REV. JOSEPH BELCHER, D. D. The Life of Jesus Christ is the philosophy of true religion. It exhicits the Principles of Christianity in their purity and beauty. It is perfect excellence persoulfied, the the mind of man may grasp it, and be changed into the same image. The inspired, writers have given it to us in de-tatched descriptions. Dr. Fleetwood has arranged those in one harmonious whole with such comments, explanations and in cidental information as to render it alike acceptable to the scholar, as to "him who knows no more, but knows his Sible true." Beleher's revised edition contrins the Lives of the Arostles, History of the Jens, and an Essay in the Evidences of the Bible.
