## ONTARIO'S CROPS.

The following is a summary of the report of the Bureau of Industries for August,—the progress of harvesting, state of the crops, and estimated yield being based upon information supplied by 576 correspondents of the Bureau of Industries on the 2nd inst., and the statistics of areas, number of live stock, etc., being compiled from the returns made by farmers on the 2nd of June.

The breadth of wheatland sown last fall was 962,753 acres, but the injury by winter exposure was so severe that 76,171 acres were either ploughed up or re-sown in the spring. The remaining 886,402 acres in crop have produced an estimated yield of 18,057,794 bushels. The straw was short, owing to a period of drought in June and July in the fall wheat districts of the Province; but the heads were well filled and the quality of the grain is reported excellent. The reaping season began about the middle of July and nearly the whole of the crop was safely housed by the end of the month. The great drought area of the Mississippi valley appears to have included Ontario also as far eastward as the meridian of Port Hope, and all spring crops have been affected to some extent. Of spring wheat, barley, oats, peas, hay and roots the reports say that growth was visibly arrested at one time, but a succession of showers in the second week of July saved them from serious harm. The cereals and pease are uniformly reported as short in straw and slightly thin on the ground over the whole dry area; but there was no appearance of rust and scarcely any of insect enemies, and the crops were maturing favorably. In the eastern portion of the Province, and especially in the St. Lawrence and Ottawa counties, the rainfall has been abundant and vegetation is luxuriant. Complaints are made of rust and mildew in localities, and the barley crop is likely to be discolored to some extent. The acreage and estimated produce of crops are presented in the following tables:

| | Acres. | Bush. | Per acre. |
|---|---|---|---|
| Fall wheat..... | 886,402 | 18,057,794 | 20.4 |
| Spring wheat.... | 577,465 | 9,527,783 | 16.5 |
| Barley..... | 735,478 | 19,665,830 | 26.9 |
| Oats..... | 1,621,901 | 54,231,517 | 33.9 |
| Rye..... | 67,779 | 1,146,371 | 16.9 |
| Pease..... | 703,936 | 16,452,255 | 23.4 |

Compared with the average of the past four years, the fall wheat this year is 120,000 acres and 3,219,224 bushels less; the spring wheat, 96,119 acres and 1,255,118 bushels less; the barley, 9,448 acres and 107,987 bushels more; the rye, 70,995 acres and 1,205,080 bushels less; and the pease, 123,798 acres and 4,107,816 bushels more.

The area in hay and clover is 2,291,151 acres and the yield 2,994,446 tons, being an average of 1.30 ton per acre. The average of the previous four years was 2,159,580 acres and 3,125,807 tons, or 1.45 tons per acre.

The area in beans is 21,072 acres, and the estimated yield 461,104 bushels. The area in corn is 156,494 acres, being 25,555 acres less than the average of four years, and the prospect of a good crop is not encouraging.

The numbers of farm live stock are: Horses, 569,649; cattle, 2,018,173; sheep, 1,610,949; hogs, 860,125, and poultry, 6,868,915. The number of sheep is 144,666 less than last year; in each of the other classes there is an increase. The wool clip is 5,347,867, being 690,480 less than the average of four years.

The average wages of farm hands for the Province is $158 with board and $251 without board, per year; and $17.06 with board and $26.64 without board per month of the seeding and harvesting season. These figures are slightly lower than last year's. The rate of wages of domestic servants is $1.52 per week; last year's rate was $1.51.

## The Conductor's Jaw Dropped.

One of those smart Alexanders who travel on cheek and the inability of the public to change $20 bills for a glass of soda or four tobies got on a Penn avenue car the other day and tendered the aforesaid $20 for his fare. Of course the conductor could not change it, and so he got his ride free. This was repeated until the conductor got tired of it, and after the fourth or fifth time of its repetition he determined to get even with the fellow. By visiting the toll houses, and by other means unknown, the manipulator of the bell-punch managed to scrape up $19.95 in pennies. Placing these in a little bucket he quietly awaited the appearance of his victim, having posted the driver and some other intimate friends who happened to be on board. When the unsuspecting young man with the plethoric pocketbook put in an appearance and promptly produced the "20" with many apologies, the conductor pocketed the bill and produced his little bucket, and amid the grins of the spectators presented it to his customer. The young man looked pretty cheap, and, after feeling the heft of the bucket, thoughtfully got off the car and disappeared around a corner. Then the conductor took the bill from his pocket and proceeded to fold it up nicely, so that it would fit into a convenient corner of his pocketbook. Something in the appearance of the bill caught his eye, and, as he examined it a little closer, his jaw dropped about a foot. The bill was of the genus denominated by the sporting fraternity as "queer." The young man had also been playing for the conductor.—Pittsburg Commercial Gazette.

## Gladstone's Manner to Chamberlain.

Members observed with much amazement the different reception which Mr. Gladstone gave to Lord Harrington and Mr. Chamberlain. The handshake with Lord Harrington was, if not cordial, at least friendly. It did not imply that between the two there was any element of deep personal bitterness. With Mr. Chamberlain the case was very different. Mr. Gladstone shook hands with him in the coldest, driest and stiffest manner possible. He did it, in fact, because he could not avoid doing it, but it was performed in such a way as to convey to all that saw it that the personal relations of the two men were very strained. —London World.

## Thread from Milk Weed.

America inquisitiveness and ingenuity united have produced thread made from the blossom of the common milk weed, which has the consistency and tenacity of imported flax or linen thread, and is produced at a much less cost. The fibre is long, easily carded, and may be readily adapted to spinning upon an ordinary flax spinner. It has the smoothness and lustre of silk, rendering it valuable for sewing machine use. The weed is common throughout this country, but grows profusely at the South. The material costs nothing for cultivation, and the gathering is as cheaply done as that of cotton.—Dry Goods Chronicle.

Up to date we believe six men have dared the terrific wrath of the Niagara rapids. Three have gone through safely in a barrel; one has come out alive after swimming the current and two who have tried to swim through have had the life beaten out of them by the enormous force of the waves. Niagara is still there ready to swallow up more victims and calling with its hoarse voice to others to come and achieve sufficient notoriety to qualify them as attractions for dime museums.

## A WOMAN'S SUFFERINGS AND GRATITUDE.

### A VOICE FROM AUSTRIA.

(1)

Near the village of Zillingdorf, in Lower Austria, lives Maria Haas, an intelligent and industrious woman, whose story of physical suffering and final relief, as related by herself, is of interest to English women. "I was employed," she says, "in the work of a large farmhouse. Overwork brought on sick headache, followed by a deathly fainting and sickness of the stomach, until I was unable to retain either food or drink. I was compelled to take to my bed for several weeks. Getting a little better from rest and quiet, I sought to do some work, but was soon taken with a pain in my side, which in a little while spread over my whole body, and throbbed in my every limb. This was followed by a cough and shortness of breath, until I finally could not sew, and I took to my bed for the second, and as I thought, for the last time. My friends told me that my time had nearly come, and that I could not live longer than when the trees put on their green once more. Then I happened to get one of the Seigel's pamphlets. I read it and my dear mother bought me a bottle of Seigel's Syrup, which it took exactly according to directions, and I had not taken the whole of it before I felt a great change for the better. My last illness began June 3rd, 1882, and continued to August 9th, when I began to take the Syrup. Very soon I could do a little light work. The cough left me, and I was no more troubled in breathing. Now I am perfectly cured. And oh, how happy I am! I cannot express my gratitude enough for Seigel's Syrup. Now I must tell you that the doctors in our district distributed handbills cautioning the people against the medicine, telling them it would do them no good, and many thereby were influenced to destroy the Seigel pamphlets; but now wherever one is to be found, it is kept like a relic. The few preserved are borrowed to read and I have lent mine for six miles around our district. People have come eighteen miles to get me to buy the medicine for them, knowing that it cured me, and to be sure to get the right kind. I know a woman who was looking like death, and who told them there was no help for her, that she had consulted several doctors, but none could help her. I told her of Seigel's Syrup, and wrote the name down for her that she might make no mistake. She took my advice and the Syrup, and now she is in perfect health, and the people around us are amazed. The medicine has made so much progress in our neighborhood that the people say they don't want the doctor any more, but they take the Syrup. Sufferers from gout who were confined to their beds and could hardly move a finger, have been cured by it. There is a girl in our district who caught cold by going through some water, and was in bed five years with costiveness and rheumatic pains, and had to have an attendant to watch by her. There was not a doctor in the surrounding districts to whom her mother had not applied to relieve her child, but every one crossed themselves and said they could not help her. Whenever the little bell rang which is rung in our place when somebody is dead, we thought surely it was for her, but Seigel's Syrup and Pills saved her life, and now she is as healthy as anybody, goes to church and can work even in the fields. Everybody was astonished when they saw her out, knowing how many years she had been in bed. To-day she adds gratitude to mine for God's mercies and Seigel's Syrup.

MARIA HAAS.

The people of England speak confirming the above.

### AFTER MANY YEARS.

"Whittle-le-Woods, near Chorley,
Dec. 26th, 1883.

Dear Sir,—Mother Seigel's medicine sells exceedingly well with us. All that try it speak highly in its favor. We had a case of a young lady that had been troubled many years with pains after eating. She tells us that the pains were entirely taken away after a few doses of your medicine.—

Yours truly. E. PEEL.

### AFTER SEVERAL YEARS.

Stoke Ferry, Jan. 9, 1884.

Gentlemen,—I have used Seigel's Syrup for several years, and found it a most efficacious remedy for liver complaints and general debility, and I always keep some by me, and cannot speak too highly in in its praise.—I remain, yours, thankfully.

Harriett King.

### AFTER 16 YEARS.

95, Newgate st., Worksop, Notts,
Dec. 26th, 1883.

Gentlemen:—It is with the greatest pleasure I accord my testimony as to the efficacy of Mother Seigel's Syrup. My wife, who has suffered from acute dyspepsia for over 16 years, is now perfectly better through the sole help of your syrup. I have spent pounds in medicines from doctors—in fact, I began to think she was incurable, until your marvelous medicine was tried.—I remain, yours, thankfully. A. Ford.

### THE EFFECTS HAVE BEEN WONDERFUL.

Ilford Road Dispenary, Dunkinfield,
May 3rd 1884.

Dear Sir,—I am happy to inform you that the sale of your Syrup and Pills increases here continually. Several of my customers speak of having derived more benefit from the use of these than from any other medicine. In some instances the effect has been wonderful.—Yours very respectfully.

Pro. Edwin Eastwood, J. B.

## The Angels Were Well Rid of Him.

The new lady had proved itself the possessor of extraordinary vocal powers and had exercised them much Johnny's annoyance.

One day he said to his mother:

"Ma, little brother came from Heaven, didn't he?"

"Yes, dear."

Johnny was silent for some time, and then he went on:

"Say, ma."

"I don't blame the angels for bouncing him, do you?"

## A Calgary Stage Robbery.

CALGARY, Aug. 23.—The Edmonton and Calgary stage, with two passengers, due here at 16 o'clock, was "held up" eighteen miles out by two masked men, who took $400 and the registered letters.

The Experience Meetings in LIPPINCOTT'S MAGAZINE have proved among the most popular of recent innovations in magazine literature. Few articles have been more widely read and more freely quoted than the literary confessions of Julian Hawthorne, Ella Wheeler Wilcox, Joel Chandler Harris, Edgar Fawcett, Joaquin Miller, etc., and the experiences of Mrs. James Brown Potter, John M. Ward, L. E. Myers, and other professional or amateur celebrities. Encouraged by this success, the editor has determined, by dropping the fiction of an Experience Meeting and placing the articles in the body of the periodical, to give each author the same privilege of elaborating at his pleasure, instead of confining himself within the limits of a special department. The experiences in the September number of the Magazine are furnished by Brander Matthews, in "Random Recollections" of his literary career, and by John Baumann in "Experience of a Cow Boy," both interesting bits of autobiography. It is announced that papers of a similar character have been secured from Walt Whitman, George Parsons Lathrop, "Lotta," Robert J. Burdett, Clara Barton, E. P. Roe, H. H. Boyesen, R. H. Stoddard, George Alfred Townsend, and many others. Taken by Siege,' the anonymous American serial, which has excited so much attention and curiosity, is concluded. 'A Bachelor's Blunder,' by W. E. Norris, is continued, and as charming as ever. J. S. of Dale has an exquisite story, entitled 'Our Consul at Carlsruhe.' Mrs. Bloomfield Moore, one of the most earnest backers of the Keely Motor Company, gives the reasons for the faith that is in her. W. H. Babcock, in 'Carols and Child-Lore at the Capital,' continues his studies in juvenile folk-lore. There are poems by Edgar Fawcett, Louise Chandler Moulton, and Clinton Scollard. In the Monthly Gossip, a Lady from Philadelphia' argues with a great deal of wit and cleverness that woman was created the superior of man.

The Novosti and Viedmosti, of St. Petersburg, agree that the state of anarchy existing in Bulgaria has rendered Russian intervention necessary; but the Viedmosti adds that it does not advocate the occupation of Bulgaria by Russia, as it is not worth the fresh bloodshed.

## NEWS ITEMS.

Mr. Gladstone started last week for a three weeks' vacation in Germany.

Gold is said to have been discovered at the Bruce mines.

Owing to illness, Rev. Henry Ward Beecher has had to cancel his English lecture engagements.

The cattle ranches in the Canadian North-West will have five thousand head of cattle for export this year and ten thousand next year.

The English corvette Diamond, in the name of the British Crown has taken possession of the Kermodec islands in the South Pacific ocean.

The chief of the Winnipeg fire brigade has been suspended pending an investigation of charges of using city employees and city funds for his own benefit.

A gang of tool thieves, who have been annoying Ottawa workmen for some time past, were arrested the other day. The tools recovered filled a wagon.

Ten cent pieces are at a premium in British Columbia. A young man who tried to buy some for speculative purposes Victoria way offered eight for a dollar.

The keeper of a convict camp near Lumpkin, Ga., says that among the eighty-six negro convicts thirty-five are preachers and all are members of the church.

The Bishop of Rupert's Land has been presented with nine quarter-sections along the line of the M. & N. W. Railway, to be applied in furtherance of the Church's work in the diocese.

One of the sights of British Columbia until recently, was a Chinman carrying Her Majesty's mail at the end of a long pole, the weight being balanced by a big stone tied to the other end.

A new synagogue, costing $60,000, will shortly be opened in Montreal by the English members of the Hebrew faith. The Portuguese congregation are also preparing plans for a new synagogue to cost $75,000.

The London St. Stephen's Review claims that Lord Londonderry has begun well, for one of his first orders was that fruit from the Viceregal gardens should be distributed through the Dublin hospitals, and not sold.

An example of what Manitoba can do in the way of root-growing way furnished by a farmer, who brought into Minnedosa a load of cabbage, turnips, beets, cucumbers, tomatoes, and four different varieties of potatoes.

The United States Secretary of the Treasury has decided that Canadian steamers can legally carry passengers from one United States port to another, on certain conditions, without payment of the charge of two dollars for every passenger.

Masked men entered the farm house of John Wright, a Barter settlement, N. B., presented revolvers at the heads of Mr. and Mrs. Wright, and compelled them to hand over them over the farmer's entire savings for years, more than $1000 in American and English gold.

As a result of Sir John Macdonald's visit to the North-west, The Manitoba, the Winnipeg organ of the Government, says that inside of six weeks permission will be given to hotel-keepers and others in the North-west Territories to sell beer and all kinds of light wines.

The average wages of farm hands for Ontario is $158 with board and $251 without board, per year; and $17.06 with board and $26.64 without board per month of the seeding and harvesting season. These figuresare slightly lower than last year's. The rate of wages of domestic servants is $1.52 per week; last year's rate was $1.51. —Bradstreet's.

THE SCOTT ACT IN MOUNT FOREST.—On Monday, says the Confederate, two constables, armed with a warrant for the arrest of John Campbell, who had been convicted for violating the Scott Act and fined $50 arrived in Mount Forest. They searched the house, but could not find their man. About noon they started to go away, when a number of the b'hoys followed them and commenced hooting, etc. Nothing serious however, occurred, and the men proceeded on their way.

Ignorance, violation of all sanitary principles, miserable poverty, the extreme rigor of winter, and neglect by drunken parents are said to be some of the principal reasons why out of 1,000 children born in Russia scarcely 423 will reach their 20th birthday. Statistics show that 345 out of each 1,000 die in the first five years. The Russian Government is seeking means to diminish this frightful infant mortality, but with little hope of speedy success, since the main causes can only be eradicated by the progressive education and reformation of successive generations of people.

An eminent physician says if persons would drink hot water instead of cold water in summer they would suffer less from thirst and from stomach disorders. In his practice he always orders hot water to be given to babies who are suffering from teething and the many attendant ills. It is really surprising to note how gladly the little sufferers will drink very hot water, and how great relief they seem to feel from its use. An ill child of 8 months, with no appetite, was given as much hot water as it could drink. The little creature would drink the water with avidity, and become quiet after the draught.

There are certain ponderous facts which are theoretically recognized, but not often fully incorporated with one's consciousness and made to tell upon conduct. The most sombre of these facts is death. With persons of due sensibility a more frequency of this event would help greatly to influence behavior and give right direction to life. The husband who occasionally brought forcibly to his imagination the possibility of a home no longer tenanted by a loving wife, would be able to repress fault-finding for trival affairs and be moved to bestow love whilst it is yet possible to do so. Children would, urged by this thought, give a caress to the mother who had done so much for them from infancy, and, perhaps, endeavor to relieve the burden so long borne by the faithful and uncomplaining one. Brothers and sisters under the spell of this consideration, would be affectionately minded one to the other. Friends would attach more weight to the sterling value of a relation that is akin to blood ties in its warmth of attachment. Death will happen to all.

There is a project on foot that would fairly revolutionize the passenger traffic between England and the America continent, and that is the construction of a tunnel between the North of Ireland and Scotland at the narrowest point of the Irish Channel. The greatest depth of water about midway between the two coasts is 730 feet, and the roof of the boring would have to be some 200 feet below that, while the deep sea portion of the undertaking would be 21½ miles. By competent authority the cost would be about £5,000,000 sterling, with the addition of another million for the land approaches on either side. The distance from Moville to London by the proposed new route—480 miles—will be just 20 miles less than in the present journey from London to Queenstou via Holyhead. The gain in time by the new route will be much greater, as 56 miles of existing Holyhead route is a sea voyage, whereas, with a tunnel, the American traveller and the mails with bags could be landed at Lough Foyle and reach London about eleven hours, afterward by an uninterrupted railway journey. Should this tunnel be built, and the Newfoundland line of railway opened, the traveller could reach London from New York, via Galway, in about five days, were a new road opened across Ireland from the port to Belfast.

### CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of consumption, bronchitis Catarrah, Asthma and allthroat and lung affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers, in thousands of cases has felt it his duty to make it known to his fellow sufferers. Actuated by this motive and desiring to relieve human sufferings, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 Powers Block, Rochester N. Y.

CAMPBELL'S CATHARTIC COMPOUND

is effective in small doses; acts without griping, does not occasion nausea, and will not create irritation and congestion as do many of the usual cathartics, administered in the form of Pills, &c.

Ladies and Children having the most sensitive stomachs take this medicine without trouble or complaint.

CAMPBELL'S CATHARTIC COMPOUND is especially adapted for the cure of

LIVER COMPLAINTS AND BILIOUS DISORDERS.
FOR ACID STOMACH AND LOSS OF APPETITE.
FOR SICK HEADACHE AND DYSPEPSIA.
FOR CONSTIPATION OR COSTIVENESS.
FOR ALL COMPLAINTS ARISING FROM A DISORDERED STATE OF THE STOMACH.

This medicine being in liquid form, the dose can be easily regulated to meet the requirements of different persons, thus making it equally well adapted to the use of the little child as to the adult. Put up in three ounce bottles, and sold by all dealers in family medicines.

*Price Retail, 25 Cents.*

PERRY DAVIS' PAIN-KILLER

IS RECOMMENDED BY

*Physicians, Ministers, Missionaries, Managers of Factories, Work-shops, Plantations, Nurses in Hospitals, —in short, everybody everywhere who has ever given it a trial.*

TAKEN INTERNALLY, MIXED WITH A WINE GLASS OF HOT MILK AND SUGAR, IT WILL BE FOUND A NEVER FAILING CURE FOR

SUDDEN COLDS, CHILLS, CONGESTION OR STOPPAGE OF CIRCULATION, CRAMPS, PAINS IN THE STOMACH, SUMMER AND BOWEL COMPLAINTS, SORE THROAT, &c.

APPLIED EXTERNALLY, EXPERIENCH HAS PROVEN IT THE MOST EFFECTIVE AND BEST LINIMENT ON EARTH IN REMOVING THE PAIN ARISING FROM SPRAINS, BRUISES, RHEUMATISM, NEURALGIA, SWELLED FACE, TOOTHACHE, BURNS, FROST BITES, &c., &c.

*25cts. per Bottle.*

Beware of Imitations.

CAMPBELL'S TONIC ELIXIR

This agreeable yet potent preparation is especially adapted for the relief and cure of that class of disorders attendant upon a low or reduced state of the system, and usually accompanied by Pallor, Weakness and Palpitation of the Heart. Prompt results will follow its use in cases of Sudden Exhaustion arising from Loss of Blood, Acute or Chronic Diseases, and in the weakness that invariably accompanies the recovery from Wasting Fevers. No remedy will give more speedy relief in Dyspepsia or Indigestion. For Impoverished Blood, Loss of Appetite, Despondency, and in all cases where an EFFECTIVE and CERTAIN STIMULANT is required, the ELIXIR will be found INVALUABLE.

Price $1 per Bottle or Six Bottles for $5

*Sold by all Dealers in Medicines.*

FIFTIETH YEAR OF THE GORE FIRE INS. Co.—We have much pleasure in calling attention to the advertisement of the Gore District Mutual Fire Insurance Company, whose head office is at Galt. This Company does business on both the Cash and Mutual plans, and has of late been so successful that its fiftieth or semi-centennial birthday finds it in the front rank of Canadian Insurance companies. The fact that on the 31st December last, the Company practically owed nothing except its Re-Insurance Reserve, and held Assets of Cash value of $216,896 available to meet losses, over $90,000 of which was in cash or its equivalent, proves it to be as strong financially, (when their relative business is compared) as the best Stock Companies, with every ability to deal promptly and liberally with sufferers by fire. The rates to those who prefer the Cash principle are liberal, and to Mutual Policy-holders they are about 20 per cent less than the customary stock rates. Mr. WILLIAM PANTON is agent for Milton and vicinity. 46-3m.

All the newest New York styles in stiff and soft felt hats just to hand. Finest assortment and lowest prices in the city. Treble's, corner King & James streets, Hamilton.

Scientific American Established 1846.

The most popular WEEKLY newspaper devoted to science, mechanics, engineering, discoveries, inventions and patents ever published. Every number illustrated with splendid engravings. This publication furnishes a most valuable encyclopedia of information which no person should be without. The popularity of the SCIENTIFIC AMERICAN is such that its circulation nearly equals that of all other papers of its class combined. Price, $3.20 a year. Discounts to Clubs. Sold by all Newsdealers. MUNN & CO., Publishers, No. 361 Broadway, N.Y.

PATENTS. Munn & Co. have also had Thirty-Seven Years' practice before the Patent Office, and have prepared more than One Hundred Thousand applications for patents in the United States and foreign countries. Caveats, Trade-Marks, Copyrights, Assignments, and all other papers for securing to inventors their rights in the United States, Canada, England, France, Germany and other foreign countries, prepared at short notice and on reasonable terms.

Information as to obtaining patents cheerfully given without charge. Hand-books of information sent free. Patents obtained through Munn & Co. are noticed in the Scientific American free. The advantage of such a notice is well understood by all persons who wish to dispose of their patents.

Address MUNN & CO., Office SCIENTIFIC AMERICAN, 361 Broadway, New York.

ADVERTISERS can learn the exact cost of any proposed line of advertising in American papers by addressing Geo. P. Rowell & Co., Newspaper Advertising Bureau, 10 Spruce St., New York. Send 40cts. for 100-Page Pamphlet.
