VOLUME 8 NUMBER 1 (356)

NIPIGON, ONTARIO

WEDNESDAY, JANUARY 12, 1972

THE YEAR OF THE ATOM: apt description of Ontario Hydro's 1971 activities. At Pickering nuclear power station east of Toronto, initial fuel loading was done by hand (top centre). Two of its four 540,000-kilowatt units are now operating — Unit one went on line in April and Unit two in October, making this the world's second largest single source of nuclear power. In mid-summer, foundation work started on 3,200,000-kilowatt Bruce nuclear power station, (centre left), part of the billion-dollar Bruce Nuclear Power Development on Lake Huron.

A new expansion on the Montreal River increased provincial

capacity. Lower Notch generating station (bottom) in northern Ontario is Hydro's latest and perhaps last hydro-electric source.

Power from the first unit at fossil-fueled Nanticoke generating station (right) on Lake Erie began to flow as the year closed.

Transmission line research is under way using an impulse generator (top left) which produces power surges of up to 2,800,000 volts — the voltage of lightning. Insulation strengths of various components are studied in the outdoor laboratory setting at Kleinburg, north-west of Toronto.

NO EXTENSION ON LICENCE PLATES

TORONTO— Approximately two million Ontario car owners have still to purchase their 1972 licence plates with less than two months to go before the February 29 deadline.

At the end of December only 11.5 per cent of the estimated total of 2,235,039 car licences had been issued in the first month of sale, the office of the Registrar of the Motor Vehicles Division, Department of Transportation and Communications, reported today.

There will be no extension of the February 29 deadline, he emphasized.

"Owners are advised to get their plates as early as possible to avoid the usual last-minute surge of sales with their time-consuming line-ups," said a department official.

DORION CENTRE MEETING

At the first meeting, which was appointed half annual for the year of '72, Glen Kinloch is to get in touch with the dealer to fix the cost banner each, the seller, that controls the banner sign, bullet tops to be replaced by screen ones plus a stopper for same. After a lengthy discussion it was agreed to rent the tables at \$2.00 for the first one and \$2.00 for each additional

table thereafter. Under the incentive program the following were suggested — the kitchen floor — stage re-constructed — stage curtains fixed — build a front porch type entrance. Total revenue for the month of 1971 was \$475.16 with \$250.00 of that total coming from the Centre Fund Raising Comm. Teachers for 1971, was \$370.75.

SNOWMOBILE CLUB NEWS

The Children's Christmas Party on Dec. 17th was very successful and Santa Claus provided candy and presents for all present. Races were held in Geraldton on Dec. 19th, and lots of racers from Nipigon were present to make their first Racing Rally of the year a success.

Results were as follows: 310 cc Art Jalkanen, J. Sugar Supawana, Andre Fortier, 399 cc Pierre L'Heuette, Art Jalkanen, J. David Trennan, 440 cc Mike Ranger, Art Jalkanen Jr, Powder Puff Ava Walter, Brenda Stewart, Rose Anne Fortier.

It is obvious by these racing results that the N.I.S. Club has some very outstanding racers in all classes and that with our participation the club builds a good name for itself.

There will be a dance at the New Nipigon Hall, Sat. Jan. 15 with the "Canals" providing musical entertainment.

On Sunday, January 16th, our club will be host to races at 2:00 p.m.

The track location is known as 'Boyle's Farm' on the Cameron Falls Rd. Spectators most welcome. Also Bar racers more than welcome.

Some members of the club have volunteered their services for flagman, first aid, track foreman and registration. Without their services, races could not be held.

ATTENTION DRIVERS: There will be a Drivers meeting approx. 15-30 min. prior to the 15th race. Rules and regulations specified in the Ont. Racing Confederation Rulebook will be adhered to. The decision of the track foreman will be FINAL! Engine size will be checked and flaps at the rear of the track are mandatory.

Volunteer your services as a club member at the track site if help is required, when lots of helpers are there, each person's job will run a little bit smoother and a more successful rally will be held.
