

THE TEXT OF THE TREATY

BETWEEN THE UNITED STATES AND GREAT BRITAIN.

Details of the Agreement—Made to settle all Disputes—How the Arbitrators are to be Chosen.

The preamble expresses the desire of Great Britain and the United States to consolidate the relations of amity happily existing between them, and to consecrate by treaty the principle of international arbitration.

Article I.—The parties agree to arbitrate, subject to this treaty, all questions in difference which they may fail and adjust themselves by diplomatic negotiations.

Article II.—All pecuniary claims or groups of claims, which in the aggregate do not exceed £100,000 in amount and do not involve the determination of territorial claims, shall be dealt with and decided by an arbitration tribunal constituted as provided for in the following articles.

Article III.—Each party shall nominate one arbitrator, who shall be a jurist of repute, and the two arbitrators so nominated shall, within two months of their nomination, select an umpire. In the event of their failing to do so within the limit of time, the umpire shall be appointed by agreement between the members of the Supreme Court of the United States and the members of the Judicial Committee of the Privy Council of Great Britain.

Each nominating body shall act by a majority. In case they fail to agree upon an umpire within three months, the umpire shall be selected, in the manner provided for in Article X, the person so selected shall be president of the tribunal. The award of a majority of the members shall be final.

PECUNIARY CLAIMS.

Article IV.—All pecuniary claims or groups of claims exceeding £100,000, and all other matters in respect whereof either of the parties shall have rights against the other under the treaty or otherwise, provided they do not involve territorial claims shall be decided by the tribunal constituted as follows:—

Article V.—Any subject of arbitration described in Article IV, shall be submitted to the tribunal provided for in Article III, the award whereof, if unanimous, shall be final. If not unanimous either party may within six months from the date of the award demand a review thereof. In such case the matter in dispute shall be submitted to an arbitration tribunal consisting of five jurists of repute, no one of whom has been a member of the tribunal whose award is to be reviewed, and who shall be selected thus, namely, two by each party, one to act as umpire, by these four and to be chosen within three months from nomination. Failing to appoint by agreement of the nominating bodies in Article III. In case they do not agree upon an umpire within three months of the date applied to by the parties the umpire shall be selected as in Article X, the person so selected to be president. The award of a majority shall be final.

Article VI.—Any controversy involving the determination of territorial claims shall be submitted to a tribunal of six members, three of whom, subject to the judgment of the Superior Court, shall be judges of circuit courts, to be nominated by the President of the United States. The other three members shall be judges of the British Supreme Court, or members of the Judicial Committee of the Privy Council, to be nominated by the Queen. Their award by a majority of not less than five to one shall be final. If there is less than the prescribed majority the award shall also be final, unless either party within three months protests that the award is erroneous. If the award is protested, or if the members of the tribunal are equally divided, there shall be no recourse to hostile measures of any description until the mediation of one or more friendly powers shall have been invited by one or the other party.

Article VII.—Objections shall not be made to the jurisdiction of the tribunal except thus: If before the close of the hearing of the claim the tribunal shall decide, upon the motion of either party, that the determination of a disputed necessity involves a decision of a disputed question of principle affecting the national rights of such party as distinct from its private rights, of which it is merely an international representative, the jurisdiction of the tribunal over the claim shall cease and the same shall be dealt with by arbitration under Article VI.

Article VIII.—Where the question involved concerns a particular State or territory of the United States the President may appoint a judicial officer

of such State to be one of the arbitrators. Similarly in the case of a British colony, her Majesty may appoint an officer thereof to be one of the arbitrators.

TERRITORIAL CLAIMS.

Article IX.—Territorial claims shall include all claims to territory and all other claims involving questions of servitude, rights of navigation, access to fisheries and all rights and interests necessary to control the enjoyment of either's territory.

Article X.—If the nominating bodies designated by Articles 3 and 5 do not agree upon an umpire the latter shall be appointed by the King of Sweden.

Here follows a paragraph which the Chronicle is unable to provide for the withdrawal of the treaty in the event of either party notifying the other that changes in existing conditions make withdrawal desirable.

Article XII. provides for each party paying its own counsel and arbitrators, but in the event of essential matters of difference it is the right of either party to receive disavowals or apologize for acts of the other not resulting in substantial pecuniary injury, the tribunal finally disposing of the matter direct where the unsuccessful party bears any other expense.

Article XIII.—The time and place of meeting and all questions of procedure shall be decided by the tribunal itself. This article also deals with the keeping of the records and stipulates that a decision shall be made if possible within three months from the close of the arguments.

Article XIV. provides that the treaty shall remain in force five years from the date it becomes operative, and until a year after either party shall have notified the other of its wish to terminate it.

Article XV.—The treaty shall be ratified by the President and the Queen, the ratifications to be exchanged at Washington or London within six months of the date thereof.

WOMEN'S WEAKNESS,

Female Complaints Combined With Kidney Troubles are Fatal.

LUCKY WOMAN ESCAPED.

Consented to Try Dodd's Kidney Pills, the Premier of Proprietary Medicines, and is Now Strong and Well—One Box Cured Her.

Walkerton, Ont., Jan. 18.—Half a dollar saved a woman's life in this town not many months ago—only last August to be exact.

Half a dollar is the price of a box of DODD'S KIDNEY PILLS. One box of these far-famed and justly-famed pills was enough to put Mrs. Elwena Agy on her feet, when she was very ill with female complaint, combined with Kidney trouble.

With this example in view, why should there be a single woman in Canada tottering on the brink of the grave, or going about her work dragged down, dispirited, despondent, and discouraged? Kidney diseases are fatal. They mean slow death, if not cured. But there is a cure, and it is the purpose of these lines to demonstrate it. Here is Mrs. Agy's testimonial:—

Gentlemen,—I have been troubled with a complaint called women's weakness and Kidney trouble. I read of the many cures DODD'S KIDNEY PILLS had done. I consented to try them. I have used one box and I am completely cured. No pains or backaches have ever come back. I can highly recommend them to all women. You may publish this so as to help others.

MRS. E. AGY, Walkerton, Ont. August 8.

Any druggist has DODD'S KIDNEY PILLS. If your druggist should be out of them, address the DODD'S MEDICINE COMPANY, Toronto. Price fifty cents a box; six boxes for \$2.50.

Carry—"Jack thinks I'm fickle." Lena—"That's probably the reason he doesn't propose a second time."

KEEN COMPETITION.

"Climb up higher to get away from competition." has been the motto of the Central Business College of Toronto. The result is that it is now the largest and best patronized school of its kind in Canada. Improved courses of actual business training, modern and complete equipment, and the services of a full staff of seven experienced teachers are some of the advantages enjoyed by the many young people who attend this popular and progressive business school. It well deserves the foremost place among its competitors.

Tagleigh—"Balloon sleeves were bound to go up in the end." Wagleigh—"Sure. That is why they were named balloon sleeves."

DREADFULLY NERVOUS.

Gents.—I was dreadfully nervous, and for relief took your Karl's Clover Root Tea. It quieted my nerves and strengthened my whole Nervous System. I was troubled with Constipation, Kidney and Bowel trouble. Your Tea soon cleared my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford, Conn. Sold by all druggists.

AN OVER ZEALOUS SENTRY.

A London correspondent relates the following remarkable incident. The story is that while walking in a park at Tsarkoe the Czar summoned to his side a gardener he saw working about the grounds. The man obeyed with alacrity, when an over-zealous sentry, mistaking the gardener's approach for an evidence of hostility, shot him dead within a few feet of where the Emperor stood. Whether the story be true or not, the occurrence is unfortunately not too improbable, considering the high nervous tension of every official of the Russian Court, and the ever-present thought of assassination which, if the face is any index to the fears within, was never absent from the mind of the Czar himself.

MORTAR MIXED WITH MUSK.

The Mosque of St. Sophia, at Constantinople, was built with mortar percolated with musk. It was erected 1,000 years ago, yet the musk smell is still noticeable.

HEART FAILURE,

Great Danger Involved in Weak Heart Action.

The Trouble Can be Cured, and Mr. D. A. Bullock, of Georgeville, Points Out the Road to Renewed Health.

From the Magog, Que., News.

Mr. D. A. Bullock, boatbuilder, of Georgeville, is well and favorably known to all the residents of that village. He has passed through a very trying illness from which his friends feared he could not recover, but he is once more happily enjoying good health.

To a correspondent of the Magog News Mr. Bullock recently gave the particulars of his illness and cure, saying that he would be very glad if his experience would prove helpful in enabling someone else to regain health. He says:—"There is no doubt in my mind that Dr. Williams' Pink Pills brought me from the horrors of death to the glad cheerful world. Some years ago, owing to overwork and trouble I was reduced to a weak state of health, wherein the heart failed to do its work properly, and not unnaturally the stomach became inactive. I had visits from three doctors, but without beneficial results. The medicine given by one of them caused a nervous shock that prostrated me for several weeks. The last one who treated me gave me a preparation of strychnine which upset my kidneys to such an extent that I was confined to the house and daily growing weaker. I had to keep stimulants constantly at my side to keep the heart at work, and even with this artificial aid its action was very faint. Then I began to try advertised medicines, but still without any good result. I lost strength, flesh and hope. I was advised to try Dr. Williams' Pink Pills and that reminded me that I had a box of them at my place of business, which had been lying there for more than a year. Without very much confidence in them I decided to give the pills a trial. The result I must confess seemed to be almost magical. I had not taken them long when I was able to rest in my chair and take good refreshing sleep, something that had not taken place for months before. From that day with the use of the Pink Pills I continued to gain in strength, and am to-day a strong and healthy man. I believe that even Pink Pills should be assisted in their good work on the system, and that assistance is exercise, and this exercise I took from the time I began to regain my strength. I have now every faith in this medicine and believe if those who are sick will use it, health will be the reward."

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, spinal troubles, locomotor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., these pills are superior to all other treatment. They are also specific for the troubles which make the lives of so many women a burden, and speedily restore the rich glow of health to pale and sallow cheeks. Men broken down by overwork, worry or excesses will find in Pink Pills a certain cure. Sold by all dealers, or sent by mail postpaid, at 50c. a box, or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y. Beware of imitations and substitutes alleged to be "just as good."

GUN OF THE EVENING.

I suppose there were some bright things said at Mrs. Lionnerts' literary dinner party last night? A few.

Who got off the most interesting? The butler—when he remarked that dinner was ready.

Be Not Deceived. A Cough, Hoarseness or Croup, are not to be trifled with. A dose in time of Shiloh's Cure will save you much trouble. Sold by all druggists.

First artist—"Where did Scratwell get his artistic education?" Second artist, savagely—"At some school for mechanical drawing."

Karl's Clover Root Tea is a pleasant laxative. Regulates the bowels, purifies the blood, clears the complexion. Easy to make and pleasant to take. 25 cents. Sold by all druggists.

She—"The Misses Brown usually sing duets, do they not?" He—"Yes; they divide the responsibility."

Cure the Cough with Shiloh's Cure. The best Cough Cure. Relieves Croup promptly. One million bottles sold last year. 40 doses for 25 cents. Sold by all druggists.

For the Kidneys, Liver and Urinary Organs.

THERE is only one way by which any disease can be cured, and that is by removing the cause, whatever it may be. The great medical authorities of the day declare that nearly every disease is caused by deranged Kidneys or Liver. To restore these, therefore, is the only way by which health can be secured. Here is where

Safe Cure

has achieved its great reputation. It

ACTS DIRECTLY UPON THE KIDNEYS AND LIVER

and by placing them in a healthy condition drives disease and pain from the system.
