Care of Farm Roadsides.

Much of the attractiveness of country scenery, and with it the farms and country places it includes, depends on having good roads and well-cared-for roadsides. This subject is getting more thought from farmers than it used to do. Because the roadsides do not have to be tilled it is often thought they are the fair receptacle of whatever stumps, stoves or other material is un-welcome elsewhere.

Scott's Emulsion

of Cod-liver Oil with Hypophosphites, can be taken as easily in summer as in winter. Unlike the plain oil it is palatable, and the hypophosphites that are in it aid in digestion and at the same time tone up the system.

For sickly, delicate children, and for those whose lungs are affected, it is a mistake to leave it off in the summer months. The dose may be reduced if necessary.

We recommend the small size especially for summer use, and for children, where a smaller dose is required. It should be kept in a cool place after it is once opened.

An Ontario Lady Had Her Hands Poisoned.

Ladies should remember that the Diamond Dyes are the only pure, true and unadulterated dyes in the world. The imitation dyes sold under various names have bulk enough, but three-fourths of the contents is composed of cheap and worthless ingredients most dangerous to use and handle.

Diamond Dyes, prepared according to scientific principles, are always the same in color and strength; these great advantages the women of Canada fully appreciate.

An Ontario lady writing about Diamond Dyes says:

"Your Diamond Dyes are the best I have ever used; they are quite harmless to work with and never irritate the skin. I had occasion to use a package of economy cheap dye that was sold me as being equal to the 'Diamond'; but it proved a source of great trouble. After using it a severe rash appeared on my hands, showing it contained poisonous matter."

Mrs. Dunleigh—It is very singular that your mother always happens to call on me when I am out.

Little Flossie Dimpleton—Oh, we can see from our front window whenever you go away.

He won't use it, because its "shine" lasts too long, and seems too simple. Pays him better to use a wax pore-filler, and polish up a previous polish. Paid by the week, instead of by the pair, he'd shine the actual leather, hard and smooth surfaced, with SLATER SHOE POLISH. M. W. COLLINS, SOLE AGENT FOR WHITBY.

QUICKCURE A change of Expression. Children's teeth are often sacrificed by neglect—too often extracted before their successors appear—too often cause needless suffering. Every mother should have in the house "Quickcure". Dr. S. J. Andres, Montreal, says: "Quickcure overcomes the pain quickly; gives relief for a long time; is especially valuable for children's teeth which should not be extracted until their successors appear. It is perfectly safe to use at all ages, and does not injure the teeth as many other remedies used for toothache do."
