A Young Daughter of David McHardy, interest of Fergus, the Victim-Has Suffered the Most Intense Agony-Doctors Failed to Help Her.

From the Fergus News-Record. Nearly every person in this section is acquainted with Mr. David McHardy, complete the popular leader of St. Andrew's church | moved t choir, Fergus. Our reporter called upon he died Mr. McHardy at his home in Upper mains Nichol recently, and from him and his home an estimable wife a tale of terrible suffering family v was elicited, suffering that has brought a the large once exceptionally strong and healthy days, to child to the verge of the grave. The sub- which I ject of the sketch, Lena McHardy, is fourteen years of age, and her parents say she has not grown any since her illness began some two years and a half ago. Her terrible suffering dates from the time she was vaccinated in June, 1894, and what she has since undergone has aroused the deepest sympathy of all the friends of the family. In conversation with Mr. McHardy and his wife, the following facts were elicited :- "Two years ago last June," said the father, "Lena was vascinated by a doctor in Fergus. The arm was very sore and swollen all summer, and became so bad that it was a mass of sores from the shoulder to the elbow. In October 1894 a large lump appeared on her back, over one of her lungs. The doctor who vaccinated her, treated her all that summer, calling very frequently, but the medicine he gave her did no good and she was growing weaker and weaker. When the lump broke out on her back another doctor was consulted, who said she was in a very bad state of health. Her constitution appeared to be com-pletely undermined, and her appetite bad completely failed. The last doctor called in gave some outward applications, and lanced the gathering, but it did not give upon the patient any benefit. Nine such gatherings have appeared since that time, for he but each broke and disappeared of its does at

own accord, only however, to be followed expect by another. The child became very baby a puny, and little or no food would remain to its w on her stomach. At night she would than of fairly rave with the pain in her arm and back, and consequently her trouble was aggravated by a loss of sleep. She had the best of attendance but to no avail, and she was slowly but surely sinking. "The Friends advised a treatment with Dr. Williams' Pink Pills and as a last resort they were tried. To the surprise of both "I had parents and friends Lena began to im-prove soon after beginning the use of the my pills. Her appetite returned, she became stronger and her general health much improved. The sores have not yet left her back and arm, but her constitution is being so very much improved under the stipati treatment with Dr. Williams' Pink Pills tle land that her parents are looking for a com-plete care. Mr. and Mrs. McHardy thank Pink Pills for the present improved condition of their child, as they have done her more good than the scores of bottles of doctor's medicine which she
