FOOT (fut), sb Pl. feet (fit). The lower part of the leg beyond the ankle-joint. Viewed as the organ of locomotion. Hence, a person as walking. The part of a boot or stocking that covers the wearer's foot. A lineage measure, originally based on the length of a man's foot. (The English foot consists of twelve inches). The lower part on which an object rests; the base. The extremity of the leg. Step or manner of movement: a light foot. On foot. Walking or standing. To go afoot; walk; to dance. To move on or through by foot. Standing ground: Footing. No matter how you define it, shoes have to fit your feet comfortably. At LANCE SHOES we offer you high fashion, at a price to fit your budget, and always with your comfort in mind.
