The Workman of the Bile!

For the Newmarket Era. East of Syine, and the ancient quarries of Egypt. Many statues are left unfinished a them. The impression on the traveller thousand years bave passed since the task was left-never to be respined.

The stranger looks upon thy work Olisculptor of the Nile; Thy chiest lies beside the stone,-Come back resume thy toil. Not one from out the Lybian sands, Nor of thy king's allies, [

That in the quarry lies. But one from a far notthern land, Won by thy fame stands here ; Come toiler let thy skill be known, It will thy bosom cheer.

Now gazes on the soulpinrol sione

He hath looked on the pillars fair That fill and strew the land; And now amidst Egyptian rocks Would mark thy skillful hand.

Dost thou not fear his power When he shall claim this sculptured stone To grace his glory's hour? Come back ! the stranger waits for thee

Beneath the cloudless sky;

Thy king bath set to thee thy task :

He cannot deem two thousand years, Have solled their sicles by. Since by this stone thy chisel fell, And why ? oh! who may tell, Or search thy fate beneath the pall,

That o'er thy country fell. But sleeping, thou dost not behold Thy country's sorrowing tears; Beneath the sterd oppressor's rulo-While years roll on to years.

Go, stranger, to thy ilosthein shore, In fear, tell Egypt's shame; Lest o'er thy country's glory fall, The manile of her blame.

As kingdoms, look upon her woe, Be warned fest deeper night, Fall on all glory; leaving gloom For unregarded light.

DECEIVED!

Thirty-five years ago there was not a more prosperous treding house in London than the firm of White, Munsons & Co. They were engaged in the Calcutta trade. and numbering their patrons mostly among the thriving merchants in the large towns neighboring the city. At the age BY DR. E. C. EDMONDS, of eighteen I entered their office as clerk, and having served in this capacity for a trustworthy, I was comotimes despatched thence to those customers whose accounts in the columns of the impartial ledger Bacwssville -2-th and 20th of each mouth. sppeared to demand a more equitable bal-

ance; and in this manner large sums of money often passed under my care. Among those employed with myself when remaining in the counting room was a young man named George Thurlow; as handsome, gay and sprightly a youth as one would chance to meet with His easy, general disposition may have cometimes occasioned slight departures from the strict line of rectitude, and such, perhaps, were the misdeeds which gave rise to the confidential whispers that, m his absence, frequently passed from our to ear. Then, however, believing them N returning thanks for the liberal encourage. | the evil bruitings of an envious spirit, ment hereto'ore received, begs to intimate they were totally disregarded by me, and my esteem for him continued unchang-

From a companionship in the routine of business-life there finally sprang up between us a still more friendly intercourse, and at times I accompanied him to places of diversion, the athenteum, the play house, or again at his lodgings spent the Ceetings hours of an evening.

Late one winter's night we were returning from an evening's culortainment, and passing a retired part of the city found ourselves near the gilded portels of one of those represches of civilization. the garnished palaces of gamblers. My confidence in the integrity of my triend was somewhat dampened when he pro posed to enter. At first declining, I finally consented, though yielding but seemingly to his carnest solicitations. As wo sauntered along the brilliant hall, or remained hore and there to see the varied turns of chance, I failed not to observe tf-18 the evident intimacy existing between my companion and the numerous "professionists" of the place. The ice of formality being thus broken, he no longer; scrupled to express a preference for these pastimes; and here, afterwards, night af-

on his downward course. All this but served to give a true inof all descriptions - and furcish materials, or sight to his private life, but I resolved, pursuits proved unavailing, to pursue my own counsels and let matters progress as they might. Soon after, I was required to proceed northward on a collecting tour, and as the

era deemed it advisable to send pnother porcon with me, and their unadvised dibitable practices in private. The stay in September, at Bouldhead the first Toesday in October, at Brownsville the first Toesday in November, and at Storff Toesday in December, and at Storff Store of the first Toesday in December, and at Storff Store of the first Toesday in December, and at Storff Store of the first Toesday in December, and at Storff Store of the first Toesday in December, and at Storff Store of the first Toesday in December, and at Storff Store of the first Toesday in December, and at Storff Store of the first Toesday in December, 1861, and provided with such a small arms as the sending but the mariner, many in provided with such and open the first Toesday in December, 1861, and open the such and open the first Toesday in December, 1861, will not head for the mariner, many in provided with such and open the such from Washington, ahows that no such found guilty of the treason for which they not told of his real character before gleasure is heard; but the mariner, many in provided with such and open the such from Washington, ahows that no such found guilty of the treason for which they not told of his real character, many in provided with such are such from Washington, ahows that no such found guilty of the treason for which they not told of his real character, many in provided with such are such from Washington, and which they may not told of his real character, many in the such are such from Washington, and where the found guilty of the treason for which they may not told of his real character, many in the such are such from Washington, and where the found guilty of the treason for which they may not told of his real character, many in the such from Washington, and the many of the from Washington, and the many o

Col. Lytle led several Companies of such The plan too often followed, of allowing to charge the battery, when he was brought these animals to shift for themselves down by a shot in the leg. Col. Smith's mostly, and barely exist until the time 13th Ohio engaged the enemy on the left, comes for putting them up to feed for and Col. Lowe's 12th Ohio, directly in killing, is not the most economical. A front. Col. Lowe fell dead at the head

wild, uneasy, and votacious. It will re- by a ball in the forehead. McMullen's. quire several weeks of heavy feeding to howitzer battery and Snyder's two fieldbring him up to the point where fattening pieces meantime were got into the best. should commence, and even then be can position possible under the circumstances and not attain the proportion which more like and soon silenced two of the Confederate ral treatment would have given. One of the most successful pork raisers in the but grew more furious as night approachcountry sald :- "I begin to fatten my ed, when the German Brigade was led. hoge-from the time they are old enough gallantly into the action by Col. McCook to squeal, and I keep them so busy eating under the direction of Adjutant General they have no time for squealing." . Some Hartsuff, but after a furious fight of three persons have the notion that the accumu- hours, ordered the recall of the troops and lation of fat in a pig interferes with his the mon lay on their arms within a short growth, and therefore he should have distance of the enemy, each ready to rea rather spare diet on the first six months, ! in order to attain large size. But fattening is only the storing away of the digestfood. The wants of the growing bones, muscles, etc., are first supplied, first occupied the position. The turbuand any surplus is deposited in the form lence and depth of the river and the ex-

growth of other parts will suffer while fat to follow him. He left his camp equipis accumulating. The most common error in fattening swine is delaying it until late in the sea-The food taken into the system is required not only to build up the tissues, but to furnish unional hoat. In warm weather but little fuel or food is needed b for this purpose, and fat accumulates readily; almost the whole food caten, will. be exhausted in keeping the animal warm, Hence the policy of commencing to fat ten early. One bushel of corn fed this month will give better returns than two expended in the depth of winter. It is advisable to keep over a stock of old corn to feed with until the harvest commences

and a supply can be taken from the field Every animal relishes a variety of food and fattening swine will turn with cazerness from their accustomed feed of corn to munch pea vines or green corn stalks. Their appetites will be kept up by grati fying this natural desire. Ground feed of tye and oats, or oats and peas to tak the place of corn occasionally, will be bene ficial; and there should be a liberal lowance of green food, with all the dairs wash that can be spared. Clear water is also essential, and should always be supplied to the pena

Do not allow the sties to become fifthy swide are naturally eleanly in their habits and by furnishing thou with pleaty of lit. I thread and very heavy, weighing threa ter, a valuable addition will be made to the mandro kéap.

CANADIAN COTTON.—The Picton Gaette says: We have just been shown a bale of Canadian Cotton at the store of Mr. T. Bog, of this place, manufactured at the Trent Valley Mills, Hastings; C. W., better known as Crook's rapids, on the Trent River. We believe this is the first cotton manufactured in Canada, and almost in our own vicinity. We understand the mills have been erected sinco. last Fall, and have only been in operation some three or four weeks. The sample: shown as is made of good material, round yards to the pound, 33 inches wide, suita-, ole for heavy work and farmers' uso. We congratulate "our country," (themotto of the mill,) on the production of so excellent a staple. We hope our morchants will encourage home manufacture,
