

REQUIRING COUNCIL.
The Council met as a Court of Revision, all the members (except Mr. J. H. ...)

THE FARM IN JULY.
Our hot sun and dry weather ripen grain and grass—of at least bring it forward so that it is ready for the scythe and the sickle, much earlier in the season than in the climate of Europe. July is really the first, and perhaps the most important harvest month. The great grass crop, with which the early and latter rains have blessed millions of acres, is to be cut, cured and harvested. Winter grain, over a great part of the country, is to be cut this month, and at the same time, when from any cause, short crops are anticipated or are to be provided against, it is now not too late to get in a crop of millet or of fodder corn.

THE DEATH OF AN OLD MAN.
The death of an old man, who had been a member of the Council for over forty years, was announced by Mr. J. H. ...

REVISOR'S COUNCIL.
