Farm Sold.

Mr John Beecroft, acting for Mr Aley Thorburn, has sold the farm at Sonya formerly occupied by Mr. Thorburn, to Mr Hector McDougall. Mr. Johnson, of Sunderland, has purchased the shop and dwelling at present owned and occupied by Mr Mr McDougall, and will soon take charge of the blacksmithy here. The Crops

In this section the yield of wheat is be low the average. There have been some good returns of both spring and fall wheat, but generally the returns are low. Oats and peas are generally good, and hay yielded heavily, but much was in jured and some rotted by rains. Th continued drought ensures a light root crop. Mr James Watsons hop crop this year was good-the best for years-the yield being large in quantity and good in quality. Mr Watson, however, intends to quit hop raising, as the low prices and the uncertainty of production in this cli mate do not leave a sufficient margin of profit. Mr Watson and Mr. J. Ferguson will both reduce their yards to a suitable fraction of their present size. Personal.

Mr John Campbell, who has been ill, is recovering, and I was pleased to note, was again able to attend to his duties as caretaker of the church on Sunday last. Mr Robt Kirby, a former much esteemed resident of Sonya, and now of Har rison, is visiting friends and relatives in this section of the country. Dr T Wylie, of Toronto, and Mrs Wylie, are visiting at Mr Fergusons, Mariposa. The latter, who is a very old man, is at present in very poor health.

Church. We are still without a settled minister and still the "trial" goes on. We have had a Mr McDougall from Quebec on the last two Sabbaths, and he has preached with great acceptance.

The old story of Prometheus is a purable. Prometheus was on terms of intimacy with the gods. From them he stole fire and gave it to Mount Caucasus, and vulures were set upon ter that the potash forms an insoluble him. They only ate his liver This grew compound, by uniting with the sand.

Take a modern interpretation of the parable.
There is no cooking without fire. In cooking and eating the mischief lies The stemach is and eating the mischief lies. The stemach is overtasked, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the vultures—the torments of a diseased liver. There is no more need of suffering from dyspepsia than there is of hanging ones self. Dr Pierces Golden Medical Discovery is more than equal to the vultures of dyspepsia and its kindred diseases. Kennedy-Phair.

A very pretty wedding was celebrated Wednesday afternoon at the residence of of Mr Geo Murta, Reach, when his grand daughter, Miss Sarah E Phair, eldest daughter of the late Jas Phair; was united in marriage to Wm J Kennedy, one of Scotts most prosperous young farmers. The Hold on to your sheep.

It is folly to leave one branch of the live stock business for another, when other men are doing the same thing, so that prices are utterly demoralized.

Not altogether unexpected was the It was ever thus, but should not be.

A few months ago an Uxbridge citizen transacting business in another town got into an unseemly alteration and it was reported in the paper of that town. Out of kindness we omitted it from the Journal. But we never beard a word of thanks. Within the past month the same citizens name was omitted from this paper in connection with a matter that he would like it to have appeared in and the result was a burst of indignation against the editor. We dont claim that, preparation of the paper for the press, the Journal or any other paper cannot make a mistake, but we we are always willing to take full responsibility. At the Pickering. same time it would be well for people kindness from the paper that they are so ready to complain about, and if they have let that fact influence their manner of making complaint.—Journal.

Out-door life and Scott's Emulsion of Cod-liver Oil with Hypophosphites have cured thousands of cases of consumption in the early stages. They cure old, advanced cases too;

but not so many, nor so promptly. When a case is so far advanced that a cure cannot be made, even then SCOTT'S EMULSION checks the rapid ity of the disease, relieves the pains in the chest, reduces the night sweats, and makes the cough easier. In these cases it comforts and prolongs life. Don't experiment with cures that destroy the digestion. Pin your faith to the one remedy which has been THE STAN DARD FOR OVER 20 YEARS.

What might have proved a serious accident occured on the road between Scott and Uxbridge townships. Mr. P Rynard and his mother, Mrs W Rynard, while returning home from Uxbridge on Saturday, were thrown violently from the buggy into the ditch. Mrs Rynard received a few bruises on the head and a sprained wrist. The horse became frightened at a pig in the ditch.

The band concert which was held in the hall on the 15th inst was a complete failure, there being only about 15 present. Was it that there was not a good programme? No. It was that the band have had several concerts in the near past, and that the people thought that for them to hold another would be nothing but sheer imposition on the public. am pleased to state the band is not constituted entirely of such people as would try to impose on the people, but on the contrary the large portion is of the very opposite nature. The concert was undertaken by one person, greatly against the wishes of the other members. To a cer son does not become so liberal when called upon to compensate the loss out of his private funds. As a result of this trouble our "boss" has resigned and there are fears that the band will be a thing of the past, but we hope that this N part 20 I dissension will soon be forgotten and that the remaining part will strive to keep up the band.
