

Almost a Hopeless Case.
A Terrible Cough. No Best Night nor Day. Given up by Doctors.
A LIFE SAVED
BY TAKING
AYER'S CHERRY PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the whole bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. WARD, 8 Quimby Ave., Lowell, Mass.

The Kind That Cures.

The Great Spring Health-Revener.
Paine's Celery Compound for Men, Women and children.

Read the following testimony that comes from Miss Blake, of 303 Hughson St., Hamilton:
"For years I suffered greatly, and was under the care of doctors who finally told me I was going into consumption. I was becoming worse through the use of medicines, and I gave up my doctors. While in a very critical condition, not able to sleep or rest, always faint and weak, appetite and digestion bad, and my system run down and little life left in me, I commenced to use Paine's Celery Compound. After taking one bottle I felt much relieved. I have used in all seven or eight bottles, and am now a new woman, can enjoy life, and am as well as I wish to be. Many thanks for your great medicine."

PICKERING
The fall wheat in this section gives promise of an abundant crop this year, and we shall expect that promise verified.
John Nicholson leaves with his family for Wabigoon on Tuesday. He will take a full suite outfit with him, including stock and implements.
M Link and David Annan left for the old country on Monday. They will make the ocean voyage in charge of a cargo of cattle.
G W Decker moved his family to Toronto on Tuesday, where they will be in residence. They have taken possession of a commodious hotel at the east end of the city, situated in Small's park and opposite the Woodbine track. We were very sorry to lose Mrs. Decker and children from the village, yet we all trust that the removal will result beneficial to all concerned.
D Birrell just shipped a carload of stock and such like to Mosboro, where his son John has engaged in farming. The place purchased is considered to be one of the best farms in the west, having been fitted up by Mr. Hobson for a son, who died shortly after the buildings were completed. We congratulate Mr. Birrell upon having procured such a desirable place.
Those chestnut trees have arrived and are now being set out upon the fire hill property. These trees, forty in number, were purchased at an outfit of some \$25, and while that seems a lot of money, it is thought to be well spent, as these trees grow much more rapidly than do almost any other variety. It is expected that in about five or six years the now bare and vacant premises will have been converted into a park where people may congregate when at leisure and enjoy the shade.
If the pathmasters of this township are required on any special occasion to exert greater exertion than usual, that time is the summer of 1897. The past winter has been an exceptionally severe one upon our highways, and in many places the bottom has apparently fallen out. These bad spots will have to be repaired by grants, but there are innumerable small dangers that may be repaired by statute labor, and it is to such as these we would call the attention of the overseers. Each pathmaster should at once take a walk over his beat, and map out a line of action so that the roads will receive the greatest possible benefit from the gratis work he has at his disposal. When he does warn out the ratepayers, it is also his duty to see that every man works faithfully and well, or his labor should be returned as only partly done. Many are in favor of commuting statute labor, while an equal number perhaps are opposed to it, but such will be done unless statute labor is much more faithfully performed than now. In some beats the present system works all right, but they are few indeed.—NEWS.

BEAVERTON

Arch Buchanan, of 5th concession Thorah, was committed to Whitby, on Thursday last by G F Bruce, J F to await a vacancy in the asylum. Buchanan has been mentally deranged for a number of years but lately owing to a quarrel with a neighbor he has been considered dangerous.
Mr and Mrs James White of Main st, celebrated the fiftieth anniversary of their marriage, on Friday of last week. There were no special festivities at this "Golden Wedding" but a host of friends with the aged couple many years of continued health and happiness. Mr White is a Thorah boy of a most pronounced type being the first white male born in the township. He has resided in this locality ever since.—Express.

ORILLIA

Burglars succeeded in entering Mr. S. E. Carr's house on Colborne street on Sunday evening last, between six and 8:30 o'clock, and in securing about \$800 worth of jewelry, a gold watch and a revolver. The crime did not come as a surprise to most citizens. It has long been felt in town that there is a gang of young fellows at large who do not gain an honest living. They do not work, but for all that they were able to patronize every traveling entertainment that comes along all winter. The authorities considered the entering of the brewery last week as a spring opening on the part of these gentry. Energetic measures were at once taken and by Tuesday morning three arrests had been made. Two of the boys arrested, Edward Robinson and Walter Partridge, each about 16 years old, admitted that they were the house-breakers after some close questioning.—News-Letter.
