She wore the groom's gift, a pearl drop necklace and earrings, and carried a cascade of white carnations and red roses.

The bride's sister, Miss Edith Nimigon, as matron of honor, wore a waltz-length blue crystallette with matching blue net trimming on the bodice. Bridesmaid Miss Winifred Schwartz, a cousin of the bride, wore a waltz-length dress of pink crystallette with matching net overskirt and softly pleated bodice. Both wore white flowered bandeaux.

T-V Not All Good - Not All Bad

Q. What general effect does viewing television have on a child? Is it good or bad? A. From one recent study it seems that viewing T-V is neither as bad as some say nor as "broadening" as others would have us believe. There was no evidence that viewing led to eye-strain, sleep disturbances, or lack of concentration in school. The investigators concluded that if television is a window on the world, it gives a view not so different from that provided by books, comics, films and radio programs. On the other hand, the ability of T-V to "broaden" a child's mind is not very different from that of any other form of mass media.

Q. I understand that some surgeons remove hemorrhoids in a way to prevent them from coming back. Would all surgeons guarantee the same results? - A reader. A. Certain general principles are followed by all surgeons in correcting hemorrhoids although there might be variations in the exact procedure used by individual surgeons. Those hemorrhoids removed will not come back but others can develop in the same area. There is never any absolute guarantee of complete success.

When the birth of the Queen's infant son was announced by the principal, Jacob Uitvulught, at Knox Junior School, Scugog Road, last week, the pupils had a celebration.

Mr. Uitvulught as soon as he received a telephone call on Friday morning at about 11 o'clock from his wife telling of the arrival of the new little Prince, gathered the teachers and students and told them the good news. "God Save the Queen" and "O Canada" were sung by all. Then the children, whose excitement and enthusiasm was great, spontaneously sang the traditional hymn used as a Baptism song in their church: "Our children, Lord, in faith and prayer we now devote to Thee. Let them Thy Covenant precious share, and Thy salvation see." The principal and teachers then distributed chocolate bars to the pupils as a treat in celebration of the great event.

Many types of cancer can be cured by radiation or surgery, or a combination of both. Regular medical check-ups on persons over 40 years of age may reveal cancers in a curable stage.

Cancer research is being carried out in 7 of the 10 Canadian provinces. Most of the money for its support is provided by the Canadian Cancer Society.

The Canadian Cancer Society was organized in 1938 at the request of the Canadian Medical Association. One of its main functions is to teach Canadians that early diagnosis of cancer depends on the early reporting of suspicious symptoms to a doctor. It also supports cancer research and gives assistance to cancer patients.

HAVE YOU HEARD THIS ONE?

The motorist was trying to make amends to the housewife for having just run over her cat: "I'm very sorry, lady, but I'd be willing to replace her."

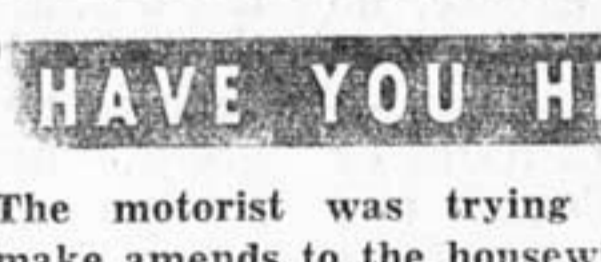

Irate Housewife: "Very well, then, get busy. There's a mouse in the kitchen."

Guess you'd call that exchange a game of cat and mouse. With that, I'll sink into the commercial. Speaking of replacing, it's a fact you wouldn't have to replace certain garments so often if they were given regular expert dry cleaning care. Why not start today to lengthen the life of your clothes? We promise to pamper them like a kitten.
