A man, aged 30, has died in New York from injuries received through his partner, a woman weighing 200 lbs., falling on him in a dance. It is well fat women do not play football.

The new issue of Dominion stamps will be on sale about the 1st of December. The one cent will be green, the three cent red, the one for the international communication will be blue. The latter is the one which will be sent on English letters.

The Bowmanville high school football club played the collegiate institute team on the athletic grounds on Saturday. The collegiate had a weak team on the field and were defeated by a score of 2-0. Geo. H. Hogarth referred to the satisfaction of all. This is the first time in six or seven years the collegiate team has been defeated. The return match will be played at Bowmanville on Thanksgiving day.

A Clever Canadian.

May Irwin, who is playing at the Grand opera house, Toronto, the last three days of this week her new comedy—"The Swell Miss Fitzwill"—will be better remembered as Miss Georgina Campbell in Whitby where she was born and lived the earlier years of her life. A member of one of the old and well-known families of Ontario county, the Campbells, this gifted young woman has reached one of the highest places in a profession in which merit alone is of avail. Reginald De Koven, the musical composer, author of Robin Hood and other comic operas, and a competent authority upon such a question, writing in the September Cosmopolitan magazine, of great successes amongst popular singers places May Irwin in the first position on the American stage, and claims her as a citizen of the republic. Miss Campbell's father was the late Robt Campbell, brother of Mr. B. F. Campbell, of Brooklin; her mother, a sister of the late Chester Draper. The house now occupied by Mr. W. H. Crossby was the one the Campbells last lived in here. The other sister, Addie Campbell, or Flo Irwin, professionally, is also most successful as an actress, though in another field, that of the drama, while May Irwin is above everything, a singer. Her singing of negro melodies is unrivalled.

Asphalt walks are being laid wherever paths are needed around the college.

Mens heavy frieze ulsters, storm collars, in brown and fawn, only 4.50 at W. G. Walters.

Well, we have had our little annual snow storm. Now for the annual six weeks of Indian summer.

The editor of a neighboring paper made his wife a birthday present recently, of a mammoth parlor lamp. She gave it his name, and when asked why she did so, replied: "Well, you know, dear, it has a good deal of brass about it. It is handsome to look at, requires a good deal of attention, is sometimes unsteady on its legs, liable to explode when half full, flares up occasionally, and is always out at bedtime and bound to smoke."

The hotel-keepers of the Province are preparing for the approaching Ontario elections. It is understood that a meeting of the Ontario Association Executive will be called before the Ontario Parliament meets, when a series of questions will be drawn up and submitted to every member of the Parliament, and copies will also be sent to every candidate for political honors. These candidates will be requested to give written replies to these questions, and if the answers be not considered satisfactory the writer will feel the influence of the trade in his election. Heretofore verbal replies have been accepted by the association, but this is not now considered satisfactory, and the replies will have to be written out. It is stated that the most important in the series of questions will be as to whether the candidate is in favor of or against prohibition.

Hard on Women

In a neighboring town a woman fell from her wheel and bit off a piece of her tongue. The local papers report that the accident caused some of the meanest men in town to buy wheels for their wives.

New Grain Buyer

Mr. F. J. McBrady announces in another column that he is prepared to purchase all kinds of grain, for which he is prepared to bid the highest market price. Farmers would do well to give him a call.

The Mission meetings at St. Johns.

Very great interest has been awakened here through the series of special services and sermons at St. Johns Roman Catholic church by two redemptorist fathers from St. Patricks church, Toronto, the Rev. Father Jeffcott brought to Whitby and Oshawa. The two missionaries are working at St. Gregorys, Oshawa, this week.

At All Saints

Rev. Mr. Soffly, of Toronto, assisted in the services at All Saints church on Sunday. He is the master of a most finished style in reading and as the lessons for the day included the stirring account of Nebuchadnezzars burning fiery furnace those who delight in artistic elocution were much pleased. At the evening service Mr. Soffly preached a fine sermon on the subject of faith.

County Council grants

The granting of \$500 of county money to cut down hills on the Kingston road has been a great advantage. The brows have been carried away from all the worst hills, and fresh gravel applied with such success that the fall rains have caused no damage. We believe it would prove a good idea for the county council to make another series of grants at its June session this year.

Port Whitby Notes

Jos Southwell, of Toronto, spent Sunday at home.

Wm Proudfoot returned on Friday last to Chicago.

Mr. B. Worfolk is making preparations to build a new barn.

Ducks are more plentiful this week than they have been before this season.

Mr. Albert Hewitt, who has been in the employ of Mr. Thorndyke, has gone to near North Bay, where he has taken up land.

Capt. Lawler had the Curlew out for the last time on Sunday morning and had rather an exciting time. The wind was strong but efficient management prevented an upset, although it almost happened once or twice. On Tuesday the Curlew broke away from its mooring and is now high and dry on the south shore of the bay.

The Schr. Tradewind, of Whitby, laden with coal from Oswego for Oshawa was tied up at the dock here a large part of this week on account of rough weather. The Schr. Wave Crest, of Port Hope, loaded lumber this week for George Cornack, bound for Oswego. The Goldring fleet have been laid up this week, the lake being too rough to get stone.

The Citizen Bands Smoker.

Wednesday was a bad night to go out, but about one hundred and fifty attended the Citizen Bands smoker, where cards and pipes were the order of the day, or rather of the night. The band had prepared some very fine pieces and were most liberal in rendering it for the entertainment of their visitors. Mr. Jas. Foley sang a number of capital songs, his yodling being immensely well done, and he topped out his performance with lively dancing, being roundly applauded. Mr. Bottle Lawler, a colored artist, did the sweetest song and cakewalk business in a style that carried the house. Mr. Gorst played his violin to good effect, but the racket of a smoking concert is fatal to the fine strains of the violin. Mr. Albert Turner gave a reading with a strong Irish brogue, which was also damaged by the noise. The card tables were used to settle a good many difficulties, the war lasting until fully eleven o'clock. The band intends to give another smoker later on, which will be on a much more elaborate scale.

Booming the A. O. U. W.

Monday last was quite a red letter day for the A. O. U. W. here. They had a visit from the Grand Master Workman, F. W. Unit, Toronto; W. W. Hodgson, Grand I. Watchman, and T. S. Allen, Grand Organizer. Stirling addresses were delivered by each, and the principles of the order beautifully illustrated on canvass by lantern during Bro. Hodgson's lecture. The local lodge has just added twenty-seven members to their roll. Refreshments were served during the evening, song and story indulged in, and midnight arrived before they retired, every one delighted with the evenings work and general progress of the order, which is now the oldest, largest, and cheapest purely Canadian beneficiary society in the Province. Their organs, the Canadian Workman, reports an increase of 4200 in nine months, and fully expects it to be 6000 by the end of the year. Special low rates are extended to Nov 30th for admission to the order.

The Immortality of the Soul

Since "Student" sent in his letter to be published asking for light on this question we have been in constant receipt of treatises on the subject of the soul and its future. "Student" is unknown to us, and as our soul is saved, and has a glorious future before it, we have no special need of these books, pamphlets and tracts, therefore we look to those who are firing off their arguments on all shades of the question at us to stop it at once. We are also favored with a letter from one who claims to be a minister, expressing a desire to do his religion justice, and letting loose the result of that desire upon the public in the shape of a long letter. This would lead some other fellow who has never been able to find his own small soul to write a longer letter proving that there is no soul. Then a third party would sail in with a still longer letter showing that neither of the other fellows knew anything about the question, and we doubt not that he would also convince our readers that, as well as they, knows nothing about the soul. We do not wonder that some people doubt the existence and immortality of the soul. They are standing arguments that neither the soul or body is worth saving.

Mr. E. E. Starr, Montreal, was here Sunday last.

Boots and shoes at half price at Haywards old stand.

Mrs. O. H. Landan, Toronto, is in town this week visiting friends.

New stock of flannel 32 inches wide only 5c a yard at W. G. Walters.

The firemens annual ball will be held on Friday evening, Dec 31st, New Years eve. This week only lamp glasses extra, and a fawn haddie 6 cents per pound. A. D. Urin.

Mr. J. D. McMillan spent Sunday here, and set out for Belleville with his family on Monday, where they will reside in future.

Mr. D. McGillivray, Uxbridge, spent last Sunday here. He has finished his medical course, and is putting in a final year of hospital work before passing the medical exam.

The CHRONICLE is only published once a week, but when it is printed it gives a full weeks history of Ontario county, not a lot of patent reading from one to a thousand years old.

Several business men in town feel that they were slighted in a local story published last week, CHRONICLE. We published the story at 80 cents a line for a gentleman who canvassed the town, and who would only take one business firm in each separate line of business.

Mr. and Mrs. Jno. Murphy and family left for Chicago yesterday. Frank has secured employment in a wholesale house and Morris will learn the tailoring with his brother James, who runs a merchant tailor business. Miss Murphys genial smile will be missed by residents near Lyndes creek. The CHRONICLE wishes them best luck in the west.

The str. Idaho, of the Western Transit company, caught in the fierce southwest of Friday night, foundered in eight fathoms of water at 4.30 o'clock on Saturday morning, twelve miles above Long Point, which is about 65 miles west of Buffalo. Twenty-one men were aboard the Idaho when she went down, and nineteen of them went to death, two only being saved.

Mr. Jno. Ballantyne returned on Tuesday from the west. He visited the horse fair at Chicago and says that it was an excellent exhibition. He was at Iowa with Mr. J. T. McPhee, who left here ten days ago with five car loads of cattle, made up of stockers and young bulls. The whole lot cost about \$5000. Mr. McPhee has stocked with horses, cattle, sheep and hogs. Mr. McPhee now has 70 head of fat steers ready for the market, which will average about 1700 lbs each. It is probable that Mr. McPhee will return to Whitby shortly for another lot.

Flowering Match postponed.

The Ontario County Flowering Match which was to have occurred at Myrtle, Ontario, has been postponed till to day, Friday Nov 12th, on account of the rain. Hitch up as soon as you read this and drive to Myrtle. Poets and Poetry.

Rev. Dr. D. Watt, ex editor of the Christian Guardian, will tonight, Friday, 8 o'clock, lecture at Ontario Ladies College, on the subject "Poets and Poetry," having special reference in some degree to Canadian poetry. Dr. Watt has delivered several lectures at the college, every one of which was highly applauded. Silver collection at the door.

Bay of Quinte Conference League.

The Bay of Quinte conference league executive met here on Friday in the Methodist tabernacle. The principal business was to decide on time, place, programme, etc., of the conference to be held in the fall. It was decided to hold it on Feb 23rd and 24th. The place has not yet been decided, but there will be no difficulty in getting a place, as it was resolved that only the speakers should be invited from the conference and Port Hope are the two places most mentioned.

Don't Cheat the Editor.

Bill Nye one said: "Do not attempt to cheat an editor out of this years subscription to his paper, or any other sum. Cheat the minister, cheat anybody and everybody but if you have an regard to your future consequences, do not fool the editor. You will be put up for office some time, or want some public favor for yourself and friends, and when your luck is a thing of beauty, a joy forever, your castle into a cocked hat at the first puff. He will subdue you, and then you will curse your stupidity for a drivelling idiot; go hire some man to knock you down and kick you for falling."

On the Wing.

Mr. E. Stephenson, Whitby, has ticketed this week the following: Mr. and Mrs. J. J. Murphy and son Morris, Whitby to Chicago; Miss Burns, daughter of John Burns, Brooklin, to New York; Judge Darnell, Whitby, to Uxbridge and Cannington and return; Jos. White, town clerk, Whitby, to Kingston and return; Miss May Davey, daughter of Jno. Davey, town line, Whitby, to New York; Mr. L. T. Barclay, Whitby, to Peterboro and return; Mr. F. Brown, Whitby, to Komoka; Mrs. W. Barker and Mrs. Alice Barker, Whitby, to Odessa; Roy Sanders and Thea, Whitby, to Toronto, Ont.; Mr. and Mrs. Allan and family, Whitby, to Essex; Jno. Burns, Brooklin, to Toronto and return.

Cream Separator.

The Butterly cream separator was exhibited in the council chamber here on Saturday by Geo. C. Pichard and J. H. Long, the local agent. The little machine is only about three times as large as meat grinder, and turns with a crank. The milk is poured into a hopper at the top, very much like that of a coffee mill and runs from this hopper into a cylinder which runs at the rate of several thousand turns to the minute. The cream particles being the heaviest naturally come to the centre of this cylinder as it turns so swiftly and runs out there while the thinner milk swishes to the outside and finds its way to the bottom. The cream is skimmed from the bottom, yellow cream which makes the teeth water from one, and blue water skim milk from the other. An eight gallon can full of milk was separated in 30 minutes. Mr. Pichard is a practical man and handled his machine so effectively that anybody who was present could take one and use it with complete success. The process of butter making is expedited and improved by the use of this machine, while the cream goes almost directly from the cow to her offspring.

Literary notes.

The Homiletic Review for November, although a little later than usual in reaching this country, is a most valuable record in the richness, variety, and practical quality of its contents. Its review section contains articles by Dr. Cunningham Geikie, on "How Best to Prevent Bad Characters from the pulpit"; Prof. T. W. Hunt, of Princeton University, on "Shelley's Last Test"; Dr. Carlos Martyn, on "The Christian Citizenship Movement"; Archdeacon Sinclair, of London, on "Practical Recommendations of the Lambeth Conference of 1897"; Professor J. O. McCurdy, of Toronto, on "The Story of the Irish"; The leading news-entertaining sermon is an admirable one by Rev. Paton Glog, D.D., L.L.D., of the Free Church of Scotland, on "Obscurity in Our Views of a future State," followed by others by Dr. H. A. Simons, of the Westminster Congregational Church of New York City, on "The Holy Spirit Working Conviction of Judgment"; President M. Woolsey Stryker, of Hamilton College, on "The Heavenly Vision"; Rev. John McNeill, of London, on "I Go A-Fishing"; Rev. Dr. Love, of Philadelphia, on "Puzzle Interpreted," etc. There are also Thanksgiving Sermons and Themes, Leading Thoughts of Recent Sermons, and Suggestive Themes and Texts. The Review stands alone in its work, meeting the special needs of preachers of all classes and all denominations. Published monthly by Funk & Wagnalls Co., 30 Lafayette Place, New York. \$1.00 a year.

Every Saturday Tourists Sleeping Car Route to California

Commencing next Saturday night, and continuing every Saturday night thereafter, Midland Route tourist cars en route to Colorado, Utah and California will leave the Chicago Union passenger station of the Chicago, Milwaukee & St. Paul railway at 10 o'clock, running over the Chicago and Omaha Short Line to Omaha, thence via Lincoln, Neb., Colorado Springs and Leadville, Colo., Salt Lake City and Ogden, Utah, Reno, Nevada, and Sacramento, Cal., arriving at San Francisco at 8.45 p.m. Wednesday. As will be noticed, this route is Midland through Northern Illinois, Iowa, Nebraska, Kansas, Colorado, (through the heart of the Rockies), Utah, Nevada and California, affording a perfect panoramic view of prairie, mountain and coast scenery. These popular every Saturday California excursions for both first and second-class passengers (not foreign emigrants) are "personally conducted" by intelligent, competent and courteous "couriers" who will attend to the wants of all passengers en route. This is an entirely new feature of tourist car service and will be greatly appreciated by families or parties of friends travelling together, or by ladies travelling alone. Particular attention is paid to the care of children who usually get weary on a long journey. Remember that the Midland route tourist cars are sleeping cars and are supplied with all the accessories necessary to make the journey comfortable and pleasant, and the sleeping berth rate is but \$6 (for two persons) from Chicago to California. Ask the nearest ticket agent for a tourist car "folder," giving complete information about the Midland route, or address "Eastern Manager Midland Route," No. 25 Adams street, Chicago, Ill., or A. J. Taylor, Canadian Passenger Agent, C. M. & St. P. Ry., 2 King street east, Toronto, Ont. P. S.—Berth reservations are made in the order received up to each Saturday morning. First come, first served.
