

The Liberalist Rome have un-
usually adopted black cravats with a
white border as a sign of mourning for
Count Caroux.

Acrostic Goss. are now made
which carry projectiles of one hundred and
twenty-six pounds weight. Even a tea
table is not proof against the power
of this ball.

We have heard that three
ships in which fever had broken out, were
ordered by the proper authorities, to Que-
bec, to be removed to Quarantine.

There are 12,500 square miles of
a bog in Ireland, or nearly a third of the
whole island, a great part of which might
be reclaimed.

The Trieste Gazette, of the 5th
states that Kossuth is about to take up his
permanent residence in Lombardy. He
has already hired a villa on the banks of
the Lake of Como.

PROVOCATION OF PARLIAMENT.—An
Extra of the Canada Gazette, issued on
Monday, contains a proclamation protru-
gling the Provincial Parliament, pro forma,
to the 23rd of August.

The state of Kentucky maintains a
"neutral" position, still she entertains the
rebel cause effectively by sending arms
and immense quantities of other neces-
saries South, very much wanted there at
this time.

PROBABLY LOSS OF MISSIONARIES.—
We learn with much pain that the ship
"Edwin Forrest," in which several mis-
sionaries of the Southern Baptist Board
sailed for Cuba, has been so long unhear-
ed from, that scarcely a doubt remains, that
it is lost.

A Republican editor says he is
"down on the idea of a fixed and unal-
terable line of policy in anything—no
take things as they come—no line of any
kind leads us." A contemporary offers to
bet a shilling that either one leads him
where it listeth.

A correspondent says:—"I think
the Crown Lands Department are mistake-
ing in giving away lands which are ac-
cessible by good roads constructed at the pub-
lic expense, and in demanding payment
for the lands situated in remote and al-
most unapproachable localities. The new
Townships on the Addington Road are
so broken, as almost to forbid settlement."

ACCIDENT AT THE NOMINATION.—We
are sorry to state that, while one of the
Candidates was addressing the meeting, at
its nomination, the platform gave way,
causing a man underneath, breaking his
back and placing his life in danger.—
There were not very many on the plat-
form, so that it must have been very im-
properly constructed. The man has
since died.—Age.

A remarkable ceremony was per-
formed at the Finchley Parish Cemetery,
(Eng.) on the 14th. The body of Robert
Goring, who "miffily feloniously, and
with malice aforethought," destroyed
himself on Primrose Hill, was interred
there. He was buried by torchlight, be-
tween 9 and 12 o'clock at night, and no
kind of service was said over him. It ap-
pears that this is the case of persons against
whom a jury have returned a verdict of
fio des.

EDUCATIONAL FUND OF ENGLAND.—
The whole amount of the vote for public
education in Great Britain, for the year
1858, was, in round numbers, £263,000;
of which sum £167,000 was expended for
building and furnishing schools; \$400,000
in paying various classes of school-
masters; and £67,000 in defraying the
expenses connected with the management
of the school.

Probably the best office in the
United States about this time, is that of
Auditor Dubois, of Illinois. Presuming
that all the banks in the State are wound
up by the process of delivering bonds to
the holders of the notes, he will be entitled
to not less than £20,000 in fees. If the
same banks are wound up by public sale
of the bonds in New York, he will be
entitled to not less than \$120,000.—
Chicago Tribune.

Was it the RIGHT END.—An old
gentleman, who was never accused of be-
ing a whorl, went out with his gun one
day to shoot partridges, accompanied by
his son. Before they approached the
ground where they expected to find the
game, the gun was charged with a se-
vere load, and when at last the old gen-
tleman discovered on the ground, he
look a rest and blazed away, expecting to
see him fall; but not so did it
happen, for the gun recoiled with so
much force as to "kick" him over. The
old man got up, and while rubbing the
marks out of his eyes, inquired of his
son, "Alphy, did I point the right end of
the gun at the birds?"

THE EFFECT.—Speaking of the return
of Messrs. Bond and Carter for Montreal
the *Witness* of that city says that there
is no question that that result will be
generally regarded as an indication by Mon-
treal of the extravagant expenditures, an
authorized loan, payments of money, and
other authority of Parliament, and general
liberty and corruption of the last few
years; and that it will be regarded as an
authorization, so far as it goes, to drive
the country post-haste to ruin for four
years longer.

THE PROVINCIAL PARLIAMENT.—In
an extra of the *Canada Gazette*, of Mon-
day last, received yesterday, we find a
Proclamation for proroguing Parliamen-
to the 23rd of August, when it is
announced to meet at Quebec, but not for
the despatch of business. It is rumored
that a Special Session will be held in the
month of October—its object being legis-
lation, in connection with the affairs of
the Grand Trunk Company, and of the
Bank of Upper Canada.—Montreal Herald.

STORM IN PRINCE EDWARD.—On
Tuesday evening last, 16th inst., a very
destructive high storm passed over the
township of Hillier, and visited the vil-
lage of Wellington, effecting much dam-
age to property. The crops along the
Lake shore, from Concession to Wellington,
were almost totally destroyed, and such
was the injury to the windows in Wel-
lington, that some of the citizens of that
place visited Brighton yesterday, procur-
ing a supply of glass to repair the dam-
age.—Brighton Post.

A CURIOUS BET.—Mr. T. Barry a
week in Mr. Patterson's store, in Lower
Town, Quebec, Mr. P. Lynch a member
of one of the Government Offices, had
a bet on the election for Montreal East,
according to the conditions of which the
loser, forfeited, was to wheel the winner
to a wheelbarrow up Mountain Hill. The
day having lost, paid the penalty
upon Mr. Barry, by putting the other into a
wheelbarrow, and, stockinged,
leading him from the Chronicle office to
the place d'Arques. Quite a crowd as-
sembled to see the event.

The American Government being
alarmed at the precautionary mea-
sures Lord Palmerston and his colleagues
deemed it advisable to take for the pro-
tection of our frontiers. Fort Montgom-
ery at Rouses Point, which commands
the Richelieu River, is to be placed on a
war footing at once, and active prepara-
tions to that effect are now in progress.—
Gazette.

A Child Nearly Dead.
Cherry Creek, Simcoe Co., C. W.
Messrs B. L. Jervis & Co.
Sias—My child has
been very bad with worms for a long time I
tried all worm medicine, they resulted nothing.
Your agent W. B. Bain at this place recom-
mended your Mountain Herb Worm Tea, I
had given up my child as incurable but con-
cluded to try a package. Before it was half
finished it brought away worms from a 4
to 6 inches long most all of which were knotted
into little balls. I may say I passed nearly a
plot. I take pleasure in recommending Judson's
Mountain Herb Tea, to all parents who have
children suffering with this complaint in pre-
ference to any other worm medicine.

Respectfully Yours,
(Signed)
ROBERT HEPENSTALL.

Extraordinary Works of Judson's
Mountain Herb Worm Tea.
Church Hill, Simcoe Co., C. W.
Messrs B. L. Jervis & Co.

DEAR SIR:—I take great
pleasure in giving my testimony in favor of
Judson's Mountain Herb Worm Tea. I
had a child six years of age who had been trou-
bled for a long time with worms. I tried several
different kinds of medicine, but they did not
do any good. Mr. W. Bain, your agent at
Cherry Creek, recommended your Worm Tea,
which I am happy to say that after giving it
according to directions it greatly exceeded my
expectations. He only took half of the package,
and he is now healthy and growing more robust
than ever before. I gave the remainder of the
package to a neighbor, who enjoys me in giving
great praise to your Worm Tea in relation to
the health of his children. We consider it the best
remedy before the public for the cure of worms.

Years respectfully,
(Signed)
M. J. MALTDY,
JAMES KIRKUP.
