ORILLIA Killed a Rattler.

Some people say there are no rattle snakes on the Severn River, and others say there are. People who have lived for a genenration along the river have never seen one. However, on Saturday last Mr E T Curran killed one. He was in a huckleberry patch, and was maintaining a difficult foothold on a rock when he noticed a snake coiled a few inches fro him. It was trying to get a solid base from which to strike. He jumped on it and kicked the stuffin' out of it before his enakeship could get into a position to do business. It had three rattles. Another rattler was seen the same day. The place was four miles up the river, and about a mile inland, east .- News-Letter.
