

Fifty Years Ago.

No theory of germs to chill Affection's budding bliss; When ardent lovers took their first...

Ayer's Cherry Pectoral

is the standard family remedy of the world for colds, coughs and lung diseases. It is not a palliative, and is not therefore put up in small cheap bottles.

Fads come and go but no theory or fad can overthrow the fact, that the greatest cure for all colds, coughs and throat and lung diseases, is Ayer's Cherry Pectoral.

50 Years of Cures.

A SCIENTIST SAVED.

AN INTERVIEW WITH A COLLEGE PRESIDENT.

His Many Duties Caused His Health to Break Down—Dr. Williams Pink Pills Restore Him to Activity.

From the Republican, Columbus, Ind.

The Hartsville College, situated at Hartsville, Indiana, was founded years ago in the interest of the United Brethren church, when the state was mostly a wilderness, and the colleges were scarce.

PROF. ALVIN P. BARNABY.

A reporter recently called at this famous seat of learning and was shown into the room of the president, Prof. Alvin P. Barnaby.

"Oh, yes, I am much better than for some time. I am now in perfect health, but my recovery was brought about in rather a peculiar way."

"Tell me about it," said the reporter. "Well, to begin at the beginning," said the professor, "I studied too hard when at school, endeavoring to educate myself for the profession. After completing the common course I came here, and graduated from the theological course."

I entered the ministry and accepted the charge of a United Brethren church at a small place in Kent County, Mich. Being of an ambitious nature, I applied myself diligently to my work and studies. In time I noticed that my health was failing. My trouble was indigestion, and this with other troubles brought on nervousness.

My physician prescribed for me for some time, and advised me to try a change of climate. I did as he requested, and was some improved. Soon after, I came here as professor in physics and chemistry, and later was financial agent of this college. The change agreed with me, and for a while my health was better, but my duties were heavy, and again I found my trouble returning. This time it was more severe and in the winter I became completely prostrated. I tried various medicines and different physicians. Finally, I was able to return to my duties. In the spring of 1896 I was elected president of the college. Again I had considerable work, and the trouble, which had not been entirely cured, began to affect me and last fall I collapsed. I had different doctors, but none did me any good. Professor Bowman, who is professor of natural science, told me of his experience with Dr. Williams Pink Pills for Pale People and urged me to give them a trial, because they had benefited him in a similar case, and I concluded to try them.

"The first box helped me, and the second gave great relief, such as I had never experienced from the treatment of any physician. After using six boxes of the medicine I was entirely cured. To-day I am perfectly well. I feel better and stronger than for years. I certainly recommend Dr. Williams Pink Pills to similar sufferers and overworked people."

I watched my husband playing golf yesterday. Well, what did you think of him? I thought if he had to take that much exercise at home for me or the children what a row he would make.

BEAVERTON

Going to St. Mary's.

John Stonehouse, manager of the Eden creamery, has, we learn, received the appointment of superintendent of the St. Mary's Co-operative Dairying Company's new creamery, which, when completed, will be the most extensive dairying plant in the Dominion.

A cruel, sensational story which has caused much pain to our worthy citizen Wm. Martin and family, has been going the rounds of the local press, purporting to be an account of the lynching in the Klondyke country of his son William.

A sad affair. We regret to learn of the sad mishap to John Gilbertson, of 6th con., Thorah. While assisting at threshing at P. McDermids on the morning of the 14th inst. his hand was caught in the cylinder of the machine and so severely crushed that the arm had to be amputated about two inches below the elbow.

Sixth Division Court. A sitting of the sixth division court was held at Beaverton, on Friday, 16th inst. His Honor Judge Dartnell, presiding. The docket was light. McEachern vs Rutherford—Action to recover value of note.—Adjourned. McEachern vs Rutherford—Action to recover note. Also adjourned. Till vs Harrison—Action to recover value of note given in purchase for horses.—Settled out of court. Santimo vs Murray—Action to recover \$825 wages.—Judgment for defendant with costs. Dickinson & Co. vs. O'Boyle—Action to recover account, \$54.75.—Judgment for plaintiff for amount of claim.

ORILLIA A sad death. C. J. Miller has received from Pittsfield, Mass. the news of the sudden death on Friday, of Bert Moore, son of Mr. and Mrs. E. E. Moore. It is just five weeks since Mrs. Moore and the deceased young man left Orillia after being the guests for some time of Mr. and Mrs. C. J. Miller. On Thursday of last week the unfortunate youth engaged in a friendly wrestle with a companion and was thrown. Some time after the wrestle he fainted but came round. On Friday there was a recurrence of the fainting spells, in one of which the young man died.

Fell from a trestle. Percy Bacon, son of Wm. Bacon, of Manorfield Farm, was the victim of a peculiar accident at Mount Slaven school on Thursday last. A chum of his at school accidentally thrust Percy in the eye with a lead pencil, and there is a possibility that the sight of the injured optic may be lost. On Tuesday Percy was taken to Toronto, where an eye specialist will be consulted.

Thomas James Greene, 15 years old, son of Andrew Greene, 86 Barrie road, fell from a trestle in the Tudhope carriage warehouse, on West street, yesterday morning and sustained a compound fracture of the arm. Young Greene was engaged with his father in V jointing the ceiling of the warehouse when the accident occurred. The fracture may result in the boy permanently losing the use of his arm.

Saw struck John Sibbald. John Sibbald, 15 years old, was playing in the old foundry yard at Tecumseh and Leslie streets on Tuesday when a companion named McAlary started to roll a worn out circular saw down an incline in the yard. Young Sibbald was stooping down and did not see the saw coming and before he had time to jump aside it struck him on the head inflicting a very nasty gash above the eyebrows.—News Letter.

Sunlight Soap

Wrapper Competition.

SEPTEMBER, 1897.

The following are the winners in District No. 2, Eastern Ontario:

Winners of Stearn's Bicycles

Miss Laura D Lavoie, Belleville. Mr R E Howell, 283 Wellington St., Ottawa.

The above competition will be continued each month of 1897.

LEVER BROS., Limited, Toronto

LINDSAY

Monday evening Inspector John Short brought a young girl named Rachel Rednor in from near Glenora, charged with being a common vagrant and placed her in charge of goaler Jackson. At an early hour Tuesday morning the girl gave birth to a baby boy greatly to the surprise of Mr Jackson and his assistants. The unfortunate young mother, it is unnecessary to say, was made as comfortable as possible by the goaler and his family.

A short time ago Chief Constable Bell received a description of a young man named Albert Antis, who was wanted at Bowmanville on a charge of having stolen a chestnut mare, top buggy and harness from W Glovers livery stable. Consequently the chief has been keeping a watchout for any one answering the description given, and was successful in locating his man on the above date. When Antis found out he could not hum bug the chief any further he admitted that he had driven to Sunderland, at which point he traded the buggy for a road cart. He then drove to Kirkfield and from that point to Fenlon Falls. He decided to take in pastures new and sold the horse and cart to a Fenlon farmer named McInnis, whom he got to drive him into town. On his arrival in Lindsay he proceeded to invest his ill-gotten gains, and after purchasing a railway ticket for Essex County, visited Sutcliffe & Sons and invested in a new coat. Shortly after this he was busily engaged regarding himself with a plate of oysters in a down town restaurant when he was "scopped" by the police and lodged in the gaol, where he was held until the arrival of an officer from Bowmanville yesterday evening. Antis stated that he originally came from the vicinity of Little Britain. He if also wanted at Markham for the theft of a bicycle.—Watchman.

Relief for Lung Troubles

By the aid of the "D. L. E." Emulsion, I have got rid of a hacking cough which had troubled me for over a year. I had this Emulsion so well I was glad to find this Emulsion so well I was glad when the time came around to take it. D. L. E. WIGGAM, G.E. Montreal.

Hard and Soft Food.

If anyone will moisten a gill of cornmeal, it will be noticed that a large quantity of water will be absorbed. This water is not taken by the fowl voluntarily, but through necessity, in order to accept the food offered. Naturally the fowls drink but little water, and but a small quantity at a time, unless deprived of it for quite a while. When the crop is packed with soft food and digestion is slow, decomposition begins, being hastened by the animal heat of the body. When the fowl consumes dry food and must seek it, the first portion is digested before the last enters the crop; hence when it drinks there is but a portion of the food eaten moistened and the crop is never full. This matter has been alluded to before, but it is one which should attract attention and receive consideration. To give soft food when it is necessary to do so is correct, but such food should be given only in limited quantities, and the ground food should be given in the trough, if possible, instead of forcing more water on the birds than they really require.

Pusher is furious. What's the matter. He was arrested on suspicion of being a scourer. Well—last he. No; this a baby-buggy stoop he wears.

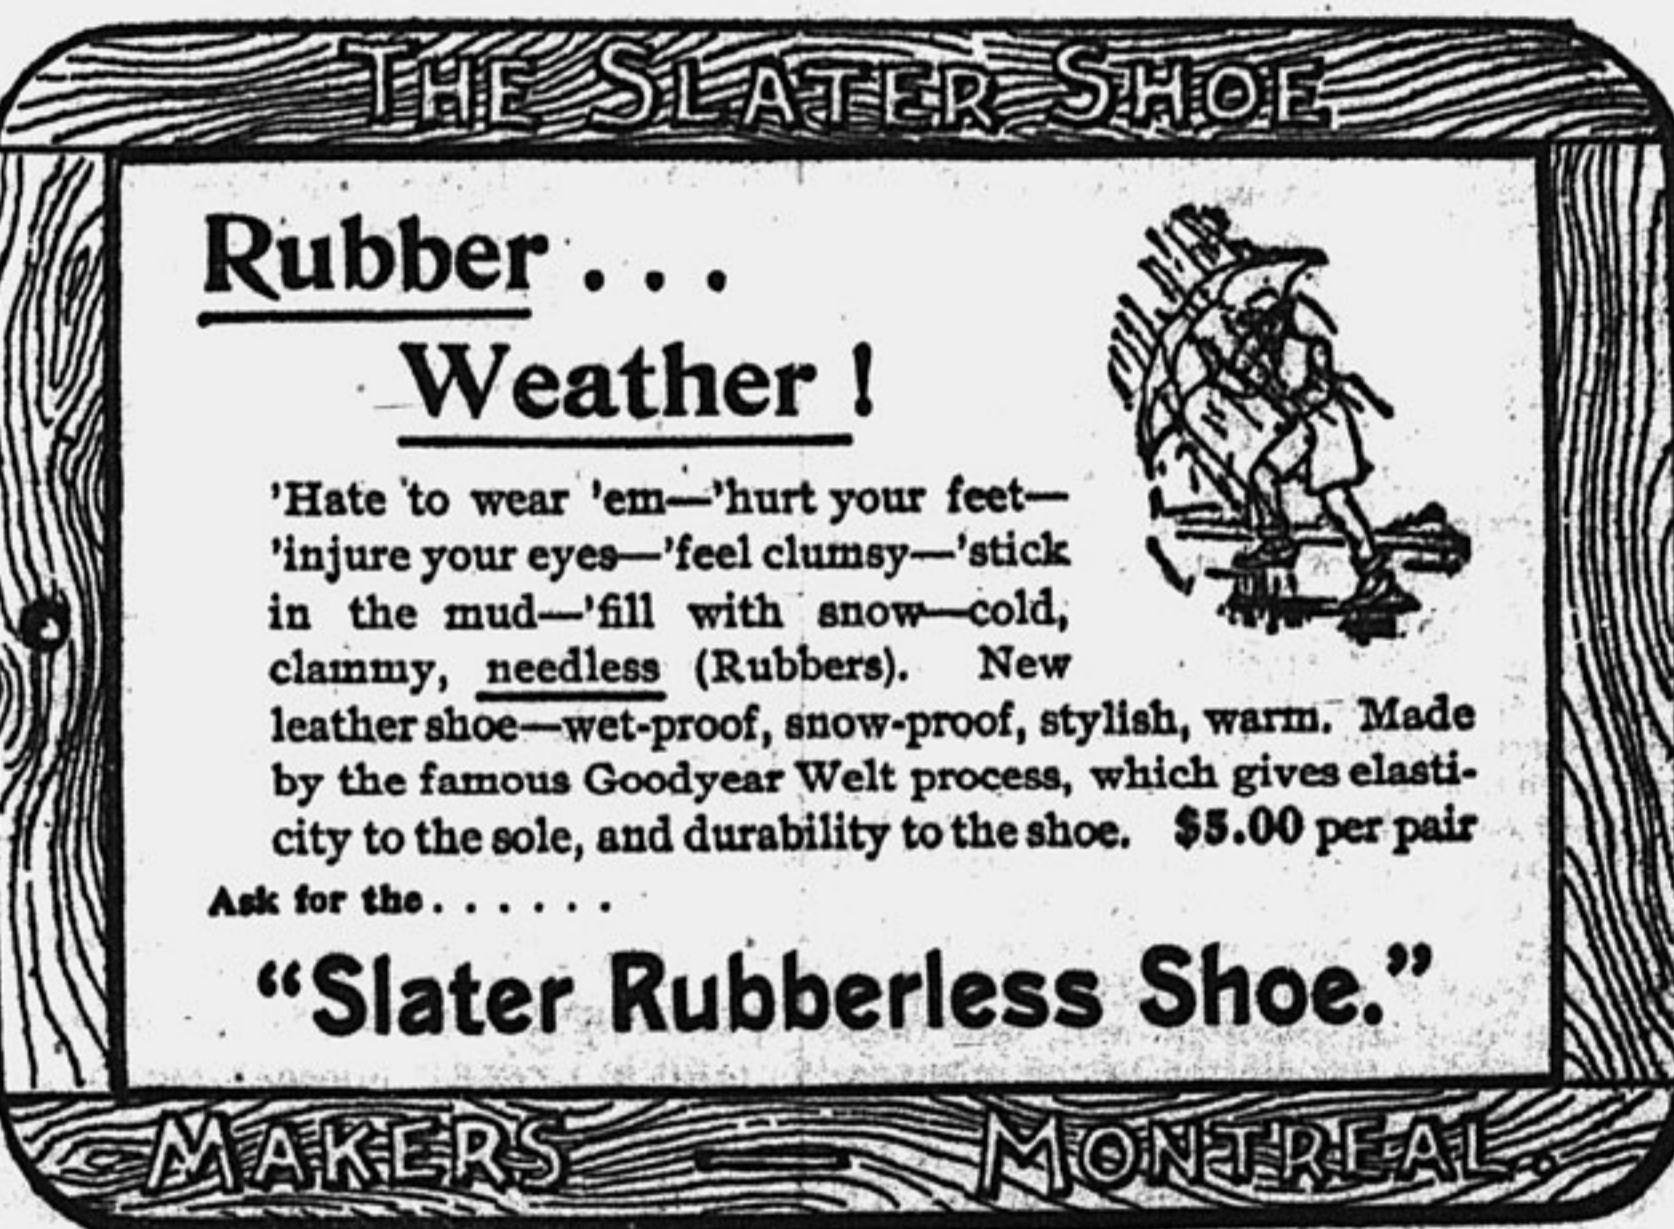

The Groom—The minister seems to think he knows more about you than I do. The Bride—How that? The Groom—I gave him a ten and he handed back five of it.

Have you any special rule of conduct in your office? Yes; when a man comes in and says he wants to talk to me only three minutes I see to it that he doesn't get a chance to sit down.

COUNTY OF ONTARIO.

TREASURER'S SALE OF LAND FOR TAXES.

By virtue of a warrant under the hand of the Warden and the seal of the corporation of the County of Ontario, dated the 15th day of Sept., 1897, commanding me to levy upon the lands mentioned in the following list for arrears of taxes and costs, as herein set forth, I hereby give notice that unless such arrears and costs are sooner paid, I shall, in compliance with the Assesment Act, proceed to sell by Public Auction, the said lands, or so much thereof as may be necessary for the taxes, at the Court House, in the Town of Whitby, on WEDNESDAY, the 25th day of DEC., A. D., 1897, at the hour of 2 o'clock in the afternoon

Table with columns: Township, Lot, Con. Acres, Taxes, Costs, Amt. Ptd., Usppd. Includes Townships of Rama, Mara, Reach, Brock, Thorah, Uxbridge, and Beaverton.

A Microbes Work.

A microbe is about the smallest thing one meets in a days journey, but it can do more harm for its size than anything known. Boils, pimples, etc. are simply microbes in the skin which cause irritating blood disorders, if not stopped at once; and it is they that prevent wounds healing also. "Quickcure" kills the microbe immediately after application, and any sore heals rapidly where "Quickcure" is used.

Etching on Glass.

The art of etching upon glass was discovered by a Nuremberg glass cutter. By accident a few drops of aqua fortis fell upon his spectacles. He noticed that the glass became corroded and softened where the acid had touched it. He then drew figures upon glass with varnish, applied the corroding fluid and so cut away the glass around the drawing. When the varnish was removed the figure appeared raised from a dark ground.

For Sale in Whitby, Ont., by J. E. WILLIS, Druggist.

Several steamships are detained in the St. Lawrence owing to fog and low water.

WM. CALVERLEY.
