#### New Canadian Militia Regulations.

THE CHOOL OF INSTRUCTION AND THE GIVING

We understand that action has been taker by His Excellency the Commander-in-chief, in reference to the system under which candidates for commissions in the "Service" battalion of Militia, authorized by section 52 of the Militia Act of last session, may obtain certificates from the Commandant of the School of Instruction to be hereafter organ-

We think the principal poins of this system will be found in the subjoined summary, which the courtesy of a friend, usually wellinformed in relation to vionteer and militia matters, has placed at our disposal. Its contents are, moreover-we may add-confirmed by the statements current in official eireles:-Office:s under 45 years, at present holding politics of the generality of Orangemen do some paltry office or favored with the title of

rank in the Sedentary Militia, may become

Candidates, however, will not be confined to persons holding Commissions at present,

Candidates will be required, before appointed to Commissions in the "Service" Militia, to obtain a certificate from the officer in charge of the School of Instruction; and no person is to be promoted or appointed to the rank of a Field Officer in the "Service" Militia who shall not have obtained a first-class certificate. A first-class certificate shall be given to those candidates who will satisfy the officer in charge of the School of Instruction that they are competent to drill and manœuvre a battalion in the field, and that they are thorgiven to cardidates who prove themselves capable of commanding a company at battalion drill, as well as at company drill. But no certificate-either first or second class. shall be given to candidates who are not themselves thoroughly drilled as private sol-

Candidates will not be allowed to remain at the School of Instruction for a longer period than three months. The actual tavelling expenses of candidates to and from the Schools in question are to be paid. Candidates obtaining a second-class certificate shall be entitled to receive a gratuity of \$50; and a further sum of \$50, on obtaining a first class certificate.

Persons attending a School of Instruction shall be submitted, while so doing, to the discipline of the Regiment constituting such School; and those who are guilty of misconduct m y be dismissed by the Commanderin-Chief, on a complaint from the Commandant. Candidates shall not, however, while attending the School, be considered members of the regimental mess.

Names of persons desirous of becoming cardidates for Commissions in the "Service" Militia, are to be submitted to the Commander-in-Chief, through the Brigade-Major of each district to whom names will be forwarded by officers of the Sedentary Militia.

No fixed period of attendance at the Schools of Instruction will be required to enable the candidate to obtain his certificate -- knowledge and competency alone, however acquired, being the test. Persons, therefore, who have obtained a knowledge of company drill, by attending the musters of drill associations or by other means, before entering the School, will be enabled to obtain a second-class certificate almost at once; and a first-class certificate as soon as they give proof of sufficient knowledge.

### nada, its Anamalo s Position.

[From the Canadian Freeman.]

It is painfuul to think that the Irishmen- and reflect, and ask themselves, Ought we to and more especially the Catholic Irishmen- permit ourselves any longer to be made the of Canada, do not take a proper interest in the tools of a party that treats us with so much public affairs of the country, and endeavor to indifference and contempt? ## The Indian summer.

We always look forward to this season of the year with feelings of joy and happiness, and are never disappointed when it comes September and the piercing blasts of Winter. and way-worn traveller, who is wandering amid the sandy and sterile wastes of an Arawater, when the sun was blazing on the foliage they reflected, till it seemed as if we were looking into the entrance of Atladin's cave when his lamp first shed its light on the diamonds and rubies, and emeralds and sapphires and amethysis that were heaped up in astounding and bewildering magnificence at his feet. Behold the magic there is in the grand old woods at this season of the year. The hickory is a pyramid of gold; the maple a structure of blended gold and fire; while the leaves of the hoary and shaggy oak look as if freshly dipped in the crimson tide of a Magenta, a Sollerino or a Waterloo. Intermingled with these and bringing out the fuil force of the rich colors by contrast, stand the solemn cedars, the emeralds, spruces, and the dark green hemlocks; while between the rugged trunks of the aged trees, shoot up the slender shafts of the graceful birches. A group of gentlemen clothed in the sombre which modern bad taste has so absurdly adopted, seems strangely out of place in a wood-path during the Indian Summer. In our eyes nothing could be more appropriate than a company of the warriors of old with

their tawny skins and bright colored feathers, and bead trappings, and gleaming arms, and Alex. Riddell, resplendent war-paint. On these quiet silver | Donald Campbell, streams under the luxuriant and gorgeous William Murray, canopy of the forest foliage, the "light bark John Halliday, canoe" should be gliding, the dipping paddles John Corlett, held by young and enchanting Indian

We often see these visions flitting before our eyes as we sit in a dreary and abstracted mood under the shadow ot some lofty giant in the boundless forest, and as the zephyrs play among the trees, discoursing music sweeter than the strains of an Aeolian harp we wish that we could forever sit and listen For the permanent cure of Gonorrhea, Gleet, anxieties of a cold and selfish world.

foilage or its splendid hues. Even under the rays of a full moon the autumnal tints are all merged in a uniform green. But if it breaks in their private practice, with entire success, suthe peculiar charm of the Indian summer, it perseding Cubebs, Copaiba, Capsules, or any beguiles our senses with the semblance of compound hithert known.
