PICKERING

W J Clark, the editor of this journal, is away on a holiday trip to friends in Barrie and vicinity. As the paper has been in the charge of the staff and a new quill-pusher, all errors that may have crept in will have to be excused on these grounds.

A N Ridley brought a corn-stalk to our sanctum that measured 12 feet 2½ inches. Lorenzo Banks came next with another, 11 feet 8 inches. Corn is so tall this year that the sale of step-ladders ought to increase.

From the annual forestry report just issued we notice that the total acerage of Pickering township is 71,412, cleared 66 608, woodland 3,269, and washland 1,534. Reach has the greatest waste with over 18,000 acres, while East Whitby has the least with 51 acres.

A Russian, from Poland, spent last Sunday in the village and exhibited himself to the local doctors as the man with a big heart. His heart is two or three times the natural size, and its beating can be heard by himself and others in the room. Besides this it is known as the musical heart, possessing all the murmurs with which doctors find the heart affected. He has been through all the leading medical colleges and has a book filled with autograph statements from most of the professors and doctors of the Staaes and Canada. He is on his way to Montreal to be presented to the medical association. He is a man with a history. He was studying law and had finished 6 years of a 7 years course in Russia when he purchased a book of some socialistic work and he was transported to the Siberian mines at the age of 21. They had to travel overland about 1000 miles, and work 17 hours a day in the mines when they reached there. After four years a party of them managed to escape and marcded 2000 miles to the sea-coast. He had two or three sword and bullet marks upon him. He reached Japan and managed to get to San Francisco. There he was arrested by the Russian consul but had to be released, his offence being a political and not a criminal one. He has a wife and child in Chicago. He could repeat his sentence and it was liberaliy supplied with such phrases as: "In the name of the Almighty God and the Holy Czar of the Russians." He received some aid here and then departed for the east.

UXBRIDGE

Broke Some Bones.

On Monday, while working with the threshers at Mr Thos Cases, 7th con Uxbridge, Mr W Chrysler fell about twenty feet from a ladder, breaking his collar bone and a couple of ribs. He would not let them drive him home, but walked the entire distance, about three quarters of a mile.

Took It Easy.

The rise in wheat at the present time recalls a story about a Reach farmer who had a thousand bushels of wheat during the last rise in price, but did not bring it to market because he was busy fixin' a bit of fence." Before the fence was fixed the price of wheat dropped below the dollar mark and he did not sell. This year, we may depend, all the fences on the farm may fall before he will lose a chance to get that wheat out to a dollar market.

A very old resident of this town was laid to rest Tuesday in the person of Mrs Etwell, relict of the late Edward Etwell. Deceased, with her husband, became a resident of Uxbridge when there was very few buildings in the place and has resided here ever since. She had reached the ripe age of 88 years. Mrs Etwell leaves a family of grown up sons and daughters to revere the memory of a devoted mother.

Wm Thom, of the Brock road, has laid a complaint against George Merrick Jr., C Jones, C Long, T Watson, John Watson and George Murta Jr., before Magistrate Hamilton, the adjourned hearing of which will come up next Saturday. Mr Thom has been annoyed for years by neighboring boys. Among the pranks played were the painting of his cat, cutting off his goats whiskers, etc. Recently his house was entered and a concertina taken out and he wants to put a stop to it.—Journal.

Thomas Francis, jr., 13th con of Brock met with a painful and what might have been a fatal accident on Thursday evening, Aug 29th. He had just unbitched his team of young and spirited horses from a load grain which had been drawn into the barn. One of the horses in going out of the barn past the load stopped and Mr Francis kicked at the horse with his left foot to start it going, in some way his foot got caught in the knot in the tug. The horse immediately started out of the barn and down the lane dragging ths poor fellow by the entangled leg. After running furiously down the lane about forty rods it passed through the gate which was open and continued its course west on the 13th con, kicking savagely all the time Wilmot Lloyd fortunately happened along and succeeded in stopping the brute. It was feared at firsi that Mr Francis was killed, Dr Bingham being summoned found that both bones of the leg were badly broken about two inches above the ankle joint and nearly all the skin of the back from tee hips upwards to the neck was scraped off. The arms and legs were covered with bruises; but apparently no serious internal injury was sustained, and although Mr Francis has been suffering very severe pains, hopes are entertained that he will in time recover from effects of his pecular and distressing accident.—Gleaner.

One Honest Man.

Dear Editor.—Please inform your readers, that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest, home cure, by which I was permanently restored to health and many vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and which to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy.

Why is it that one man is old and decrepid at 45, and another hale and hearty at 80? It depends on the care he takes of himself. Often a mans body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he is losing weight and that his ordinary work gives him undue fatigue, he needs Dr Pierces Golden Medical Discovery. If he keeps on working with his liver inactive and his blood impure—he keeps his nerves and his body under a constant nervous strain. He will not be hearty when he is old. "The Golden Medical Discovery" cures many so called diseases because nearly all illness springs from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.

Bitter Disappointments

And Family Grief That Can Be Avoided.

Paine's Celery Compound Brings Health, Joy and Happiness.

You are willing to confess, poor sufferer, that you have been bitterly disappointed with past efforts, and that in your estimation your future seems dark and gloomy.

You and your friends alone are to blame if disease is tightening its chain around you, making you a sure captive for the dark and dreaded grave.

Why keep a wife or husband in feverish anxiety, daily bending over you with tearful eyes and almost broken heart? Why cause your children's voices to be hushed, and their childish sports and games to be disregarded and cast aside? They certainly cannot enjoy life when they see a father or mother in the agonies of suffering and deep in mental despair.

You can change the scene by changing and bettering your physical condition. In other words, you can be cured and made well again by the use of Paines Celery Compound.

Your efforts, up to the present, to throw off the encircling and deadly bonds of disease have been vain and futile. Your doctor's well meaning work has not been productive of cheering results, and you are wasting money on medicines that can never meet your case.

Being assured of new health and life by the use of Paine's Celery Compound, you are sinning against heaven and false to your family and friends if you refuse to make trial of the great agency that has saved thousands in the past.

Paine's Celery Compound is the grandest disease banisher that medical science ever devised, and has the indorsation of our best doctors, lawyers, public men, merchants and others. Its curing powers are wonderful, prompt and sure, and it keeps every man and woman permanently cured.

SNATCHED FROM THE GRAVE. A Warning from the Living. "At 15 I learned a bad habit. Tried four doctors and nerve tonics by the score without benefit; emissions and drains increased. I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so and in two months was positively cured. This was eight years ago. I am now married and have two healthy children."—C. W. LEWIS, Saginaw.

VARICOCELE CURED. "Varicocele made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, no ambition. The 'Golden Monitor' opened my eyes. The New Method Treatment of Drs. Kennedy and Kergan cured me in a few weeks.—L. L. PETERSON, Ionia.

EMISSIONS CURED. J. P. EMERSON relates his experience. "I lived on a farm. At school I learned an early habit, which weakened me physically, sexually and mentally. Family doctors said I was going into 'decline' (consumption.) Finally 'The Golden Monitor,' edited by Drs. Kennedy & Kergan, fell into my hands. I learned the TRUTH and the CAUSE. Self-abuse had sapped my vitality. I took the New Method Treatment and was cured. My friends think I was cured of consumption. I have sent them many patients, all of whom were cured. Their New Method Treatment supplies vigor, vitality and manhood."

SYPHILIS CURED. "This terrible blood disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Kennedy and Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years."—W. P. M., Jackson.

Instruction Required.

It is to be regreted that certain councillors look upon their election as a certificate of fitness to perform any public service involving even scientific knowledge and that the extent of their public career depends upon the amount of such pretended service rendered. In this delusion many otherwise good men, eager for public preferment, have sacrificed their own aims. The public is impartial judge and the verdict strictly upon the evidence regardless of its severity, and, although this evidence may not be produced at the first trial—the polls—how many are here convicted, the strong point being, he undertook the expenditure of our money on a work about which he was ignorant, with the result, imperfect work and wasted money. The man successful in public business as in private is no pretender. In the latter he alone would suffer, but in the former all the taxpayers of the municipality, many not being able feel keenly the effects of his folly. What is to be gained by such pretence? Councillors are elected not as specialists in the various kinds of public works, but as members of an excutive, and should exercise their best judgement in securing proper administration, the main point of which is the employment of the most men to perform the different works so as to produce the most durable, serviceable and economical results. The fullest information on any subject is none too full. This is a age of specialization, and in every department of life men are devoting their time exclusively to a study of its requirements. In the matter of road and street construction, the present agitation shows clearly how complex the subject is and how little we know about it. In this as in other matters, the necessity and importance of practical education is clearly demonstrated.

A Generous Offer.

(Published by Request.)

Dear Mr. Editor.—Will you kindly inform the readers of your valuable paper that I will gladly send FREE to any sufferer from Lost Manhood, Nervous Debility, Night Losses, Varicocele, Impotency and the results of youthful folly, particulars of a simple and inexpensive means of self-cure which after being humbugged and imposed upon for years by quacks and patent medicine sharks, cured me in a few weeks. I have nothing to sell or give away, nor am I advertising any patent medicine business, but will be pleased to hear from any sufferer anxious to find a cure for his complaint, to whom I will explain confidentially how and by what means I was cured. Hundreds have been cured through my advice. Costs nothing to learn what I paid hundreds of dollars to find out. Address confidentially and enclose stamp if convenient.
