HARVEST EXCURSIONS to Manitoba via the Canadian Pacific Railway from Toronto to Winnipeg and return, $34; to Boissevain and return, $35. Tickets good going on Sept. 20th and 21st and available for return twenty days after date of issue. For tickets, full information and descriptive pamphlets apply to any agent of the company.

RUNAWAY.—On Tuesday evening last Mr. Ed. Bousfield was driving around town when his horse shied into the ditch opposite the roller rink, throwing him out and turning the buggy over. The horse ran down Mary Street and took again to Main Street, where it was caught. The buggy was pretty well shaken in the journey.

CHEAP EXCURSIONS.—On the 24th and 25th insts. the Canadian Pacific Railway will issue excursion tickets good to return up to Oct. 5th to Detroit, Chicago, Cincinnati, St. Louis, Saginaw, Bay City, Grand Rapids and Milwaukee at greatly reduced rates. The rates charged for tickets from Milton station will be as follows: Detroit, $4; Saginaw and Bay City, $7; Grand Rapids, $8; Cincinnati, Chicago and Milwaukee, $10; St. Louis, $15. Ask any station agent along the line for particulars.

THE BATTALION BAND.—The band trouble which has existed in Georgetown for some time past, we are glad to say, has been brought to an end by the two bands uniting, thus forming that of the 20th Battalion. Prof. Crawford, of Brampton, who is we believe an efficient leader, will have charge, and we hope to see the band prosper as it has in the past. The members of what has been lately called the town band have taken the necessary oath and are now *bona fide* members of the battalion band. We are glad the dispute has been brought to a satisfactory close and congratulate all parties concerned. —Herald.

TO THE WEST.—On the 24th and 25th inst. the Northern & North-Western Railway will issue excursion tickets, via Michigan Central, G. T. R. and C. P. railways from all stations between Georgetown and Hamilton, inclusive, at the following rates: Detroit and return, $3.50; Bay City and return, $6.50; Saginaw and return, $6.50; Grand Rapids and return, $7.50; Cincinnati and return, $9.50; Chicago and return, $9.50; Milwaukee and return, $9.50; St. Louis and return, $14.50. Tickets good to go by any regular train on above dates, and to return up to Tuesday, 5th October. Tickets and other information to be had at all N. & N. W. stations.

LIBERAL.—Milton Council, No. 61, Royal Templars of Temperance, according to the International Royal Templar, has contributed $1.35 towards a fund in aid of Police Magistrate Munroe, of Orangeville, whose premises suffered from dynamite, alleged to have been exploded by parties who did not admire his style of administering the Scott Act.

A DISREPUTABLE ORGIE.—This is the way Mr. Charles E. Tilley, of Georgetown, speaks of the late prohibition camp in a letter published in last week's Herald:—"We had an example of this temperance policy at the camp meeting held here a few days back—a more disreputable 'orgie' is seldom seen in the quiet villages of Canada. Not only was the moral law of God openly violated by buying and selling on the Sabbath, but the law of the land which is, in this case, in accord with the law of God, was broken by the very parties who are so very energetic to stop the sale of a glass of beer."

SCOTT ACT TRIALS.—At Georgetown on Friday last Police Magistrate Young held a *leree* for the benefit of offenders against the Scott Act. The adjourned case of Mrs. Sanderson, of the Thompson House, was heard, and one of the three delinquent witnesses turning up and swearing to having drank illicit liquor on the premises of the defendant, the latter was fined $100 and costs. The charge of perjury against Elias Clark, of the Exchange Hotel, Georgetown, being unsupported by evidence, and it appearing that "some one had blundered" in laying the information, was dismissed.

LACROSSE.—The Galt lacrosse club came to Milton on Saturday and played a match with the Olympics, which resulted in a draw in favor of the latter. There was only one goal scored and it was secured by the Olympics after five minutes' play, but after that though both teams worked like beavers until time was called neither could manage to get the rubber between their opponents' flags. The Galt boys were if anything heavier than the Olympics and played a fine game, but the Miltonians, though lacking the services of several of their best players, got the best of the match by their superior team play.

AMERICAN ENTERPISE.

No inventention of the nineteenth century has worked a greater revolution in household economy or confer red more of a benefit on humanity than the sewing machine.

The first productions were crude and uncouth in the extreme, and it was reserved for American skill and ingenuity to bring forth a machine of any practical value.

In order to appreciate the great advancement which has taken place it is only necessary to compare one of the machines built during the infancy of the invention with one of the latest improved "Light-Running New Home."

All the really good points contained in other machines have been utilized in its construction. Many new improvements and devices have also been added, the result of which is a machine as nearly perfect as it is possible to make one.

For simplicity, durability, ease of management and capacity for work, the "Light-Running New Home" has no rival and the happy possessor of one may rest assured that he or she has the very best the world affords. SEE ADVERTISEMENT ON ANOTHER PAGE OF THIS PAPER

FIFTIETH YEAR OF THE GORE FIRE INS. CO.—We have much pleasure in calling attention to the advertisement of the Gore District Mutual Fire Insurance Company, whose head office is at Galt. This Company does business on both the Cash and Mutual plans, and has of late been so successful that its fiftieth or semi-centennial birthday finds it in the front rank of Canadian insurance companies. The fact that on the 31st December last, the Company practically owed nothing except its Re-insurance Reserve, and held assets of the value of $278,898 available to meet losses, over $50,000 of which was in cash or its equivalent, proves it to be as strong financially, upon their relative business is compared, as the best Stock Companies, with every ability to deal promptly and liberally with sufferers by fire. The rates to those who prefer the Cash principle are fixed, and to Mutual Policy-holders they are about 20 per cent. less than the customary stock rate. An east-bound freight train on the Canadian Pacific railway was wrecked Friday night eighteen miles east of Ratportage by an immense rock which had fallen on the track. The the engineer and fireman were killed and a brakeman fatally injured.

The much talked of attempt to wreck a train with an Orange excursion on board July 18 on the Canada and Atlantic Railway from Kingston to Ottawa is easily explained. A supply train dropped some ties which the section men neglected to move.

It is believed that the Canadian Pacific railway will probably be able to secure transportation of the raw silk imported annually from Japan to the United States, an industry second only in extent to the tea trade, the freight paid amounting to about a quarter of a million dollars a year.

According to the Brampton Times the Conservatives of Peel made up a list of 240 appeals to strike off and add to the Ontario Voters' Lists for the Township of Caledon. A Conservative lawyer of Brampton, an elector of Peel, was the relator. After he had the summonses filled up and ready to serve he found that he was not an elector of Caledon and the discovery was made too late for the error to be rectified.

Detectives who have been inquiring into the alleged attempt to wreck a Canada Atlantic train with Orange excursionists returning from Kingston on July 12th last, have arrived at two conclusions. One is that a tie was thrown from a supply train to the side of the track for repairs, and striking on its end fell over unobserved upon the track. The second theory is that some berry picker spicked up a tie and rested it upon a rail as a seat, and stupidly left it there.

Captain Markham, R.N., who accompanied the steamer Albert on her voyage from Halifax as far as York Factory, has returned overland to Winnipeg. He speaks very positively of the practicability of navigating Hudson's Strait far at least four months in the year, and possibly for five, and declares that the ice, from its peculiar formation, offers no serious barrier to vessels built specially for navigating the strait. He also states that the country presents no apparent obstacles to railway construction.

A St. Catharines lady purchased from a farmer in the market a pail of butter alleged to contain four pounds. She took her purchase to an adjoining store, had it weighed, and discovered that she had only 3½ pounds. She returned to the farmer, and he gave her ten cents to cover the difference. This not being satisfactory she applied to the chief of police, and that official induced the farmer to disgorge eight cents more. This satisfied the woman, but the grocer on whose scales the butter was weighed now threatens to prosecute the chief for compounding a felony, while the woman alleges the chief was justified in the course he took, because she declined to prosecute.

The following notes of visits paid to the agricultural and other Canadian courts are interesting, as further evidence of the beneficial results arising from the display. Mr. ——, of Fulham, obtained information and publications regarding British Columbia. He purposes sailing for Canada next month to engage in commercial pursuits in the Pacific Province. Another visitor, Mr. ——, of Tottenham, has been largely engaged in farming in England, only, however, to find it result unprofitable. Already having a brother in Manitoba, who declares himself much pleased with his prospects. This gentleman leaves next month to spend the winter in the Province, gaining as much information and experience as possible preparatory to entering upon farming, principally stockraising, in the spring, with a large capital. Mr. ——, of Tavistock, Devon, a gentleman of means, is visiting Canada next month with the month with the object of securing a location, and returning to take out his family in the spring. Surgeon-General —— also called with his son. The latter is leaving for Ontario to learn farming there preparatory to settlement in the North-West. The Rev. Mr. ——, of Rugby, obtained information and publications for his parishioners. His son is about to leave for Canada. Mr. ——, of Acton, who has just completed a lease of 1,200 acres in England, the farming of which he found to be unprofitable, expressed himself much pleased with the samples of Canadian produce. He will probably leave for Canada in the spring with his family as well as relatives, who propose settling in the Dominion.—Canadian Gazette, London, Eng.

Taken all in all there never was such a novel and stylish lot of Shawls shown in Hamilton as are ours. We have a big lot of them, but we are already having quick sales. You can get a Beautiful Boating Wrap for $1.50; $1.75, a sold wool Honey Comb Shawl—no shreds and patches, but a solid, durable shawl, in Blue, Pink, Apricot, etc., tints, stripes and checks. Other Shawls follow, running as high as $8.75. They are beauties.

We are well satisfied with these first cases of Paris Dress Stuffs. It is always a great thing to feel well satisfied with anything you buy. You have more pleasure and confidence in recommending the same to customers. We certainly recommend these Dress Goods. We have marked the price very, very low. It is the first lot you see. The next lot may be higher after awhile.

It is always an advantage to buy German-made Shawls. There is a tint to the colorings that you can't get elsewhere. Not only that, but the colors do not fade. You can wash when soiled and they come out bright as new. Ours are all German made. Prices as above. We will not urge to purchase one, but if you require such a thing we advise—merely advise, remember—you to buy one.
