OF THE PARTIES OF THE

"But," says more than one, "we can't afford it this year; times are hard, and your cultivated varieties cost money."kinds will cost but a few cents-not more | Admitted by all who have used them to be than one or two cents each—and, thanks to the last Congress, the postage is now so low on plants and seeds, that those ingelsewhere. who can not obtain strawberry plants nearer home, can order them from the other side of the Continent. If well put up in offed eifk, or in light wooden or tin Fowler and Wells' Journals! Only \$1:50 Per Annum, in adcases, strawberries may go from here to Oregon in the mail bags, (for two cents per ounce, or 1 cent if under 1,500 miles), and if sent in the cool month of Septem- Teachers, and others are requested to act ber, they will generally go safely. If sub jot to much heat on the passage, they The Illustrated American metimes fait, but the chances are so

greatly in favor of their success that it is worth the experiment. Crder them only of reliable persons, who will take proper WATER-CURE JOURNAL care in putting them up well. Dealers will generally pack two dozen plants of any such good kinds as are now abundant, lumes with July, and have been enlarged and send them post-paid anywhere for a giving now in each 24 pages monthly, indollar, or even less if under 1,500 miles, stead of 16. and these will multiply to hundreds the next year. It is now nearly time to look out for a

supply of plants. When not to be carried far, it will do to put out plants any copies, will be entaled to an extra copy established. The sooner they can be got postage. Specimens sent free. to growing this year, the larger and better will be the supply of fruit next season. We have obtained fruit the following season from plants set as late as November, but so late planting is not advisa-

fruit, it is, as a rule, better to put out profitable, by addressing strawberry plants in hills, 15 to 20 inches apart, and pinch off the runners, If multiplication be desired, let the runners be; set, but take up the plants as fast as well rooted, and put them out in hills. They can then be kept heed almost as easily as l corn, and they will produce better fruit and more of it than if allowed to run in a Stove, Copper, tangled mass or thick mat.

Soil and Manure,-Strawberries will grew on any soil; but like every other plant, they will pay for manure, and flourish best in a moderately good loam. Ou en it up with rotten manure, and a large supply of black earth (leaf mold) from the . woods, or of decayed chips from the wood cutting deep paths between the beds or assortment of rows, with an outlet to carry off surplus water. A supply of water below 18 inch-

But too many specifications will intimidate the inexperienced reader, and though tured to order on the shortest notice and on the for extra crops of extra berries, a deep, with a very trifling outlay of time and Stock before selecting elsewhere. trouble, every garden may be supplied with Lead, Rage, Sheepskins, Furs ofevery des.
