1st of April. McNair flatly denied having ever sold the cow and swore that he had certainly never received the \$15. The evidence all through was of most contradictory nature, and after the parties had all been heard the magistrate reserved judgment for a week in order that he might submit the question of law to the country crown attorney. Judgment will be given in the matter tomorrow. Mr. C. Russell Fitch, of Macdonald & Fitch, conducted the case for the prosecution, and Mr. Jas. McCulloch appeared for Jackson.

Mr. John Coxworth, of Sault Ste. Marie, who is well known here, is supposed to have sent \$350.00 to Mr. W. J. Mertens, of this place, about a month ago. He has done considerable corresponding with Mr. Mertens and always encloses his letters in a business envelope—a long one—but the one Mr. Mertens received, which was supposed to have contained this money, was a square one bearing the Sault Ste. Marie registration mark and stamps, and the address on the envelope is written in blue ink (while the letter is written with a different ink) and is not John's hand-writing. Mr. Mertens says the crease in the letter showed it had been folded for a long envelope. Mr. Mertens immediately informed Coxworth about the matter, and in a reply letter John was greatly surprised to hear of it, and said that he sent his usual long business envelope, and set about at once to have the matter investigated. The letter had only been in the Sault Ste. Marie post office one hour before it started on its journey. Mr. Mertens, upon request of Coxworth, forwarded this letter to the post office inspector, who held an investigation at that place, which resulted in Coxworth being committed for trial. This will be greatly regretted by John's friends here, by whom he was always respected and looked upon as an honest young fellow, and no doubt when the trial, which takes place next week, is concluded, he will be honorably acquitted and someone else will come in for the blame. Mr. Mertens has been subpoenaed to appear at this trial as a witness for the crown, and he leaves on Saturday for that place.—Free Press.

Miss J. Annan Sunday at Springdale. Miss M. A. Holmes has been indisposed the past week.

Master M. Gormley is ill at present with typhoid fever.

Frank Law, Pickering, visited us on Sunday evening last.

T. Henderson jr., was indisposed last week but is able to be around again.

Fred Lester left here last Monday to seek his fortune in the wild west. Success.

L. M. Grant, our carriage maker, went to Bowmanville on Friday to visit his sister.

David Conway has engaged with Wm. Gilchrist, of Cherrywood, for the summer months.

We hear some of our youths intend taking advantage of the cheap rates and go to British Columbia. Success boys.

Wm. Bellechambers has been visiting friends in Fairport during the past week. He intends having his house fixed up for a summer residence.

Our town blacksmith is progressing favorably with his new house and we hope soon to see a stately mansion erected on the top of the hill.

Our singing class is progressing very favorably under the leadership of Prof. Wiggins. We look forward to a fine concert about Easter holidays.

Mrs. Wood and family have moved into the residence lately occupied by the late Peter Nesbit, and Fred Dales who has occupied it during the winter months has moved into half the residence of T. W. Holbourn.

WHY SUFFER WITH PILES?
Dr. Chase's Ointment Will Cure Them at a Cost of But 60 Cents.

Piles, scrofula, eczematous eruptions, scald head, salt rheum and all other annoying and painful skin diseases can be easily cured by Dr. Chase's Ointment. "I had protracting piles for ten years," writes H. H. Sutherland, commercial traveller, of Truro, N.S.; "tried many remedies, and had doctors operate. It was no use. Was completely laid up at times. Chase's Ointment collapsed is not to be wondered at. Mr. Johnston has been a resident of his late farm, in the 6th concession, for the past sixty years, and during that time has cleared the lot and erected comfortable buildings, that were his pride in old age. He leaves a bereaved widow, aged about 70, and nine children.

Ed Wilson, of Oshawa, visited at Jas. McCormack's over Sunday. Brougham Division has initiated a number of new members lately. John Meehin has moved onto the Woodruff farm, and we bespeak for him success. Newrich Wilson has secured a foreman in the person of a Mr. Johnston, from Woodville. William Norton, Scarborough, has moved onto the Alger place. We welcome him to our midst. Ed Wilson has commenced the erection of a new barn on the old homestead. His innumerable friends were much surprised Wednesday morning to learn that Oliver Johnston had died that morning about four o'clock, after but an illness of a week, and that not thought to be serious. When we mention that deceased was in his 95 year, his sudden collapse is not to be wondered at. Mr. Johnston has been a resident of his late farm, in the 6th concession, for the past sixty years, and during that time has cleared the lot and erected comfortable buildings, that were his pride in old age. He leaves a bereaved widow, aged about 70, and nine children.

Cherry's Troubles. Wm. Cherry, of Owen Sound, Ont., writes: "For the past two years I have been troubled with weakness of the heart and fainting spells. I tried several remedies, and consulted best physicians without any apparent relief. I noticed testimonials of great cures made by Dr. Agnew's Cure for the Heart. I procured a bottle, and the first dose did wonders for me. After using five bottles there are none of the symptoms remaining whatever. I think it is a great boon to mankind." Sold by J. E. Willis.

Conductor Holtrum, of Hamilton, is dead as the result of injuries sustained at Woodstock in January last.

W. B. Ordway, Pitt Burwell, Ont., writes: "I was afflicted with Rheumatism and tried all cures. I did not get relief until I tried Miller's Compound Iron Pills, and before I had finished two boxes I was completely cured, and now feel like a different man. Only 25c. per box. Sold by A. H. Allen, druggist."

This is **MARTIN** of Australia
and the **RED BIRD** that has made him famous
as a Cyclist

CHAMPION BILL MARTIN, the king of Australian cyclists, is an enthusiastic Red Bird rider, and has done much towards establishing the Red Bird's splendid reputation in our sister colony. He has a long list of victories to his credit, besides the bulk of the Australian records. One of his most recent triumphs was the defeating of Parsons in a matched race for \$1,000. The match was for one, five and ten miles. In the one mile event he defeated Parsons by a foot, romped away from him in the five mile, and the ten mile thus being off, he went out and lowered the existing Australian record (his own) by thirteen seconds. He also clipped several seconds off the time in the five mile event. He rode a higher gear on his Red Bird than he ever rode on any other make of wheel, but the superior running qualities of the Red Bird made this a comparatively easy feat.

BURDOCK'S BLOOD BITTERS

THE BEST SPRING MEDICINE
Cures all Blood Diseases, from a common Pimple to the worst Scrofulous Sores.

As baldness makes one look prematurely old, so a full head of hair gives to mature life the appearance of youth. To secure this and prevent its former, Ayer's Hair Vigor is confidently recommended. Both ladies and gentlemen prefer it to any other dressing.

Mr. T. J. Homer, Columbus, Ohio, writes: "I have been afflicted for some time with Kidney and Liver Complaint, and find Burdock's Pills the best medicine for these diseases. These Pills do not cause pain or griping, and should be used when a cathartic is required. They are Gelatine Coated, and rolled in the Flour of Licorice to preserve their purity, and give them a pleasant, agreeable taste."

PAIN'S CELESTINE
Saves Sleepless People
THE GREAT MEDICINE

Medical men of the highest standing and a host of others competent to declare that Paine's Celestine is the only effective medicine for the treatment of all the troubles that attend sleeplessness and insomnia.

In the spring season thousands restless, irritable, nervous, despondent, gloomy. They find it impossible to rest, and find it impossible to come physically exhausted; some are mere wrecks of humanity.

Such sufferers cannot with safety use any other medicine. Paine's Celestine is such a condition demand immediate succor and aid before nature comes too overtaxed. The weak, exhausted and irritated system is strengthened.

For every form of sleeplessness, somnia there is but one remedy—Paine's Celestine.

A Butter-Making Device
(From Saturday's Globe.)

A number of members of the Legislature, who are interested in the dairy industry, assembled Monday morning at the office of the New Creamery Company, 782 1/2 Yonge Street, for the purpose of examining into the process of making butter, which, it is claimed, will revolutionize the industry and bring incalculable benefits to the farmer. Mr. D. Burt, member of the meeting, and with him were the following members:—Messrs. Andrew, South Oxford; H. Barr, Renfrew; R. Trux, South Bruce; Robinson, North Waterloo; E. G. Penner, North Norfolk; T. L. West Kent; John B. Moore, South Bruce; J. Haggerty, North York. There was also present Mr. D. H. Therson, a large Glengarry dairyman. The new process was explained by Walter Cole, its inventor, who is going to place his patent in the hands of a company which will operate it in Ontario. The three primary essentials in the manufacture of butter according to this process are a suitable temperature, a pure air and a supply of pure cream. It is no churning to be done, the butter in the cream being extracted by the action of the air on the constituent elements of the cream. The cream is brought to the factory and put in cans holding five or six gallons, and the cans are then placed in a vat of water kept at a fixed temperature. The process of fermentation is induced, and reaches a certain stage the cream is forced into a large glass jar, into which is forced through a tube attachment a air, which is treated by means of a filter and forced through a certain amount of tubing into the receiver, acts on the cream. The cream is then pressed into a tub of butter, which rises to the top while the other elements—the casein, albumen, the sugar and the phosphates, the specific gravity of which is thus increased—sink to the bottom. When all the globules of butter have been released by the dissolving of the albumen sack which surrounds each globule, the butter is thoroughly done. This can readily be done, the globules of butter are still in atomic form, and the water passes through the cream when taken to the jar in which it has been made, would filter through a similar quantity. When the process of clearing has been thoroughly completed the butter is rolled and pressed into commercial form. In the whole process of manufacture chemicals whatever are employed, action of the air introduced upon the constituents elements of the cream in a manner as to free the molecules of fat by means of fermentation is the operation.

ADVANTAGES OF THE PROCESS

There are great and growing claims for the process, which is intended to place the whole dairy industry on a new basis. Mr. D. H. Therson and Mr. Richardson, who are interested in the process, are looking for an annuity fund of the church. Viewing Venus and Jupiter.

Mr. Thos. Manderson, Myrtle, speaks of the process, and says that he is at Venus and Jupiter through his hope. Hundreds of people were with the views of these great planets the instrument brings them well reach of the human eye. Mr. M. understands the instrument thoroughly did the honors of the occasion in a style that he was surrounded, by all the evening. On behalf of the town and vicinity we tender Mr. M. a hearty vote of thanks.

Changes in A. O. U. W.

On the first of July, 1897, there was a change in the system of assessment of the Ancient Order of United Workmen before the assessment was made. The same men entering at 20 years of age, the same as those entering at fifty being sought to obviate this unfairness, reducing the maximum age at which one is allowed to join the order to 40 years for the face of strong opinion among the older members, as the ment of the latter class will be correspondingly increased, while that of the younger will experience a corresponding decrease. In future young men will be allowed to join the order at 20 years of age, and at 40 years of age, and at 60 years of age, and at 80 years of age, and at 100 years of age, and at 120 years of age, and at 140 years of age, and at 160 years of age, and at 180 years of age, and at 200 years of age, and at 220 years of age, and at 240 years of age, and at 260 years of age, and at 280 years of age, and at 300 years of age, and at 320 years of age, and at 340 years of age, and at 360 years of age, and at 380 years of age, and at 400 years of age, and at 420 years of age, and at 440 years of age, and at 460 years of age, and at 480 years of age, and at 500 years of age, and at 520 years of age, and at 540 years of age, and at 560 years of age, and at 580 years of age, and at 600 years of age, and at 620 years of age, and at 640 years of age, and at 660 years of age, and at 680 years of age, and at 700 years of age, and at 720 years of age, and at 740 years of age, and at 760 years of age, and at 780 years of age, and at 800 years of age, and at 820 years of age, and at 840 years of age, and at 860 years of age, and at 880 years of age, and at 900 years of age, and at 920 years of age, and at 940 years of age, and at 960 years of age, and at 980 years of age, and at 1000 years of age, and at 1020 years of age, and at 1040 years of age, and at 1060 years of age, and at 1080 years of age, and at 1100 years of age, and at 1120 years of age, and at 1140 years of age, and at 1160 years of age, and at 1180 years of age, and at 1200 years of age, and at 1220 years of age, and at 1240 years of age, and at 1260 years of age, and at 1280 years of age, and at 1300 years of age, and at 1320 years of age, and at 1340 years of age, and at 1360 years of age, and at 1380 years of age, and at 1400 years of age, and at 1420 years of age, and at 1440 years of age, and at 1460 years of age, and at 1480 years of age, and at 1500 years of age, and at 1520 years of age, and at 1540 years of age, and at 1560 years of age, and at 1580 years of age, and at 1600 years of age, and at 1620 years of age, and at 1640 years of age, and at 1660 years of age, and at 1680 years of age, and at 1700 years of age, and at 1720 years of age, and at 1740 years of age, and at 1760 years of age, and at 1780 years of age, and at 1800 years of age, and at 1820 years of age, and at 1840 years of age, and at 1860 years of age, and at 1880 years of age, and at 1900 years of age, and at 1920 years of age, and at 1940 years of age, and at 1960 years of age, and at 1980 years of age, and at 2000 years of age, and at 2020 years of age, and at 2040 years of age, and at 2060 years of age, and at 2080 years of age, and at 2100 years of age, and at 2120 years of age, and at 2140 years of age, and at 2160 years of age, and at 2180 years of age, and at 2200 years of age, and at 2220 years of age, and at 2240 years of age, and at 2260 years of age, and at 2280 years of age, and at 2300 years of age, and at 2320 years of age, and at 2340 years of age, and at 2360 years of age, and at 2380 years of age, and at 2400 years of age, and at 2420 years of age, and at 2440 years of age, and at 2460 years of age, and at 2480 years of age, and at 2500 years of age, and at 2520 years of age, and at 2540 years of age, and at 2560 years of age, and at 2580 years of age, and at 2600 years of age, and at 2620 years of age, and at 2640 years of age, and at 2660 years of age, and at 2680 years of age, and at 2700 years of age, and at 2720 years of age, and at 2740 years of age, and at 2760 years of age, and at 2780 years of age, and at 2800 years of age, and at 2820 years of age, and at 2840 years of age, and at 2860 years of age, and at 2880 years of age, and at 2900 years of age, and at 2920 years of age, and at 2940 years of age, and at 2960 years of age, and at 2980 years of age, and at 3000 years of age, and at 3020 years of age, and at 3040 years of age, and at 3060 years of age, and at 3080 years of age, and at 3100 years of age, and at 3120 years of age, and at 3140 years of age, and at 3160 years of age, and at 3180 years of age, and at 3200 years of age, and at 3220 years of age, and at 3240 years of age, and at 3260 years of age, and at 3280 years of age, and at 3300 years of age, and at 3320 years of age, and at 3340 years of age, and at 3360 years of age, and at 3380 years of age, and at 3400 years of age, and at 3420 years of age, and at 3440 years of age, and at 3460 years of age, and at 3480 years of age, and at 3500 years of age, and at 3520 years of age, and at 3540 years of age, and at 3560 years of age, and at 3580 years of age, and at 3600 years of age, and at 3620 years of age, and at 3640 years of age, and at 3660 years of age, and at 3680 years of age, and at 3700 years of age, and at 3720 years of age, and at 3740 years of age, and at 3760 years of age, and at 3780 years of age, and at 3800 years of age, and at 3820 years of age, and at 3840 years of age, and at 3860 years of age, and at 3880 years of age, and at 3900 years of age, and at 3920 years of age, and at 3940 years of age, and at 3960 years of age, and at 3980 years of age, and at 4000 years of age, and at 4020 years of age, and at 4040 years of age, and at 4060 years of age, and at 4080 years of age, and at 4100 years of age, and at 4120 years of age, and at 4140 years of age, and at
