Belgium controversy. Our readers know that our columns are always open to them whose views we think it would be better, however, to let the present controversy on Belgium remain between the parties who started it, and we would advise all who wish to talk on the subject to confine themselves to arguments bearing on Belgium and avoid invectives or insinuations.

On Thursday morning last at 1.40 an alarm of fire roused some of our inhabitants and called the brigade to work. A big blaze in the centre of the town revealed at once the location of the fire. It was in the roof of the Times building, (jocularly called the iron block.) a large three storey frame.

Instead of submitting to the operation I used Paines Celery Compound, and I am thankful your valuable medicine cured me. I feel like a new woman, and I would like all sufferers to know just what this great medicine has done for me.

Mr Cameron went west in March last to look over the country and having some friends in the Souris district, obtained steady employment at carpentering. He speaks very highly of the country, and says he met many people who had gone there without a dollar who have attained to comfortable circumstances in the course of five or six years.

On Saturday last Knowlson Bros, owners of the Str Alice Ethel, met with a serious loss as the result of a somewhat unusual incident. On Saturday morning the steamer was taken through the locks to the ways, near the foot of Kidnet at where it had been decided to haul her out to receive certain repairs during the winter.

CATARRH

Doctors Could Help, but Couldn't Cure—Dr. Chase's Catarrh Cure Released the Prisoner, and To-day She is as Well as Ever—She Says It is a Great Remedy.

"Yes, I am Mrs. Dobell," said a comely, pleasant-faced woman at her home on Horton street to a News reporter to-day, "and I will very gladly tell you what you want to know. About three years ago my husband was very ill, and I had frequently occasion to rise in the night and go for a doctor or to the druggist. In my hurry I often neglected to properly clothe myself, and contracted several heavy colds, which turned at last to chronic catarrh. I tried doctors, who helped me, but did not cure me, and several special catarrh medicines. I was relieved but not cured. I was suffering intolerably when Mr. Shaft recommended me to try CHASE'S CATARRH CURE, and it began at once to help, and in about two months had entirely cured me. I cannot speak too highly of this remarkable medicine, and cheerfully recommend it to all sufferers from catarrh." The blower included is a great help to sufferers.

CANNINGTON

Mr Frank Campbell, left on Saturday evening for Beaverton where he intends embarking in the furniture business. Frank is a young man of sterling qualities and we bespeak for him a good share of the business of that town.

Snow fell heavily here on Wednesday and Thursday last until about six inches covered the ground and in some places two feet on the sidewalks but still our town fathers did not think there was sufficient snow to run the snow plow over them, the result was that on Saturday and Sunday there was a good four inches of snow and slush on the sidewalks. People going to church had to wade through this slush and many wet feet and colds was the result.

The open debate last Tuesday evening. "Resolved: That the press has wielded greater influence for good than the platform," was a most interesting one. The press was supported by Mr Fred R Foley and Misses Ida Stevens and Minnie Spry, while the platform was built up by Messrs Chas Worden and W C Frank and Miss Addie Cole. Much enthusiasm was generated on both sides, but the judges decided in favor of the affirmative.

Miss Minnie Spry has been re-engaged as teacher at an increased salary. Misses A G Stevens and M G Foley are visiting Oshawa friends.

One thriving village can boast of one of the finest and most modern hotels outside the city of Toronto. Contractor J.T.V. Mag, of Cannington, is pushing it to completion and Mr. Roach expects to occupy it about the latter end of the present month.

CATARRH SUBJECTS

This dread malady lurks behind the most insidious head cold, and when the seeds of disease are sown steals away the beauty bloom and makes life pleasures a drudgery. DR. CHASE'S CATARRH POWDER will cure the toughest cold and the most stubborn and chronic Catarrh cases. It puts back the beauty pluck and sheds sunshine in its trail.

Master Leon King has returned home from Buffalo. Miss Hattie Hunter has gone to Vroomanport for a few days. Mrs Dr King was obliged to return home after a three days visit in Buffalo, on account of illness.

We have some boys, or young men, as they would like to have people call them, that take a delight in breaking and destroying property. For an example of what they do we have only to look at the hotel building lately occupied by Mr Moore. But not being satisfied with breaking the windows of that place, they have broken a number of glass in the school. How, the only way to put a stop to this kind of work will be to bring them up before some magistrate and have them pay well for their fun.

Albert Madill is attending Balmam school. He intends trying the commercial examination next July. There is some talk of organizing a choir at Mt. Zion. The special meetings at Glen Major have closed.

Miss Holtby has been re-engaged for another year at Mt. Zion school. Evansville mills have closed down while undergoing repairs.
