

The Same... Old Sarsaparilla.

That's Ayer's. The same old sarsaparilla as it was made and sold by Dr. J. C. Ayer 50 years ago. In the laboratory it is different. There modern appliances lend speed to skill and experience. But the sarsaparilla is the same old sarsaparilla that made the record—50 years of cures. Why don't we better it? Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement. Of course, if we were making some secret chemical compound we might... But we're not. We're making the same old sarsaparilla to cure the same old diseases. You can tell it's the same old sarsaparilla because it works the same old cures. It's the sovereign blood purifier, and—it's Ayer's.

PICKERING

Stella Eleanor, only daughter of the late William Varty, died at her mother's residence, King street west, on Thursday afternoon, aged 20 years and 9 months. The Pickering Township Sabbath School Association holds its next convention in St. Andrew's church here on Wednesday, the 26th of this month, when a programme of rare merit will be presented. The committee have been promised papers by some very able speakers.

We hear from a reliable source that Dr. Tucker, formerly of this village, is in Torquay, Devonshire, England, and that he is again suffering from the same disease that made his last few years here a season of regret to his friends. The Dr. must be getting up in years now.

John Leslie has occupied his present shop some seventeen years and there phied his calling, that of a shoemaker. He has now decided upon a change and has rented the centre shop in the Pirie block, to which he will transfer his business about the first of next month. He has also rented the residence in connection with the new shop and will move his family there about June 1st. We trust the change may be beneficial.

A resident of this village purchased wall paper at a departmental store in the city, spending some \$18 or so in such manner. The paper he purchased cost him 10 cents per roll. When having the same hung he was a roll short, and had to send to the same store for another roll. This he could not get. After considerable enquiry a country merchant up at Lucan was discovered to have the paper and furnished the missing roll, but he only charged 8 cents per roll as that was his selling price. Very likely this paper was marked "14 cents reduced to 10 cents on bargain day." Here is another snap given away.—News.

St. James' congregation decided Monday evening by a vote of about one to one to have free seats in the church. Hitherto the seats have been free name, but the practice of appropriating them had grown into a way in satisfactory to those who wished the things to be free in fact as well as in name.—News Letter.

A delicate operation.
Our young athlete, J. Knox, has for some time been troubled with some growth in the knee joint, which greatly impaired the use of the limb. Last week Dr. G. Leitch, assisted by Dr. A. P. Arlath, operated, and removed a cartilaginous growth from the joint. We are pleased to report that Mr. Knox is now almost well, and that he will have perfect use of the limb again.

Runaway accident.
What was almost a fatal accident, occurred Thursday morning and was caused by a team of runaway horses, driven by Mr. Dennis O'Connor. Mr. O'Connor was returning from the funeral of his aunt, Mrs. Moriarty, in a way in which was satisfactory to those who wished the things to be free in fact as well as in name.—News Letter.

criminals. Under these circumstances, he thought that His Worship would be justified in being as lenient as possible. Police Magistrate Lafferty said that he had determined to give the lads another chance, and it was the last they would ever get. They have rendered themselves liable to seven years imprisonment, and this would be held over their heads, so that if at any time they misbehaved themselves in any way the sentence would without fail be imposed. He had also decided to impose the condition that they should leave the county, so that they might break with their present associations and get away from the stigma of their crime. He impressed upon the lads the serious nature of their crime and of their present position, urged them to redeem their character, and received from them promises to reform.—Packet.

While Mr. Thos. Saller and family were at the Academy on Tuesday evening thieves entered his residence, and but for their timely return would have made a good haul. When the family entered the house the thieves made their escape by the back door, leaving two bundles, containing silverware and wearing apparel, on the floor. Chief Bell is looking for the guilty parties, but as yet has been unsuccessful in securing them.

Mr. David Weller has perfected a dish-washing machine which seems to captivate the others before the public. He intends to have it patented, and will make two sizes—one for hotels and another for private houses. The larger one, intended for hotels and boarding houses, will hold forty-eight pieces, and will be sold at \$10 each. Mrs. Wakeley, of Cambridge st., has been using one for some time and likes it splendidly. The inventor is to be congratulated on his success, which has been attained by persistence and pluck.

The prospectus of the Sturgeon Point Hotel Co. (limited) has been issued. The capital stock is placed at \$20,000, and the object of the company is to erect and equip a thoroughly modern hotel on the site of the old one destroyed by fire at the beginning of last season. The plans show a magnificent summer hotel, with wide balconies, verandahs, etc., and with about 150 good large airy rooms for the accommodation of guests. It is proposed to light the building with electricity, and telephone communication will be had with Lindsay and adjacent points. The company purpose expending some \$15,000 in erecting and equipping the hotel, beautifying the grounds, etc.—Watchman.

Death grimly bars the passage through the door of happiness for thousands upon thousands of wistful women. The woman whose nerves are rattled by pain, and whose strength is sapped by debilitating drains, due to weakness and disease of the organs peculiar to women, cannot be happy. She is not only shut out from happiness, but death daily confronts her. Manly, this affliction is a woman's worst enemy. It is a deadly disease of the organs peculiar to women, and it is only by living a martyr to untold agony. This is needless. Thousands of women have found a sure and certain remedy and have spoken in no uncertain words of its most miraculous action.

This remedy is Dr. Pierce's Favorite Prescription. It acts directly upon the organs that make weakness and motherhood possible. It gives them health and vigor. It stops weakening drains, allays inflammation and soothes pain. The nerves, no longer tortured, resume their natural function of directing the healthy action of all the organs of the body. Under its benign influence, become a robust, capable, helpful and cheerful wife, fitted for the duties of motherhood. All good druggists sell it.

Three years ago writes Mrs. J. N. Mesler, of the Vanderbilt Avenue, New York, N. Y.: "I was given up by some of the best physicians in this city. They said there was no cure for me."

STOUFFVILLE.
The following is the arrangement of Lacrosse districts: York—Stouffville, Markham, Aurora, Aurora, Richmond Hill and Tecumseh II. Ontario—Beverton, Whitby, Uxbridge, Port Perry and Lindsay. A new and important regulation is now in force, viz:—No person is allowed in future to play under an assumed name, or on another man's certificate under the penalty of being put out of the game, and after expulsion there is no reinstatement.

Monday, being the first fishing day, came in with abundance of rain and towards noon the clouds dispersed and the rain ceased for a time. A number of anglers started for Dike's pond to try their luck in pulling out the speckled beauties and the pond yielded the grand haul of about 280 fish. F. Rae made a phenomenal catch, several others also made splendid hauls, so that the lessees of the pond expect to have excellent sport during the fishing season and also recoup themselves for the cost of the enterprise.

Mysterially disappeared.
The son of Mr. Gollinger left his home, lot 11, Con. A, East Gwillimbury, on Sunday last. He is twenty two years of age, medium height, clean shaven, light hair, light blue eyes, dressed in a grey tweed suit with sack coat, fawn color fedora hat, white shirt, garnet neck tie, light weight shoes, with rubbers on, carrying an open faced watch. When last seen he was on the 6th Con going south, about one o'clock the same day. Any person giving information that will lead to a knowledge of his whereabouts will be suitably rewarded. Please send any information as to his whereabouts by mail or driving to his parents at above lot, Sharon, P. O. Ont., or Wm Todd, Stouffville, P. O. Ont.—Tribune.

D W Kennedy has got nicely settled in his tin shop, and will move his family here in the course of a few days.

L Pilkey, south of here, has erected a neat rail fence along the front of his farm.

Graham Bros. were very successful at the horse show at Toronto last week. They secured first prize in both the Clydesdale and Hackey classes, as well as sweepstakes; first on Canadian draught and in the thoroughbred class. Besides these a number of minor honors were secured. We must congratulate the boys upon having such fine animals.

The annual meeting of the public library was held in the Workman hall on Monday evening. From the several reports read, our library is in a first-class condition, financially and otherwise. Over fifteen hundred books were issued during the year. The old board of directors were re-elected, except T Dunn being elected in place of Mr Eddy, who has removed to Brooklin.

Monday evening Sherman Rumohr purchased a fine looking heifer for slaughter. She was such a plump, well-fed looking animal that those who had a glimpse of her bespoke for a roast that was sure to be prime. Sherman proceeded to kill and dress the carcass and while doing so he thought that the lungs were not right. He sent for C J Brodie, V.S., who pronounced the carcass unfit for food, the animal having been suffering from tuberculosis of a very advanced nature. Instead of making first class beef the meat was buried at the direction of the health inspector. This is positive proof that outward appearances cannot suffice as to the presence or absence of such disease. Mr Rumohr deserves the thanks of all our people for his prompt action in the matter, as had he put the meat upon the market it would have sold readily.

A number of property owners on the trout creeks of this vicinity have notices up prohibiting trespassing or fishing. If something of this kind had been done a few years ago the speckled beauties would not be so nearly exterminated.

We noticed a number from one of the surrounding villages fishing on the first day of May. It would be well for them to remember that they are liable to a fine, as May 1st is included in the close season.

One Honest Man.
Dear Editor.—Please inform your readers, that it written to confidentially. I will mail, in a sealed letter, particulars of a genuine, honest, home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, and strong and which to make this certain I am now well, vigorous means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy.

What could be a more simple, interesting or appropriate way for the directors of the horticultural society to mark the diamond jubilee year than by planting a jubilee tree in the court house park—an elm or oak, or some similar sturdy and long-live tree and have it named and cared for as the Diamond Jubilee elm or oak, as the case may be? The smaller the tree the better, as it would be something to date from and its continuous growth could be noted by generation after generation, and the legend of its planting, bringing remembrances in touch with the past, would be perpetuated. Such a tree could be planted with some simple ceremony and it would stand for decade after decade a monument of the loyal thoughtfulness of the citizens of Lindsay. Whatever is done in regard to this matter must be done at once. The season for tree planting does not last all summer.

It has long been known that many valuable minerals are found in North Victoria and Haliburton counties, but perhaps it is not so generally known that anthracite coal is found in Haliburton county. That indefatigable prospector, Mr Robt Bradshaw, among his other discoveries, has just struck a splendid ledge of coal. The ledge is 30 to 35 feet wide, exposed 4 or 5 rods, and runs from comparatively low ground in a slanting direction into the mountain. Mr Bradshaw had Mr. Ayres, an expert from New York, up north Friday and he examined the place. The coal is as good, if not of better quality, than the recent Sudbury finds. Mr. Ayers says that the coal, a very few feet down, will be of very fine quality. Speaking for himself he said that he would rather have options on land in the locality of the coal, than on several supposed gold areas. The situation of the coal is only four miles from the railroad, and should Mr. Bradshaw's brightest hopes, and those of the men interested with him, be fully realized, it will mean a fortune for them and a God send for the people of this district.—Warder.
