The Ibex Group includes the following claims: "The Triangle," "Ibex," "Liddesdale," ing in this region is a mere fraction and "Gilt Edge" The three first were located under the old law, which permits the owner to

### FACTS WHICH SPEAK.

Few shares on the market, in case of proved mines, always mean high prices for the few Brockville, Mar. 8 (Special)—Mr. W. do all that's claimed for them. 20 cents being inexpensive, develop the develop the first develop the properties, and therefore owners have to-day; of the Slocan Star, selling \$2.50, and all the other big producers. Only one-sixth of

If a \$300,000 mine is over-capitalized, say for \$1,000,000, the chances for profitable investment are nil. But if a \$1,000,000 mine be capitalized for \$300,000, so much the better for the shareholder. The Ibex is capitalized for \$300,000. In such Slocan Galena mines as the Ibex Group, which pay from the very surface, and are operated at a mere fraction of the cost of the sulphide ores, there is absolutely no excuse for throwing large blocks of stock on the market. Especially is this true where the mine has been brought past the risky and experimental "prospect" stage, and has been thoroughly developed and made a shipping mine before stock has been offered to the public. The Ibex of Slocan is a developed shipping mine. Hundreds of expert mining men with ample capital are already on the scene, and rich prospects are no longer to be had for the picking up in any of the mining centres. The best kind of a mining longer to be had for the picking up in any of the mining centres. investment is a developed shipping mine where big profits will accrue from increased value of the stock and from dividends. A fact worthy of mention in this connection is, that not one share of stock has been given away to the "Powers and Principalities" in order to secure ornamental names for the prospectus. There have been no "rake offs" in order to boom the stock, the owners considering it far too valuable to give away or to undersell for any purpose,
The Ibex will be operated by the present owners. Time and time again they have been approached by the representatives of English syndicates, and asked to put a price on the property.

Only one reply has ever been given: "That the Ibex is not on sale."

SMELTING RETURNS OF THE FIRST LARGE SHIPMENT OF ORE From the Ibex Mine of Slocan has just been received, showing the value to be eighty-five dollars and fifty-one cents—\$85.51—per ton. This is an excellent showing, the average smelling returns from Trail Creek mines being only \$35 per ton.—Revelstoke Herald,
