Charlie Billings, who has on several occasions acted as relieving agent in the various banks here, has recently been appointed teller of the Toronto branch of the Ottawa bank. His many friends will rejoice at his good fortune in securing such a good position with such a reliable concern.

A black horse, without either driver or strap, galloped into the village a few days ago, and was captured by A. Birrell, who stabled the animal. Soon tiring of the accommodation thus afforded it, the horse broke loose and made for the east and was not again captured until the townline was reached. A few days after an advt was in-

serted in a city paper by a Mr Davis, of Davisville, making enquiries for such an animal. Landlord Gordon sent a message to Mr Davis, with the result that the animal was recovered. It is not known whether or not the animal has been stolen, but the owner is of that opinion.

Poor Blood

When a horse is poor in flesh, a new harness won't give him strength. If a house is cold new furniture won't warm it. If your strength is easily exhausted; work a burden; nerves weak; digestion poor; muscles soft; if you are pale and worn out, the trouble is with the blood. It is not so much IMPURE blood as POOR blood. Pills won't make this blood rich; nor will bitters, nor iron tonics, any more than a new harness will give strength to the horse, or new furniture will make a house warm. For poor blood you want something that will make rich blood.
