THE TRAIL OF DEATH

JE It begins at the Throat and ends at the Grave & How many a human life is unnecessarily sacrificed.

There are many remedies on the market for the cure of consumption, but consumption, once it reaches a certain stage, cannot be cured. In professing, therefore, to do what is impossible, these remedies prove themselves to be simply

Consumption is a disease which destroys the tissue of the lungs. Once gone, no medicine can replace that tissue. Good medicine may arrest the disease even after one lung is wholly gone, as long as the other remains sound. Once both are attacked, however, the victim is doomed.

Just why people should risk their lives to this dread disease and go to great expense afterwards to check it, it is hard to conceive. It is much easier prevented than cured. Throat troubles and severe colds are its usual forerunners. A 25-cent bottle of Dr. Chase's Syrup of Linseed and Turpentine will drive these away. It is, without doubt, the best medicine for the purpose to be had anywhere.
