

RE-ELECT: BRAD STEVENSON TOWN OF KINGSVILLE COUNCILLOR

Community Service is very important to me:

- 7 years Deputy Mayor and Councillor for Gosfield North Township
- Assisted on the Amalgamation Committee
- Director for the Gosfield North Communications Co-operative Ltd.
- Involved with Agricultural Organizations and 4H

Family, Faith and Friends sum up the Focus of my life!

- Linda and I are celebrating our 39th year of marriage
- Daughter Marlee and husband Dave Page, Kodi and Kyrn live on the family farm
- Son Scott and wife Melissa, Braedyn and Brogan live in Kissimmee, Florida
- Member of Banwell Community Church

My Political platform is myself....what life experiences and common sense can bring to each issue to meet the needs of each individual in our community.

During this past term in office, I worked with the Council to address many infrastructure issues: roads, sewer separation, Ruthven Sewer Project and the upcoming Cottam Lagoon improvements.

After graduating from Ridgetown Agricultural College, I returned to the family farm where I'm still farming. I'm employed by Agricorp as a Crop Insurance Adjuster.

With the Harvest Season, I'll not be taking your busy time by knocking on your door....but my phone: 519-839-4236, my fax: 519-839-5956 and my e-mail: elmwood@wincom.net are always open to your concerns.

I work for YOU!

**Call me....
Your place or mine for a coffee!**

ATV club seeks partnership with police

BY DANIEL SCHWAB

AMHERSTBURG – The Essex County All-Terrain Vehicle Club is working to develop a partnership with the Amherstburg Police Service and help in future search and rescue missions.

Under the guidance of the Ontario ATV Search and Rescue Federation, the club held an educational session at Fox Glen Golf Course and participated in training sce-

narios at a nearby 50-acre forest Sept. 30.

The training helped bring the club closer to becoming an aid to Amherstburg police in the event of a search for missing persons, said club treasurer, Chris Beane.

The club began as a recreational group two years ago, Beane said. A few months ago they contacted the Ontario ATV Search and Rescue Federation, with the idea of becoming the second

club in Ontario to be involved in police-guided search and rescue efforts.

Beane is currently the only person in the 32-member club to be fully trained in search and rescue tactics. He said the club has plans to extend its work with the Ontario federation to provide navigation and tracking training, and first aid and CPR training with St. John's Ambulance.
