Ira Boyer's driver got fearfully cut in a wire fence the other day, and it not be fit to drive for weeks. It is surprising the number of accidents that occur through barbed wire, yet each year that material is used more extensively for fencing.
A couple of deer have been seen frequently in D Forsyth's woods, south east of the village, during the past two weeks. They are but fawn. As this is a fine season for such animals it is to be hoped that no one will be foolish enough to shoot them. If they could be trapped in some way and domesticated, what fine pets they would make.
Recently the body of a man was found lying beside the railway track about three miles east of here. He was dressed fairly well, but there was nothing upon the body that would serve for identification. In the pockets were a razor, a brush, soap and small glass, a mason's chalk line, a pearl handled knife, two foot rule and some chewing tobacco, and an Ottawa Journal, bearing date of June 25th. The body was that of a man about sixty years of age, and would weigh about 160 lbs. Death was due to either stroke or heart failure, as there was no mark of violence on the body. Coroner Eastwood decided that an inquest was not necessary and the remains were taken charge of by Undertaker Bundy and interred. The man's identity still remains a mystery.—News.

Dr. CHASE CURES FATHER AND CHILD
Both afflicted with Eczema of a very troublesome type and cured in a remarkably short while by Dr. Chase's Ointment.
"I was troubled for ten years with eczema on one leg; the itching was something terrible; would scratch until the blood came. How I came to know the name of Dr. Chase's Ointment, I have a little girl two years; when she was one year old the same disease began to show upon her face. It wasn't long before her face became literally covered with it. In order to keep her from scratching it we had to bandage her hands up. I tried several doctors, but got no relief. Seeing Dr. Chase's Ointment I bought a box, which I did from one of our leading druggists. The first application I noticed a change. It was then I began to think about myself. With four or five applications, to my surprise, I am completely cured, no sign of the disease, and my little girl's face is clear of all the scales. I am only too glad to inform any person what a blessing Dr. Chase's Ointment has proved itself."

An Ontario Lady Had Her Hands Poisoned.
Ladies should remember that the Diamond Dyes are the only pure, true and unadulterated dyes in the world. The imitation dyes sold under various names have built enough, but three-fourths of the contents is composed of cheap and worthless ingredients most dangerous to use and handle.
Diamond Dyes, prepared according to scientific principles, are always the same in color and strength; these great advantages the women of Canada fully appreciate.
An Ontario lady writing about Diamond Dyes says:
"Your Diamond Dyes are the best I have ever used; they are quite harmless to work with and never irritate the skin. I had occasion to use a package of common, cheap dye that was sold as being equal to the 'Diamonds,' but it proved a source of great trouble. After using it a severe rash appeared on my hands, showing it contained poisonous matter."

Improved Grain Shock.
According to a writer in The Farm Journal, nine bundles of grain make a better "shock" than the old-fashioned dozen. Get up four in a row, then four more, one in each of the spaces between two of the first four, and cap with the ninth, well broken, and the tops toward the prevailing wind. If well set, that is, each sheaf standing on its own bottom and thoroughly closed in at the top, such a "shock" will stand a stiff wind storm and a three days' rain storm without harm.

Ben Flewless has completed the road bridge at Ruddy's mill.

Insanity In Summer
BROUGHT ON BY NERVOUS AND MENTAL TROUBLES.
PAIN'S CELERY COMPOUND
THE GREAT TOWER OF SAFETY.

Nervous diseases, when aggravated by mental disturbances, produce more cases of insanity in the hot weather than at any other season of the year.
Nervous headache, nervous dyspepsia, sleeplessness, and chronic constipation induce depression of spirits, extreme weakness, morbid fears, despondency and languor; from these dread insanity comes slowly and surely.
Nervous sufferers have a dread of hot weather. Finding themselves deeper in the pit of misery than they were in the spring and early summer they are in utter despair. Thousands whose cases have not been met by treatment they are now under are loudly calling for help.
There is hope and rescue for you, reader, if you are one of the sufferers. You are in need of Paine's Celery Compound, that great builder of the nervous system. Its vitalizing action commences with the first bottle you use. You soon begin to realize that you are daily drinking health. The volume of blood immediately increases in the arteries, and the body is fully fed and nourished. Your appetite becomes keen and natural, the tired nerves and brain are strengthened, and you feel impulses of health that cheer the soul.
The power of Paine's Celery Compound over nervous summer diseases is admitted by tens of thousands who have used the marvellous medicine. This remarkable remedy will most assuredly meet your case and give you a new life; it will lay the foundation for future happiness and long years. Weak, wretched, and infirm reader, we counsel you to make use of this life-restorer at once, and enjoy the true blessings of health.
