The horse Kingcraft won the Derby this year, making the race in 2:45. Palmerston came in second and Master close behind, third. McGregor, the favorite, fell behind, to the astonishment of all, and utterly failed to meet the high expectations of sportsmen.
The fruit crop of 1870 is said to be excellent in all parts of the country, with brilliant prospects for an abundant yield.

SPECIAL NOTICE.

Progress.—In a country like ours, where there are those who yet remember the privations and inconveniences of the old-fashioned machinery, it is not surprising that the many mechanical improvements and labor-saving machines indicate a progress unparalleled in history. We have now machinery to lighten the labors of seed-time and harvest—inventions to increase the comforts of life—and to facilitate communication. To lessen mortality and stop the inroads of disease, we have the great Sarsaparilla Remedy for diseases of the lungs, liver, and kidneys. For sale by all Druggists. 1874.

FARMERS,
MECHANICS
and all interested in GIVING & TAKING
Money, remember that

U. S. Silver

Is not at Par Value,
and that no Storekeeper can make it Par
Value any more than he can make
Fourteen Ounces a Pound,
or
30 INCHES A YARD.

If you take United States silver at six or eight per cent more than it is worth, either in CHANGE, or for LABOUR, or for PRODUCE, you will be the loser.
You may be told that it will be taken from you at par again; if you believe that Storekeepers will lose eight per cent on

DEPRECIATED SILVER,
without an advance on the goods you buy,
you will be easily persuaded.

Test the Prices of Goods
AT
Wm. Ashdown's
"DURHAM HOUSE,"
LOWER TOWN,
and you will see the difference.

American Silver is taken and given in change at the following rates:
HALF DOLLAR, 47 Cents.
QUARTER DOLLAR, 23 "
DIME, 9 "
HALF DIME, 4 "

GIVE THE PREFERENCE
to money the value of which is known and fixed, and repudiate the snare laid by interested parties who have a lot of DEPRECIATED SMALL CHANGE to get rid of, and

Don't take their Silver at Par.

An opportunity will be thus afforded to procure, at all times, Spectacles Unequaled by any for their Strengthening and Preserving Qualities.
Too much cannot be said of their SCREEDILITY over the ordinary glasses worn. There is no GILMERING, WAKING OF THE EIGHT, DIZZINESS, or other unpleasant sensation, but on the contrary, from the peculiar construction of the Lenses, they are SOOTHING AND PLEASANT, causing a feeling of relief to the wearer, and PRODUCING A CLEAR AND DISTINCT VISION, as in the NATURAL HEALTHY STATE. They are the only Spectacles that
Preserve as well as Assist the Sight.
And are the CHEAPEST because the Best, always lasting many years without change being necessary.
