The Art of Mending.

The complaint is made that the art of mending is not practiced to-day with that punctilio that our grandmothers considered necessary. It is advised that every growing girl should be taught to darn, with all the dainty stitches of the art; that there should be instilled in her a sense of the disgrace of wearing a stocking with even a broken thread, while a darn well put in has a homelike, respectable look that in no way deteriorates from the value of a good stocking.

Women are not the only ones who are sensi tive about their ages. A man doesnt like to be told that he is getting old. Health keeps a man young. It doesnt make any difference if he has lived eighty years If they have been healthy years, he will be hale and hearty and Winter is coming on. Have you a wont look within twenty years as old as he is ple look youthful. Dr Pierces Golden Medica Discovery makes rich, red blood. It makes bealth in the right way. It works according to the right theory, and in 30 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning-begins by putting the stomach liver and bowels into per fect order, but it begins its good work on the blood before it finishes with the digestive system, It searches out disease germs wherever

Why Baled Hay Is Musty.

Much of the baled hay that comes to market is musty. Most farmers when they bale hay think it need not be very dry, as the bales are small. But the amount of hay packed in them is always sufficient to get up a violent ferment un. less the bay is properly dried before it is put into the bale. If there were more care used in baling hay the price for it would be much better than it is, as the hay itself would be better worth it.

ONE HONEST MAN. ritten to confidentially, I will mail, in a scaled leter particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous lebility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy. Address with stamp, WM. T. MULFORD, Agents' Supplies, P.O. Box 59, St. Henri, Que.
