a course of Ayer's Pills the system is set in good working order and a man begins to feel that life is worth living. He who has become the gradual prey of constipation, does not realize the friction under which he labors, until the burden is lifted from him. Then his mountains sink into molehills, his moroseness gives place to jollity, he is a happy man again. If life does not seem worth living to you, you may take a very different view of it after taking

LINDSAY

Very serious charge Frank Costina, an Italian, a recent ar rival and a cousin of the fruit vendor, who resides on Melbourne st., in the row of small houses near William st., known as the beehives, is now in jail pharged with having attempted rape on a six-yearold child of Mr. John Peacock, a next door neighbor. The child is said to have visited the Italians house for the purpose of buying some peanuts when she was enticed into a room and the act is said to have been committed.

Case of suicide Joseph Davis, a young man about 26 years of age, and son of Patrick Davis, a well known boatbuilder of Peterboro, and formerly a resident of this town, committed suicide at his boarding house on Tem perance st., Toronto, last week by taking a dose of carbolic acid, purchased at a Yonge st. drug store and duly signed for. A physician was summoned, but met with resistance when he tried to administer an antidote for carbolic poisoning, and before another medical man could be procured the patient expired. The deceased had returned from a visit to his parents at Peterboro on Saturday, and the reason for committing the rash act is more than can be accounted for by his friends. An inquest will be held.

Last week two Orillia young men, Charles Hawkins and John Gattie, left here to spend a week camping on the Severn river. On Saturday, shortly be fore noon, they were paddling about half a mile below Severn Bridge, when they saw some ducks. Hawkins was raising his gun to fire at the game, when the trigger must have touched either the cushion or his clothing, for the gun was discharged, lodging the contents in the shoulder and face of Gattie. He fell over, upsetting the canoe. Gattie swam to shore, which he reached with diffi culty. Hawkins, who could not swim, clung to the canoe until an Indian who heard their cries reached the spot and took him ashore. Gattie was brought home on Monday afternoon, and will be about again in a week or so.-Post.
