our townspeople. To run a free hoter,

The Royal Templars of Temperance had a very good turnout at their social on Wednesday night, and their fruit social was a grand success. There was an abundant supply of refreshment and after it had been disposed of, a varied programme was given. Rev Dr. McDiarmid gave an address, Rev Mr McAlpine gave an address and sang to accompaninents he played on his banjo, Miss Sanderson, of Ontario Ladies College gave a service of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents a year, and would not make a difference of fifty cents to the high-boring man five cents to the high-boring

of this town fell due, and were paid off. local council contributed to the programme. This indebtedness was incurred ten years ago, in the following manner: loan of \$10,-In a village printing office the first part of ooo to the Patterson foundry, loan of \$5,400 the obituary notice of an impecunious citi- to the Atlas Woollen Mills, loan of \$10,000 to the Martin Manufacturing Co, gift of \$6,200 to Martin Mfg Co, being cost of their land and buildings. The total of loans and bonuses at that time was \$31,600. Out of the Patterson loan the town never received but \$1,800. A lucky fire burned the Atlas Woolien Mills and the town drew the insurance amounting to about \$4,000. The Martin Company repaid their loan the day it became due. The tax payers of the town have paid \$5,000 interest on these loans, about \$300 expenses of one sort or another, and The affairs of the Massachusetts Benefit about \$14,200 of the principal, making \$19.

Life Association are being wound up. The 800 or thereabouts that the town paid for the Prescriptions and Receipts temporary receivers, Alfred Lord and A.S. folly of hiring three firms to come here and court. The assets of the association it is townspeople took about \$10,000 stock in the said are about \$500,000. The Boston Post Patterson foundry and lost it all. One out says that under the law the policy-holders of the three only ran about a month or two. may be compelled to pay the receiver the another has been sometimes alive and someamount of two assessments after the assets times dead during the whole ten years, have been realized upon. If the two asses- while the third was a success. At the time ments are not sufficient to make good all these loans were granted the CHRONICLE debts up to date of the liquidation, further opposed the move very strongly, and was calls may be made. That is the law in New threatened with an advertising boycott by several merchants. However, there is Observations on a recent visit with an Octagen- agony enough to recount without going into our personal troubles. The town has learn-Mr Evans life is an example of patience ed a bitter lesson of experience, and has to the sons and daughters of affliction. He paid for it honorably. The bylaw under suffers excruciating pain at intervals with which these loans were granted called for a chronic rheumatism. Mr Evans is resting sinking fund to be raised to meet the \$6,200 ing in this life works out a more exceeding council of ten years ago and for several and enternal weight of glory, for those who | years thereafter neglected to raise, thus are exercised thereby. His longlevity has trifling with the towns honor in order to not dimmed his natural vision. He reads keep down taxes and secure elections for the bible by the hour and duly appreciates the councilors by acclamation. It also be its contents. His mind is in perpetual com-munion with Christ which is an indubitable the Patterson and Atlas companies would never repay their loans. Still no effort was His pilgrimage will close in a golden sun- made to raise a sinking fund. This journal pointed out that the towns honor was at His Honor Judge Dartnell is in Chicago stake, and that there would be very little money to pay the \$31,600 debentures at ma Mrs Schiller, Miss Schiller and Miss M. turity. An agitation was started which Mussen are visiting friends in Toronto and placed a new set of men in council, and a plan was at once arranged to collect a sink-W. H. Ponton, the teller of the Dominion ing fund. In the meantime the Ontario bank had refused further credit to the town, and to ward off a crisis Ex-Mayor James Campbell stood for a time personal security for its finances at the Western bank. Messrs Campbell, King, Rutledge and A M Ross Word reached here yesterday of the death were at that time mainly instrumental for See E Stephenson, Whitby, for cheap ite score was made apparent last year when ness of purpose in laying away money to pay the peoples debts honorably, the Martin Mfg Co deserves special mention for the full measure of honor with which it handed back the money the hour it became due. Lastly. Mayor Rutledge by his skilful and careful supervision of the whole matter places the town under lasting obligations to him. As people would if wise make him stick to his

"The moon and the weather May change together : But change of the moon

Does not change the weather." How often one hears the prediction of a hange in the weather "when the moon changes." A fallacy almost as generally believed as that the crossing by the earth of an imaginary line in its trip around the sun causes an equinoctial storm. There is one aspect of our satellite upon which a change in atmospheric conditions may be predicted with some chance of fulfilment, and it is the day last. faint luminosity of that part of the moon, "A Subscriber" asks us the law regard- which is in a shadow, occasionally seen with fruit trees hang branches over his fence.
