STANDARD.

DURHAM, OCTOBER 19, 1860.

In our endeavor to obtain for our readers the endiest information respecting the County Ag. cultural Show, we have been delayed too late for this morning's mail.

DURHAM AGRICULTURAL EX-HIBITION.

The above exhibition took place on the 12th inst., and notwithstanding the disagreeable state of the weather, was largely attended --While many Agricultural societies throughout the country are on the wane, Durham has this year shown increased zeal and vigor.

The excellence of our horned cattle were highly eulogized by the Judges and others from a distance. The show of young horses were quite equal in quality to those exhibited at the late Provincial Show; and we have been informed by those capable of judging that our prize Fall wheat was superior to that which took the Provincial, and Canada Company's prize. This should induce our farmers to become competitors in the Provincial Exhibition, especially in the article of grain ; for nowhere in Canada is there a soil better adapted to the growth of wheat, than is the County of Grey. The large and varied assortment of roots and other vegetables were quite in keeping with the excellence of the other departments.

Miss Ellen Davis and Miss Harriet Jones exhibited several well executed pieces of work in the Fine Arts-the latter a specimen of raised Berlin wool work, which for execution and design cannot readily be surpassed. Mr Colles had a number of well finished likenesses in the photographic art which attracted a crowd of admirers-especially the ladies. The fanning-mil of Mr. Rowswell surpasses anything yet shewn in Durham, and proves to be an excellent cleaner of grain. The double-waggon manufactured by Mr. Allen was highly creditable to his skill, combining excellence of finish with

durability and strength. It was admitted by all parties that the quality of our Show was in advance of the County Show held here last year.

There were 327 entries, and over \$160 a-

warded in prizes,

THE DINNER.

About six o'clock in the evening upwards of sixty gentlemen sat down to an ample and luxurious dinner prepared for them by Mr Elliott of the Durham hotel. The tables literally greaned under the weight of the tur keys, geese, roast beef, spiced ham, pies, puddings, and an innumerable host of et cetæras, with which it was loaded. Ample justice having been done these, the president or dered full bumpers, and gave as a toast, The Queen, which was received with all due hon- Junges .- Messrs. C. Gray, A. J. After a drive ing in time for the ball to-night.

Soon after reaching the hotel this morning. CHINESE SUGAR CANE .- A short time since a young fellow named Edward Moncaro, who disordered state of mind, rushed out on the crowded sidewalk, shaking his fists and exclaiming, "who are you?" "can whip you irg to Mr. Kelly's gardening abilities, we any way;" "you will never be King of England if you live a hundred years." Some spectators also declared he threatened to shoot the Prince, but others deny it He was arrested but no weapons were found on him. The Prince and suite paid no attention to the disturbance; they possibly did not hear the nsulting language. The Prince, by desire, planted two trees in the Central Park, one and P. Boyle, for a variety of roots, and gar- English oak the other American elm.

With reference to the election in Kings. Division, the York Herald says :

We think that one answer to the question is, Mr. Gamble owes his defeat to the foolish and mad advice of certain bad friends, who knew no more about the feelings of the electors of Kings Division than the man in the moon. By these men he was urged to act shabbily to the Markham Convention, and set aside its decision; indeed Mr. Gamble himself stated that these friends had represented to him that he would sweep Etobicoke, what purpose can such a declaration have house occupied by a colored man named Dan- and have large majorities in Vaughan and Scarboro'. He will now know what value to set upon these bad friends assurances. We told him he was too late, and could not be liberty to manage the education of their chil- finding that the inmates were of a different elected, and the result has proved that we were right. Mr. Perry received a unanimous deprived of their property, and by that means, windows with stones, some of them as large vote in Markham Village; he also canvassed with great ability and untiring energy King's Division. When he received the nomination every thing looked gloomy, but by his superior abilities and energy he turned the scales. and everywhere the prospect of success increased; and after all this was done by Mr. Perry, Mr. Gambles friends very unfairly compelled him (Mr. Perry) to retire from the lies. In general people are desirous of ob- ning. It almost appears a miracle how the field under a mistaken notion that they could taining a patent from the crown for land that inmates escaped being killed or severely return Mr. Gamble. To this cause Mr. Gamble owes a humiliating defeat; and what is much worse, he contributed to the success of and benefit. And when a man takes land or and innoffensive as can be, his only offence a party we well know he thoroughly abhors house upon lease, of course he agrees to what being covered by his Creator with a skin for we found it utterly impossible to get Mr. and when he is to pay for it, and then ex- darker than their own, but with a heart by no Perry's friends to vote for Mr. Gamble. I have pay for it, and then expects to hold it, subject to the rent which he gation into the matter this morning(18th inst)

I have pay for it, and investigate and justly, that Mr. Perry had been hardly dealt by, and stayed at home, some of the pay for it, dur-
