they have ever given. Wm Fife was on Saturday charged before Magistrate Murton with appropriating a wrench and some other tools the property of Amos Waring. Fife set up the defence that the tools were given him by a stranger on the street. He did not know him and could not give a description of him but the accused was to sell the tools and have half the proceeds for the trouble. The magistrate had heard the same story several times before and sent the young man to Whitby for

### Free Library for Oshawa

Dr May director of public libraries met the he could not turn to the left and had to take Oshawa library board and a committee from the town council at the reading room Wed nesday morning. The chief subject of discussion was the project now being agitated expressed his strong regret concerning the of making over the institute into a free pub- injury done the wheel, and offered to pay he library. Dr May said that the present Williams \$5 to pay for repairing the damage, Rev R N Adams. grant of \$100 would be doubled if the library were made free and the present grant of \$50 to the free reading room would be con Williams contended that Slemon was driving on the wrong side of the turnpike and tinued. It is very likely this free library cussion terminates and Oshawa will take another step forward to keep up with the age. argued that while it is customary of late in To open out with a free library would call for a large increase in books and the town side, it is not ones duty to do so as a matter. Sabbath morning. for a large increase in books and the town council would have to come down with about of law. However awkward it may seem to every year, but everybody would get the part of the road, but would be obliged to T No 126: W P, A Annis; W A. benefit of it and the five or ten cents tax it turn out to the right if he met anybody with Werry; R S, Miss C Gardiner; A R S, Mr R Beith, M.P. would cost ratepayers would be made up shown that Slemon saw Williams, but Williams, but Williams, but Williams, J Bingham; con, J The Danger of Long Freight Trains

heavy trains over its line just now and it is not an unusual thing to see two engines at the head of a train nearly half a mile long.

This of course means less train and the long. This of course means less trains for the same The object is economy, but it is doubtful if the method will prove successful until the road is straightened and lead to the data accident which he had a decident which he ha road is straightened and leveled up. About The Post Office Fuss half a mile east of Oshawa on Friday night, The talk of removing the post office to the a train of 64 cars had two breaks. The first music hall block has almost broke out in break left the van and a number of cars standing in the hollow at the culvert east of the overkead bridge at the east end of the location and claim that Mr. Borbon and Mrs. Whitethe overhead bridge at the east end of the yard. There is an up grade from that point to the depot and in making it the train again to the depot and in making it the train again that will give more room and more light than 1896. Honors 1422. Louic Welch to the depot and in making it the train again broke and the cars running back struck those standing on the track. There was a mighty smash. The car that left the track went over the embankment, one end down.

The car that left the track terprise should be rewarded in this way.

On the other side of the question the cartery and Bartin Morris 1896. Honors 1422. Louis Welch there is in the present postoffice, two things the present postoffice, two things badly needed. spokes of the hind wheel. Slemon at once side, it is not ones duty to do so as a matter Sabbath morning.

Several lifelong Liberals declare they are done with the present Liberal members for South Ontario if this deal goes. They declare it is nothing but a job to benefit Carmichael and Bosbery and that they will ask the formers superannuation at once. Some declare that Brother Mundy of the Reformer has a sharp knife for Mr Dryden on the registrary office question and is pleased to see things drifting towards a big loss in the Liberal vote at the coming local election. Meantime Mr Bosbery has been ordered by the postoffice inspector to go on and fit up the new place for the iustitution and he is doing so. It looks very much as if the office is to be moved to Mr Bosberys building, row or no row, but red hot letters are being sent from all quarters to Messrs Mulock. Dryden and Burnett. These gentlemen are between the devil and the deep water and scarcely know what to do. Over the signature of "Philype" some person writes the Vindicator sarcestically referring to Mr Bosbery to gentlemen are between the devil and the deep water and scarcely know what to do. Over the signature of "Philype" some person writes the Vindicator sarcestically referring to Mr Bosbery has been ordered by the postoffice inspector to go on and fit up the new place for the iustitution and he is doing so. It looks very much as if the office is to be moved to Mr Bosberys building, row or no row, but red hot letters are being sent from all quarters to Messrs Mulock. Dryden and Burnett. These gentlemen are between the devil and the deep water and scarcely know what to do. Over the signature of "Philype" some person writes the Vindicator sarcestically referring to Mr Bosbery has been ordered by the registrary office question and is pleased to see things diffing to so the ferring the match the providential their mad career until the Providential their mad ca "Philype" some person writes the Vindicator sarcastically referring to Mr Bosbery as a dangerous party because he has a faculty of hunting up useless edifices and modernizing them. The letter also condemns Bosberry for earning money in Toronto and spending it here. It further objects to any person in terferring to annoy stay-as-we-are people. A Local Gold Excitement One dav last week Jas Bulkwell, black

intended to use as a root cellar. While erhandling was full of yellow specks which glittered in the light. Mr Balkwell had heard a good derl about the rich dirt at the Klondyke and the appearance of the dirt he was handling was such that he formed the opinion that he had found something that would justify the fullest investigation. He carefully gathered up all the dirt that held zer, and R D Fraser, Bowmanville. There were same stones about which also showed rich in color and these were care fully collected. Mr. Balkwell says he first compared his find with his wifes best gold ring and the color was the same. He then sent his wife with samples of his find to Mr Taylor, jeweller at Whitby, who he says pronounced it gold. The other jeweller. however, had nothing to say one way or the on the adjoining farm, were married. other. Still looking for confirmation for his The bride was given away by her hopes the samples were brought to Oshawa. and Messrs Felt Bros were called upon but they could not assure bim that it was gold. That night the bucket with the mysterious contents rested in a place of security under mony was performed. The brides sisthe blacksmiths bed. His dreams were ter, Miss Jennie Leask, attended her, pleasant and golden but in the morning Mr Jerry Lick, who had panned gold in Colifor nia in the forties, heard of the discovery and groom. Rev J B McLaren, Columbus, visited the place. He panned a little of the tied the knot. A pretty travelling suit dirt, and from the way the yellow specks adorned the bride, who carried a bohad of floating on top of the water, concluded that it was not pay dirt. Mr Balkwell thereon turned the contents of the bucket out into the yard, threw the rocks away and was served and a happy hour spent. returned to his anvil and forge. Thus another gold bubble burst, but not before it had caused quite a stir in the neighborhood. The inhabitants of the cemetery over the road will never know the narrow escape they had from being disturbed in their long ments being served. The bride rerest, for nad it been gold the whole country for miles around would have been turned upside down. Mr Balkwells find was mica schist. The rocks being under the soil and subject to constant moisture, the iron associated with the mica had acted as a dissolvent and only the cores of the rocks were left in their native condition when found The flakes of mica deceived Mr Balkwell as they have deceived others before him. - Vin.
