" + AMILTON SPTECTAOR." PC_ITICAL, Commercial, and General A Newspaper, is published at Hamilton, C. W., by the proprietors, WILLIAM GILLESPY and ALEX-ANDER ROBERTSON. It is issued daily, semi-weekly, and weekly, and has the largest circulation of any Canadian paper west of Toronto.

From the particular attention paid to Commercial intelligence, the Spectator has acquired a reputation for reliability, which has secured for it the Patronage of the Mercantile Community of Western Canada. The geographical position of the City of Hamilton, with its superior Railway con nection, affords great facility for the speedy trans mission of the Daily Spectator to the numerous thriving towns and villages between the Niagara and Detroit Rivers,-an advantage of which the proprietors have not failed to avail themselves The Semi-Weekly and Weekly editions (made up from the reading matter in the Daily) containing a great amount of news, at an extremely low price, enjoy a large and extended circulation among the agricultural classes, and those not immediately engrossed with the cares of politics or commerce, to whom the stimulus of a daily paper is not a necessity.

The Spectator (Daily, Semi-Weekly and Weekly) is therefore an excellent medium for advertising. The rates charged are the same as the published rate, generally adopted by the Canadian press, except for the weekly edition, for which double the usual rate is charged, on account of its large circulation being confined almost exclusively to the farming community, thereby admitting only the profitable publication, in its columns, of advertisements suited to this particular class.

13 The rates of subscription, payable in 1dvance, are :-Daily, per annum\$5.00 per copy. Semi-Weekly, " 3.00

Postmasters and others acting as Agents will be allowed a handsome commission from the above mentioned rates, and parties sending the namoft four new subscribers, with the cash, will be entitled to one copy free.

The success of the clubbing system as a means of supplying the public with CHEAP NEWS has already been tested by the Spectator. The plan, which was at first only applied to the Weekly has now been extended to the Semi-Weekly edition, and the rates payable in advance are, Semi-Weekly,5 or more copies,\$2 a year per copy

Weekly, 10 or more copies, \$1 a year per copy When Clubs are sent to ONE ADDRESS one copy for every five Semi-Weekly or ten Weekly will be given FREE to the getter up of the club, but where each paper is addressed from the office of publication no free papers will be given.

THE CASH SYSTEM In announcing to the public the adoption of the Cash System as applied to subscriptions, the proprietors of the Spectator may remark, that it has already been approved by all, and adopted by many Canadian newspapers, with mutual profit to the publishers and the public. The Credit System, however advantageous in other departments of business, has nothing to recommend its application to Newspapers, for while the individual Subscriptions are so trifling that neither hardship or difficulty can result from payment in advance, the aggregate amount is a matter of serious consequence to the publisher, and the expense of collection and losses form a heavy item which he is compelled to levy on the honest subscriber who takes the benefit of the credit; hence the public can understand why newspapers cost 20 or 25 per cent. more at the end than at the beginning of the year. The abolition of such a system will no doubt meet with the approval of the public, and while we will give every subscriber now in our books reasonable time to pay up arrearages, we shall not in future receive any subscribers but those who pay in advance. Complete arrangements will be made for notifying subscribers before the expiration of their terms of subscription. N.
