

WOODSLEE

On March 9 the monthly potluck, hosted by the Woodslee Friendship Club at The Millen Centre, was very alive with the Irish. The room was definitely a hit with our many Irish decorations. Vera McMurren was the lucky winner of the door prizes. Our very talented Diana Dennis led us in a lively Irish sing-song after a delicious meal. Our monthly cake, baked by Barb Stanley, was as usual a big success. She decorates each month according to a theme and it tastes as good as it looks. Bill Roubos and Ernie Dennis finished the sing-song with Danny Boy and we then started to play Pepper and euchre. Next month our Easter theme will take precedence and the ladies must decorate and wear their rendition of an Easter bonnet. The men have to (yes, have to) decorate a tie. We just want to have fun and maybe we can get the mayor to come out and judge our accomplishments. The date for this will be April 13 at The Millen Centre. Join in the good old fashioned fun and fellowship. We are striving to reach out and bring in more people to help keep our Millen Centre open. Please join us.

The Woodslee Friendship Club sends their deepest sympathy to Helene Manley on the passing to her beloved husband John. Our thoughts and prayers are with Helene at this difficult time. On March 5 card party winners are George Diesbourg high score and Bill Roubos most lone hands. For the ladies high score Donna Roubos and most lone hands was won by Joanne McMurren. Join us any Monday at The Millen Centre at 1 p.m.

NOTICE OF APPLICATION AND WRITTEN HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE AND NOTICE OF COMBINED PROCEEDING AND HEARING RELATING TO SMART METERS

Hydro One Networks Inc.

Hydro One Networks Inc. ("Hydro One") has filed an application with the Ontario Energy Board (the "Board"), received on February 19, 2007, under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Schedule B). The Board determined the file to be complete on February 21, 2007 and has assigned the application File No. EB-2007-0542. This Notice contains important information about participation in the hearing associated with the applicant's rate change application ("rate proceeding") and about participation in a combined proceeding relating to rate adjustments for smart meters ("smart meter combined proceeding").

Hydro One has applied to the Board to change its distribution rates. The application has been filed on the basis of the guidelines set out in the December 20, 2006 "Report of The Board on Cost of Capital and 2nd Generation Incentive Regulation for Ontario's Electricity Distributors," available from the Board as described under "Need More Information?" below.

The standard electricity bill for residential and small general service customers has four line items: Electricity, Delivery, Regulatory and Debt Retirement Charge. The rate change application affects only the Delivery line of that bill. If approved:

- A residential customer consuming 1,000 kWh per month would experience a decrease of approximately 0.2 percent on the total electricity bill.
- A General Service customer consuming 2,000 kWh per month and having a monthly demand of 50kW or lower would see a total bill decrease of approximately 0.1 percent.
- For customers of the distribution utilities that were acquired by Hydro One in 2000 and 2001, the bill change for the average residential customer is a decrease of 0.2 percent. There is no change in the total electricity bill for an average General Service customer with a monthly demand of 50kW or lower using 2000 kWh per month.

For bill impacts in your specific service territory you may contact Hydro One directly.

Hydro One has also applied for an extension to its interim Time-of-Use rate currently due to expire September 30, 2007 and has also requested the creation of a variance account to track permit fees assessed by municipalities.

Hydro One has also applied for a specific rate adjustment related to smart meters. This adjustment is referred to as a "smart meter adder", and represents temporary advance funding to facilitate the acquisition and installation of smart meters through the 2007 rate year. As a result of the smart meter rate adjustment, **the percentage adjustment in electricity bills referred to above will change.** The prudence of the amount requested by Hydro One for its smart meter adder will not be examined as part of the rates proceeding. It will be dealt with in a separate process at a later date.

As a starting point to that future process, certain general principles will be the subject of a combined proceeding for which a hearing will be held after May 1, 2007. The combined proceeding will involve a number of electricity distributors, and may include or consider Hydro One's smart meter adder. Further information about the treatment of smart meter adders and the nature and scope of the combined proceeding may be found in the January 29, 2007 "Report of the Board on 2nd Generation Incentive Regulation for Ontario's Electricity Distributors: Addendum for Smart Metering Rates", available from the Board as described under "Need More Information?" below.
